# ASSEMBLY INSTRUCTIONS

---

Assembly is designed to be simple and enjoyable, typically taking about 1 hour. No glue or additional tools are required.

1. **Unpack and Organize:** Carefully remove all wooden sheets and the instruction manual from the packaging. Identify the different colored sheets and corresponding parts.
2. **Identify Parts:** Each piece is precision-cut. Gently push out the pieces from the wooden sheets. Refer to the instruction manual's diagrams to identify each part by its label (e.g., A1, B2, C3).
3. **Smooth Edges (Optional):** If any pieces have rough edges after removal, use the provided sandpaper to gently smooth them.
4. **Follow Step-by-Step Diagrams:** The manual provides clear, illustrated steps. Assemble the Poinsettia flower components first, then the pot.
5. **Connect Pieces:** Interlock the pieces according to the diagrams. Ensure a snug fit without forcing, as this may damage the wood.
6. **Assemble the Flower:** Begin by constructing the individual flower petals and centers, then attach them to the main stem structure.
7. **Assemble the Pot:** Construct the decorative pot using the designated wooden pieces.
8. **Combine Flower and Pot:** Once the flower and pot are assembled, carefully insert the flower's stem into the designated slot in the pot.
9. **Secure the Base (Optional):** For added stability, use the provided adhesive stickers on the bottom of the pot to secure it to a surface.

## **MAINTENANCE**

To maintain the appearance of your wooden puzzle:

- Dust regularly with a soft, dry cloth.
- Avoid direct sunlight or extreme temperatures to prevent warping or fading of the wood.

- Do not expose to water or high humidity.

## TROUBLESHOOTING

---

- **Pieces are too tight:** Do not force pieces. Use the provided sandpaper to gently sand down the connecting tabs until they fit smoothly.
- **Pieces are too loose:** If a connection is too loose, a small amount of craft glue can be used to secure it. Apply sparingly.
- **Broken piece:** While the pieces are sturdy, they can break if excessive force is applied. If a piece breaks, craft glue can often repair it. Contact customer support if a critical piece is irreparably damaged.
