## OPERATING INSTRUCTIONS

### Charging Your Devices

The HYUCKOT K11 Portable Charger can charge up to four devices simultaneously.

1. **Using Built-in Cables:** Extend the appropriate built-in cable (USB-C, iOS, or Micro-USB) and connect it to your device's charging port.
2. **Using USB-C Output Port:** Connect your device to the power bank's USB-C port using a compatible USB-C to USB-C cable (not included).
3. **Using USB-A Output Port:** Connect your device to the power bank's USB-A port using a compatible USB-A cable (not included).

Charging will begin automatically. The LED display will show the power bank's remaining charge.

### Checking Battery Level

The intelligent LED display on the power bank shows the current battery percentage. Simply press the power button once to activate the display and view the remaining charge.

## MAINTENANCE

### Cleaning and Storage

- Wipe the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, recharge the power bank every 3-6 months to maintain battery health.

## TROUBLESHOOTING

### Common Issues and Solutions

- **Device not charging:**
  - Ensure the power bank has sufficient charge (check LED display).
  - Verify that the charging cable is securely connected to both the power bank and your device.
  - Try a different charging cable or port on the power bank.

- Ensure your device is compatible with the power bank's output specifications.
- **Power bank not recharging:**
  - Ensure the foldable wall plug is fully extended and securely plugged into a live outlet.
  - If using the USB-C input, ensure the cable and wall adapter are functioning correctly.
  - Check for any debris in the charging ports.
- **Slow charging:**
  - Ensure your device supports fast charging and that the power bank is providing sufficient output.
  - Charging multiple devices simultaneously may reduce the charging speed for individual devices.
  - Environmental factors (e.g., extreme temperatures) can affect charging efficiency.
