## 3. SETUP

### 3.1 Initial Charging

Before first use, fully charge your IMSVEPR Smart Watch LC211. Connect the provided charging cable to the watch's charging port and a USB power source. A full charge typically takes 2-3 hours.

### 3.2 App Installation and Pairing

To unlock the full functionality of your smart watch, download the companion application on your smartphone. The app is available for both Android and iOS devices. Follow the on-screen instructions within the app to pair your watch via Bluetooth. This process typically involves:

1. Enabling Bluetooth on your smartphone.
2. Opening the companion app and creating an account or logging in.
3. Selecting 'Add Device' or similar option within the app.
4. Selecting your IMSVEPR Smart Watch LC211 from the list of available devices.
5. Confirming the pairing request on both your phone and watch.

## 4. OPERATING THE SMART WATCH

### 4.1 Bluetooth Calling and Notifications

The IMSVEPR Smart Watch LC211 allows you to make and receive calls directly from your wrist. It also displays notifications from various social media applications when connected to your smartphone.

- **Making Calls:** Access the dial pad or contacts list on your watch to initiate a call.
- **Receiving Calls:** When a call comes in, the watch will vibrate and display caller ID. You can answer or reject the call directly from the watch.
- **Notifications:** The watch vibrates to alert you of incoming messages from apps like Facebook, WhatsApp, Instagram, and Twitter.

## Bluetooth Call & Message Notifications

### 4.2 Built-in GPS and Compass

For outdoor activities, the watch features built-in GPS for activity tracking and a high-precision compass for navigation.

- **GPS Tracking:** Records your route, distance, pace, and other metrics during outdoor workouts.
- **Compass:** Provides directional guidance, useful for hiking and exploration.

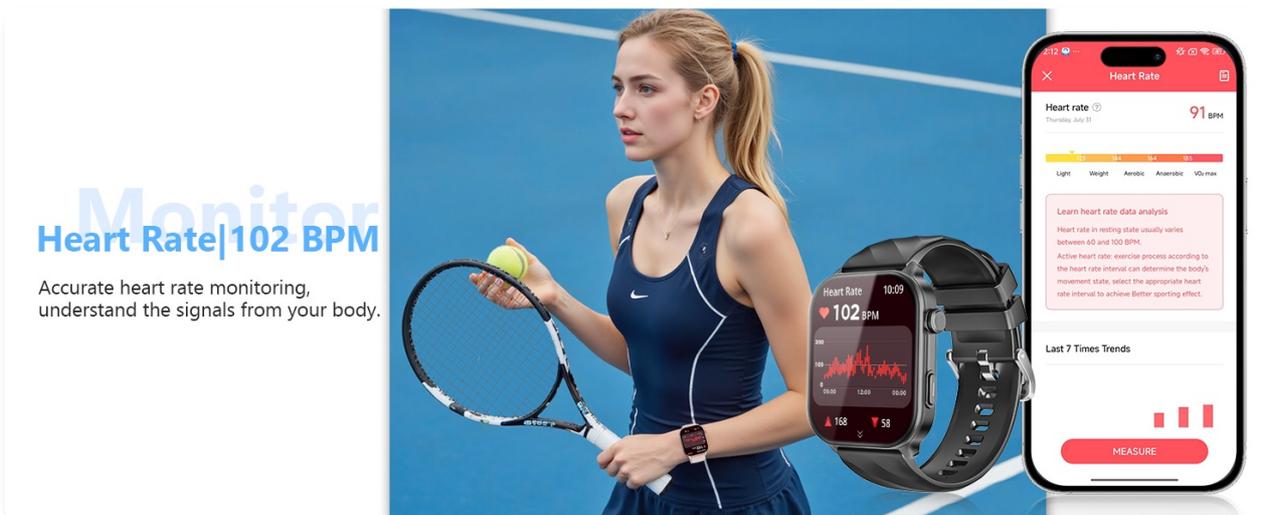

Image 4.2: Visual representation of GPS sports tracking and the integrated compass.

### 4.3 Health Monitoring

The watch continuously monitors various health metrics to provide a comprehensive overview of your well-being.

- **Heart Rate:** Automatic 24/7 heart rate tracking.
- **Blood Oxygen (SpO2):** Monitors blood oxygen levels.
- **Sleep Quality:** Tracks sleep stages (awake, light, REM, restful) and provides sleep quality reports.
- **Stress Levels:** Monitors and helps understand your stress patterns.
- **Female Cycle Tracking:** Accurately predicts menstruation and ovulation.

## Multifunctional Applications

## 5. MAINTENANCE

---

### 5.1 Battery Life

The IMSVEPR Smart Watch LC211 is equipped with a 360mAh battery, offering extended usage times:

- **Full Charge Time:** 2-3 hours.
- **Daily Use:** Up to 7 days.
- **Standby Time:** Up to 35 days.
- **Heavy Use (calls & GPS):** Approximately 3 days.

## Female Cycle Tracking

Scientific cycle tracking accurately predicts menstruation and ovulation, helping you better understand your body rhythms and plan important schedules.

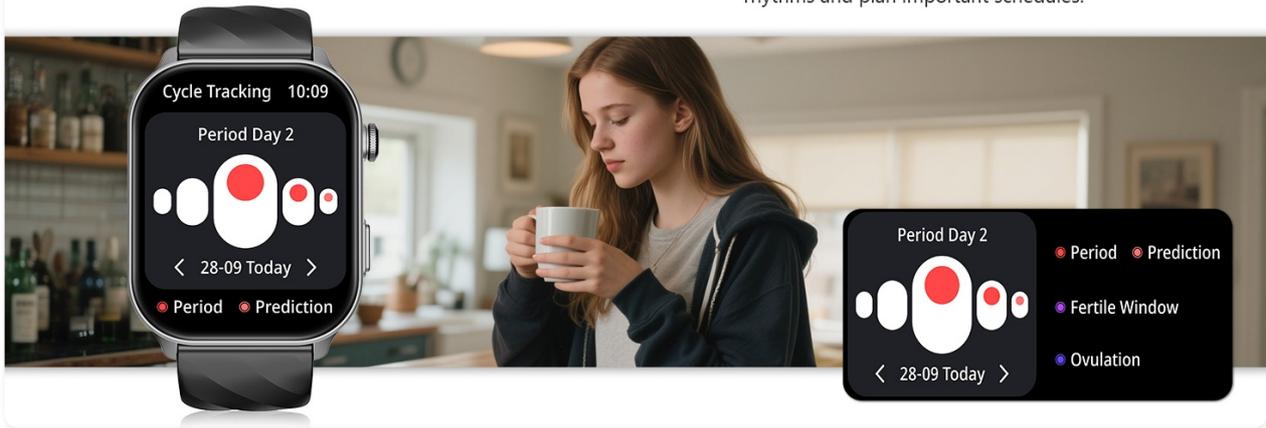

Image 5.1: Details on battery life and charging.

### 5.2 Water Resistance

The watch has a 1 ATM water resistance rating, making it suitable for daily activities involving water exposure.

- **Suitable for:** Washing hands, showering, sweating, and light rain.
- **Not suitable for:** Swimming, diving, or high-pressure water activities.

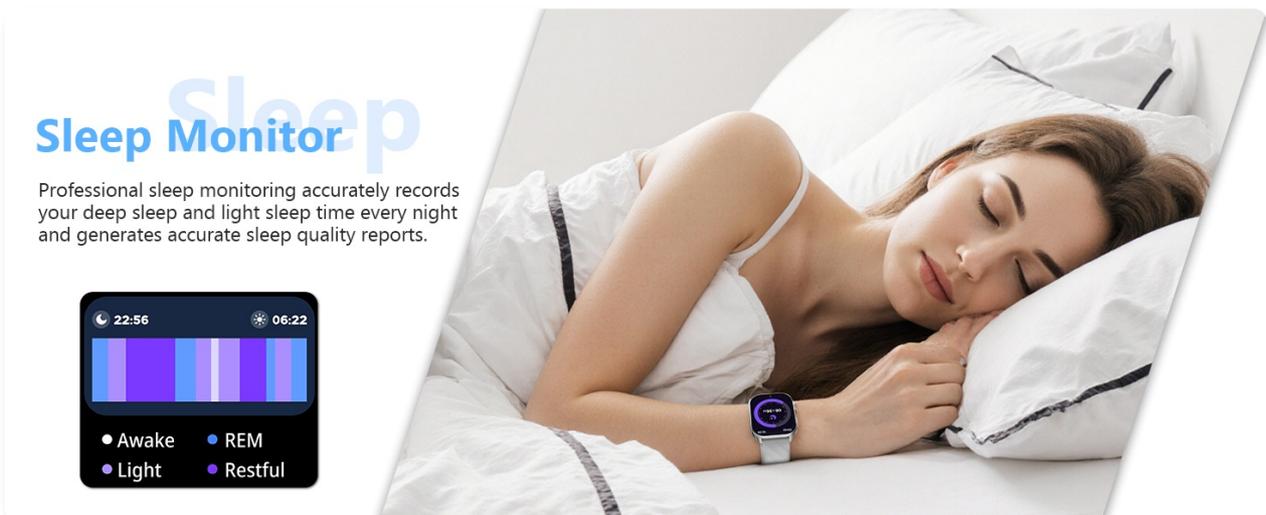

Image 5.2: Visual representation of the watch's 1 ATM water resistance.

## 6. TROUBLESHOOTING

If you encounter issues with your IMSVEPR Smart Watch LC211, consider the following common solutions:

- **Watch Not Turning On:** Ensure the watch is fully charged. Connect it to the charging cable and a power source for at least 30 minutes.
- **Connection Issues:** Verify Bluetooth is enabled on your smartphone and the watch is within range. Restart both the watch and your phone, then attempt to re-pair through the companion app.
- **Inaccurate Data:** Ensure the watch is worn snugly on your wrist, about one finger's width above the wrist bone. Clean the sensors regularly.
- **Notifications Not Appearing:** Check your smartphone's app permissions to ensure the companion app has access to notifications. Also, confirm notification settings within the watch's app.
- **Touchscreen Unresponsive:** Restart the watch. If the issue persists, ensure the screen is clean and dry.

For persistent issues, refer to the support information in Section 8.
