WIN STELLAR 28" x 80" Frosted Glass Door Slab (ASIN: B0CH34BKFL)

WINSTELLAR 28 x 80 Interior Frosted Glass Half Door Slab Instruction Manual

Model: 28" x 80" Frosted Glass Door Slab

PRODUCT OVERVIEW

The WINSTELLAR 28 x 80 Prebuilt Interior Frosted Glass Half Door Slab is a heavy-duty door designed for various interior applications such as bedrooms, pantries, and laundry rooms. This door slab features a solid core CARB P2 Certified MDF wood construction and thickened tempered frosted glass, ensuring durability, privacy, and sound dampening. It arrives triple-primed and fully assembled, ready for easy installation and painting to match your interior decor.

SETUP AND INSTALLATION

This product includes only the door panel. Hardware such as pocket door frames, soft-close mechanisms, or prehung door jambs are not included and must be purchased separately. The door is designed for straightforward installation as a prehung, pocket, French, or barn door.

Dimensions and Opening Requirements:

- **Door Panel Width:** 28 inches
- **Door Panel Height:** 80 inches
- **Door Panel Thickness:** 1.4 inches
- **Fits Openings (after jamb installed):** 28-1/4 inches (width) x 80-1/2 inches (height)
- **Fits Rough Openings (before jamb installed):** 30 inches (width) x 82 inches (height)

Note: The door opening needs to be slightly larger than the door size for proper fit and operation.

70% More Sound-Dampering Than Hollow Core

Pre-Assembled and Paintable:

The door arrives fully assembled and triple-primed, eliminating the need for sanding or additional priming before painting. Its smooth, uniform surface is ready for your preferred paint color, allowing for easy customization to match your decor.

PRE-ASSEMBLED PANELS

Removing the hassle of
lengthy **alignment** and **setup processes**

OPERATING FEATURES

The WINSTELLAR door slab is designed for functional performance and aesthetic integration into your living space.

Privacy and Sound Dampening:

The frosted tempered glass provides privacy while allowing natural light to filter through. The solid core construction of the door offers enhanced sound dampening properties, making it suitable for areas where noise reduction is desired, such as bedrooms or offices.

EASY-TO-CLEAN PREMIUM TEMPERED FROSTED GLASS

Removing the hassle
of fingerprint and
scratch

MAINTENANCE AND CARE

To ensure the longevity and appearance of your WINSTELLAR door, follow these simple maintenance guidelines:

- **Cleaning the Glass:** The SGCC certified tempered frosted glass is designed to be easy to clean and resistant to fingerprints and scratches. Use a soft, damp cloth with a mild glass cleaner to wipe the surface. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Door Panel:** For the MDF wood panel, wipe with a soft, dry or slightly damp cloth. Avoid excessive moisture.
- **Painting:** If you choose to paint the door, ensure the surface is clean and dry. Use high-quality interior paint suitable for MDF surfaces.
- **Regular Inspection:** Periodically check the door for any signs of wear or damage. Address any issues promptly to prevent further deterioration.

TROUBLESHOOTING

This section addresses common concerns that may arise during or after installation of your door slab.

- **Door does not fit opening:** Double-check your measurements against the 'Dimensions and Opening Requirements' section. Ensure the rough opening and finished opening dimensions are appropriate for the 28" x 80" door slab. Remember that the opening should be slightly larger than the door itself.
- **Door appears warped or damaged:** Inspect the door upon arrival for any transit damage. If damage is found, contact the seller immediately. Ensure the door is stored flat in a climate-controlled environment before installation to prevent warping.
- **Paint does not adhere properly:** Although the door is triple-primed, ensure the surface is clean, dry, and free of dust or grease before painting. Use a high-quality primer if you are applying a significantly different type of paint or if you experience adhesion issues.
