Lamicall STTP07

Lamicall Ultra-Compact Magnetic Phone Tripod Stand

Model: STTP07

INTRODUCTION

The Lamicall Ultra-Compact Magnetic Phone Tripod Stand (Model STTP07) is a versatile accessory designed to enhance your mobile photography and viewing experience. Crafted from durable aluminum alloy, this stand offers multiple functionalities including a desktop stand, selfie stick, handheld grip, and a unique mantis hook for secure attachment to various surfaces. Its strong magnetic hold ensures your device remains stable, while adjustable axes provide flexible positioning for any angle.

WHAT'S IN THE BOX

- 1 x Magnetic Tripod Stand
- 1 x Hex Wrench
- 1 x Metal Ring (for non-MagSafe devices)
- 1 x User Manual

SETUP

Attaching the Metal Ring (for non-MagSafe devices)

If your smartphone or phone case does not have built-in MagSafe functionality, use the included metal ring to enable magnetic attachment. This ring ensures a strong and secure connection with the tripod stand.

1. Clean the back surface of your phone or case thoroughly to ensure proper adhesion.
2. Peel off the protective backing from the adhesive side of the metal ring.
3. Carefully center and press the metal ring firmly onto the back of your device or case. Ensure it is aligned correctly for optimal magnetic connection.
4. Allow the adhesive to cure for a few hours before attaching the tripod stand.

OPERATING INSTRUCTIONS

The Lamicall Tripod Stand offers multiple modes for various uses. Its triple-axis design allows for precise angle adjustments.

1. Desktop Stand Mode

Unfold the stand's legs to create a stable base. Adjust the articulated arms to achieve your desired viewing angle for video calls, watching media, or hands-free operation. The magnetic ring allows for 360° rotation of your phone.

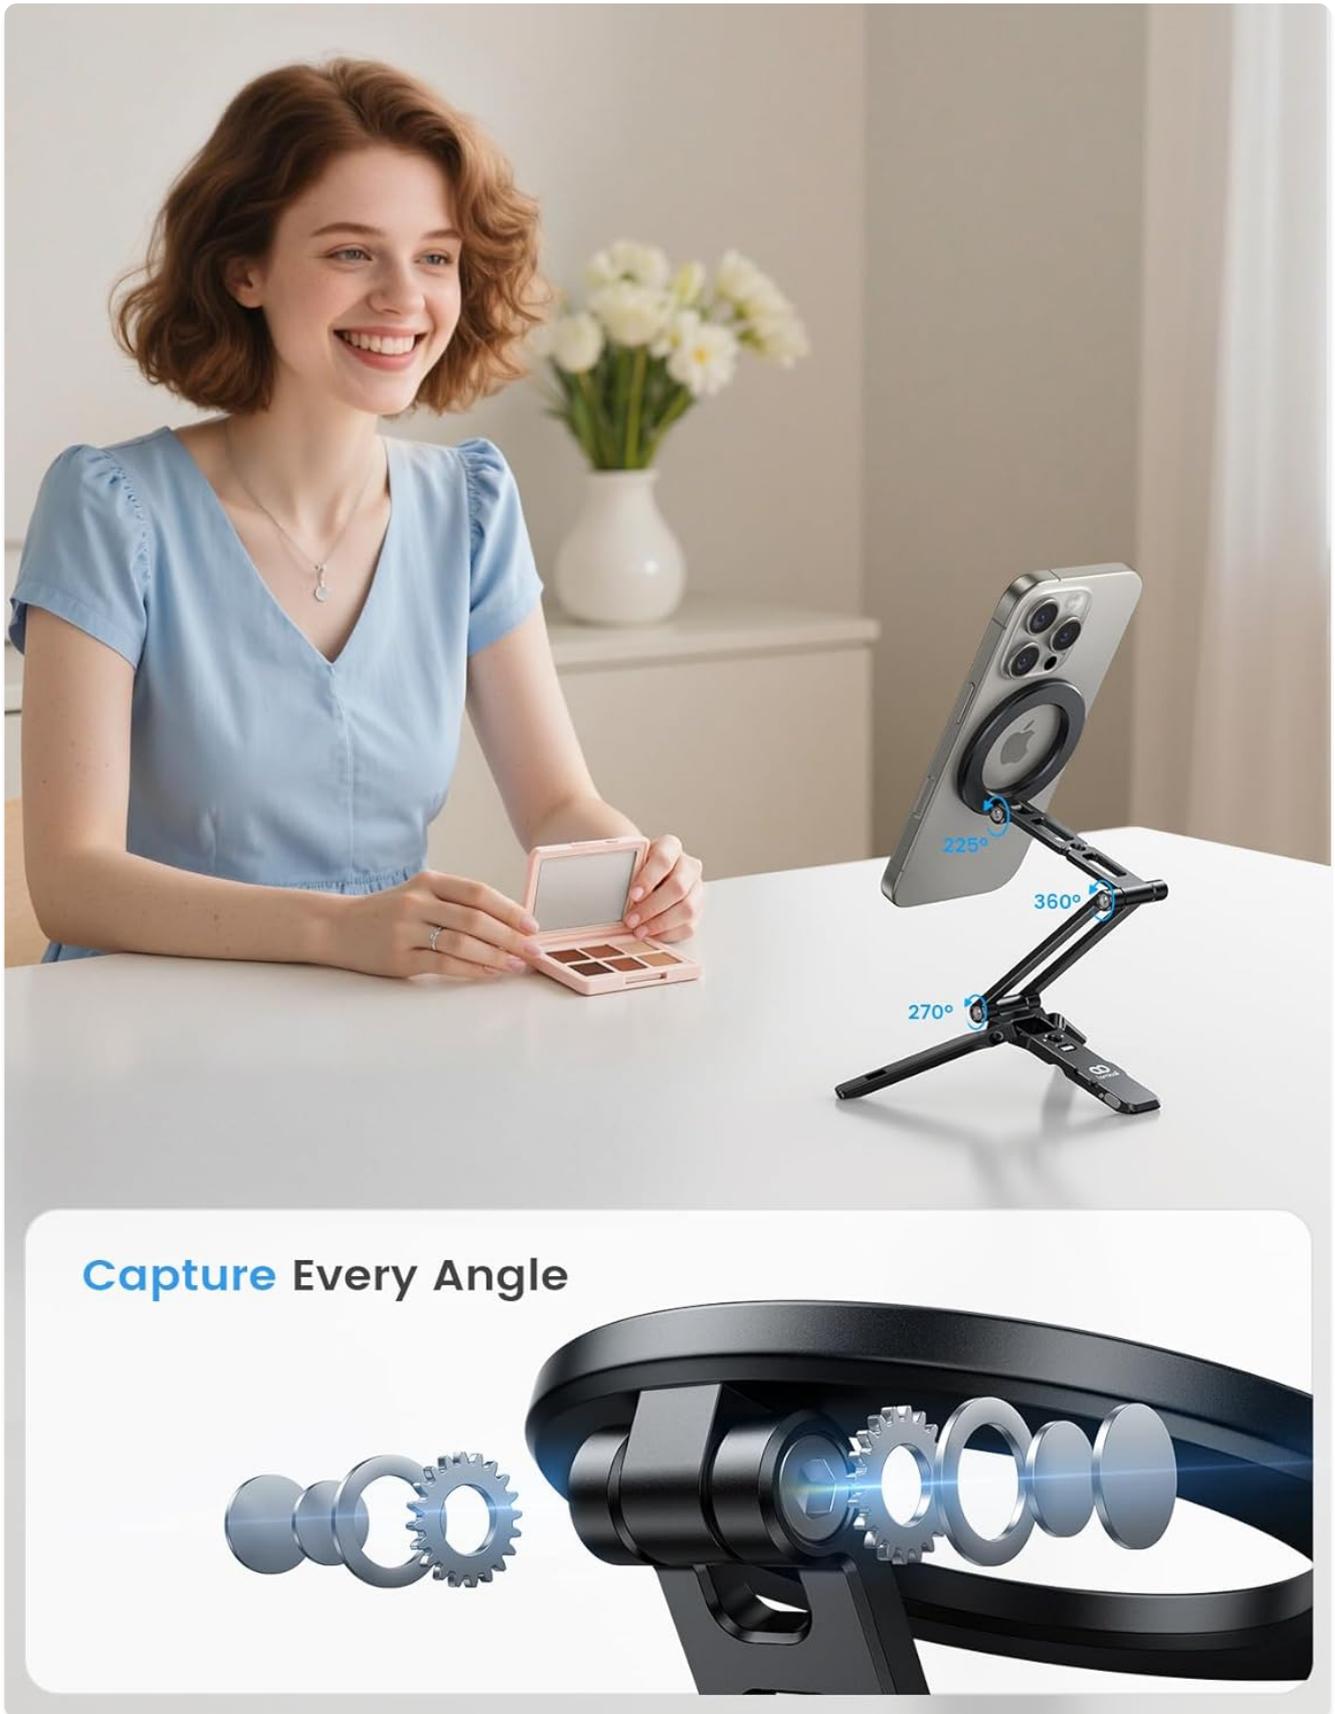

Figure 2: Using the stand in Desktop Stand Mode.

2. Selfie Stick Mode

Fold the legs inward to form a comfortable grip. Extend the arms to create a selfie stick for capturing wider shots or group photos. The strong magnetic connection keeps your phone secure.

Figure 3: The stand configured as a selfie stick.

3. Handheld Mode

For dynamic low-angle shots or stable video recording while moving, keep the legs folded and hold the stand directly. The ergonomic design provides a comfortable grip.

EASILY SWITCH BETWEEN MULTIPLE MODES

The perfect device for shooting

4. Mantis Hook Mode

Utilize the unique mantis hook feature to securely grip onto railings, chair backs, tray tables, or other suitable edges. This allows for hands-free viewing or recording in unconventional locations.

ALL IN ONE

Suitable for multiple devices

5. External Tripod Mounting

The stand features Arca-Swiss standard compatibility and 1/4" screw mounts. This allows you to attach the Lamicall stand to larger tripods or other professional photography equipment for enhanced stability and versatility.

WIDE COMPATIBILITY

MAINTENANCE

- **Cleaning:** Wipe the stand with a soft, dry cloth to remove dust and fingerprints. Avoid using abrasive cleaners or solvents.
- **Joint Tightening:** If the adjustable joints become loose over time, use the included hex wrench to carefully tighten the screws at the pivot points. Do not overtighten.
- **Storage:** When not in use, fold the stand into its compact form and store it in a dry place to prevent damage.

TROUBLESHOOTING

- **Weak Magnetic Hold:** Ensure your phone or case is MagSafe compatible. If not, apply the included metal ring correctly to the back of your device or case. Ensure no obstructions are between the phone and the magnetic surface.
- **Stand Instability:** Verify that the legs are fully extended and positioned on a flat, stable surface in desktop stand mode. For handheld use, ensure a firm grip.
- **Stiff or Loose Joints:** Use the provided hex wrench to adjust the tension of the joints. Tighten for loose joints or slightly loosen for stiff joints.

SPECIFICATIONS
