EINSEO EINSEO-A

EINSEO Male Masturbator with Dual Sleeves - Instruction Manual

Model: EINSEO-A

Product Overview

The EINSEO Male Masturbator is designed to provide varied tactile experiences with its dual removable sleeves. Constructed from soft, flexible TPE material, it features an adjustable suction control mechanism for personalized use. This manual device is battery-free, offering direct control over intensity and rhythm.
The product includes two distinct inner sleeves: one with a spiral texture and another with a bumpy texture, allowing users to switch between sensations. Its compact design ensures discreet storage and portability.

Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Select Sleeve:** Choose either the spiral or bumpy textured sleeve based on your preference.
3. **Insert Sleeve:** Gently insert the chosen sleeve into the main casing. Ensure it is properly seated and aligned.
4. **Lubricate:** Apply a generous amount of water-based lubricant to the entrance and inside the sleeve for optimal comfort and experience.

Operating Instructions

The EINSEO Male Masturbator is designed for manual operation, allowing for complete control over your experience.

Adjustable Suction Control

The device features a built-in air vent that allows you to adjust the suction level. By covering or opening the hole on the top of the device, you can increase or release suction to customize the intensity of the sensation.

- **Open:** For gentle sensation and free airflow.
- **Half-Cover:** For mild suction and partial airflow block.
- **Fully Cover:** For intense suction and complete airflow block.

Usage Modes

The manual design allows for various techniques to enhance your experience:

- **Thrust & Release Mode:** Quick in-and-out movements for intense stimulation.
- **Deep Thrust & Swing Mode:** Deeper penetration with rhythmic side-to-side motion.
- **Twist & Rub Mode:** Rotate and grind for targeted stimulation.

Endurance Training

This device can be used for sensitivity training to help improve endurance and control. By adjusting the suction and varying the sleeve textures, you can practice pace control, pressure adjustment, and start-stop rhythm to build confidence and enjoy longer, more controlled sessions.

Maintenance and Cleaning

Proper cleaning and maintenance are essential for hygiene and to prolong the lifespan of your EINSEO Male Masturbator.

1. **Disassemble:** After each use, carefully remove the inner sleeve from the casing.
2. **Rinse:** Rinse the sleeve thoroughly with warm water.
3. **Clean:** Apply a mild, toy-safe soap to the sleeve and gently clean all surfaces, including the textured interior.
4. **Rinse Again:** Rinse the sleeve thoroughly to remove all soap residue.
5. **Dry:** Gently pat the sleeve dry with a lint-free cloth. Allow it to air dry completely before reassembling or storing. Ensure no moisture remains to prevent material degradation.
6. **Casing:** Wipe the exterior of the casing with a damp cloth and mild soap if necessary, then dry thoroughly.

Important: Use only water-based lubricants with this product. Avoid oil-based or silicone-based lubricants, as they can damage the TPE material over time.

Troubleshooting

This product is a manual device and has no electronic components, minimizing potential issues. If you encounter any difficulties, please consider the following:

- **Difficulty inserting sleeve:** Ensure the sleeve is dry and properly aligned with the casing. A small amount of water-based lubricant on the outer edge of the sleeve can assist insertion.
- **Reduced suction:** Check that the air vent on top is fully covered for maximum suction. Ensure the sleeve is correctly seated within the casing to create a proper seal.
- **Material stickiness:** Over time, TPE material can become slightly sticky. This can be remedied by dusting with cornstarch or toy-safe refreshing powder after cleaning and drying.

Specifications

Feature	Detail
Model Number	EINSEO-A
Brand	EINSEO
Material	Thermoplastic Elastomer (TPE)
Color	Flesh
Package Dimensions	9.41 x 6.46 x 3.82 inches
Item Weight	3.13 Pounds
Sleeve Length	Approximately 7.5 inches (inner channel)
Power Source	Manual (Battery-free)
