- **Anti-Tip Device:** Always install the included anti-tip device to prevent serious injury from tipping furniture. Secure the cabinet to a wall stud using the provided hardware.
- **Weight Limits:** Do not overload shelves. Distribute weight evenly. Exceeding weight limits may cause the cabinet to become unstable or collapse.
- **Assembly:** Assemble the cabinet on a soft, clean surface to prevent scratches. Ensure all connections are tight before use.
- **Children:** Keep children away from the assembly area. Do not allow children to climb on or play with the cabinet.
- **Placement:** Place the cabinet on a level, stable surface. Avoid placing in areas with excessive moisture or direct sunlight to prolong product life.

Follow these steps carefully for proper assembly. It is recommended to have two people for certain steps.

1. **Prepare the Area:** Clear a spacious, clean, and soft area for assembly to prevent damage to the cabinet parts.
2. **Identify Parts:** Lay out all parts and hardware. Refer to the parts list in your manual and Figure 2.1 to identify each component.
