› SIXWIN Android 13 Car Stereo User Manual for Ford Fiesta 2009-2017 (Model 1)

SIXWIN 1

SIXWIN Android 13 Car Stereo User Manual

FOR FORD FIESTA 2009-2017 (MODEL 1)

1. Introduction

Thank you for choosing the SIXWIN Android 13 Car Stereo. This advanced multimedia system is designed specifically for Ford Fiesta models from 2009 to 2017, offering a seamless upgrade to your vehicle's infotainment. Featuring an 8-core processor, 6GB RAM, and 128GB ROM, this unit provides a responsive and powerful user experience. Key functionalities include wireless CarPlay and Android Auto, integrated GPS navigation, DSP for enhanced audio, Bluetooth 5.0, Wi-Fi connectivity, and FM/RDS radio.

This manual provides essential information for the proper installation, operation, and maintenance of your new car stereo. Please read it thoroughly before use to ensure optimal performance and safety.

2. Package Contents

Upon unpacking, please verify that all the following items are included in your package:

- SIXWIN Android 13 Car Stereo Unit
- Power Harness (vehicle-specific for Ford Fiesta 2009-2017)
- GPS Antenna
- USB Cables
- RCA Cables (Audio/Video Output)
- External Microphone
- User Manual (this document)

If any items are missing or damaged, please contact your retailer immediately.

3. Safety Information

To ensure safe operation and prevent damage, please observe the following safety guidelines:

- Do not attempt to operate the unit while driving if it distracts you from the road. Always prioritize road safety.
- Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- Do not disassemble or modify the unit. This may cause damage and void the warranty.
- Ensure all wiring connections are secure and properly insulated to prevent short circuits.
- Keep the volume at a level that allows you to hear external traffic sounds.

4. Setup & Installation

The SIXWIN Android 13 Car Stereo is designed for a plug-and-play installation in compatible Ford Fiesta models (2009-2017). While installation is generally straightforward, professional installation is recommended if you are unfamiliar with car audio wiring or vehicle disassembly.

4.1 Pre-Installation Checks

- Ensure your vehicle's ignition is off and the battery is disconnected before starting installation.
- Verify that the included wiring harness matches your vehicle's factory connectors.

4.2 Installation Steps (General Guide)

1. Carefully remove your vehicle's existing factory radio and trim panels. Refer to your Ford Fiesta's service manual for specific instructions on panel removal.
2. Connect the provided power harness to the car stereo and then to your vehicle's factory wiring harness.
3. Connect the GPS antenna, USB cables, and any other auxiliary inputs/outputs to the corresponding ports on the back of the car stereo. Ensure the GPS antenna is placed in a location with a clear view of the sky (e.g., on the dashboard).
4. Carefully slide the new car stereo into the dashboard opening. Ensure all cables are tucked away and not pinched.
5. Secure the unit in place using the appropriate mounting brackets or screws.
6. Reconnect the vehicle battery and test the unit before reassembling the trim panels.
7. Reinstall all trim panels.

5. Basic Operation

5.1 Power On/Off

- **Power On:** Turn your vehicle's ignition to the ACC or ON position. The unit will power on automatically.
- **Power Off:** Turn your vehicle's ignition to the OFF position. The unit will power off automatically.
- **Standby:** A short press of the power button (if available) may put the unit into standby mode.

5.2 Touchscreen Interface

The unit features a responsive 9-inch 1280x720 resolution touchscreen. Navigate through menus, select applications, and control functions by tapping, swiping, and pinching gestures, similar to a smartphone.

5.3 Volume Control

Adjust the audio volume using the physical volume knob (if present) or the on-screen volume controls. Steering wheel controls, if configured, can also manage volume.

6. Key Features & Functions

6.1 Android 13 Operating System

Your car stereo runs on Android 13, providing a familiar and customizable interface. With 6GB RAM and 128GB internal storage, it offers smooth multitasking and ample space for apps and media. The 8-core processor ensures quick response times.

6.2 Wireless CarPlay & Android Auto

Connect your iPhone or Android smartphone wirelessly or via USB to access CarPlay or Android Auto. This allows you to use navigation, make calls, send messages, and listen to music directly from your phone's interface displayed on the car stereo screen.

- **Connection:** Enable Bluetooth and Wi-Fi on your smartphone. On the car stereo, open the 'CarPlay' or 'Android Auto' app and follow the on-screen instructions to pair your device.
- **Voice Control:** Activate Siri or Google Assistant through voice commands for hands-free operation.

Image 6.1: The car stereo screen showing the Apple CarPlay interface, providing access to phone functions.

6.3 Built-in GPS Navigation & WiFi

The unit includes a built-in GPS module supporting both online and offline navigation. It comes pre-installed with the 'Here We Go' app, allowing you to download offline maps for navigation without an internet connection.

- **Online Navigation:** Connect to a Wi-Fi hotspot (e.g., from your smartphone) to use online navigation apps like Google Maps, Waze, etc., and download other applications from the Play Store.
- **Offline Maps:** Use the 'Here We Go' app to download regional maps for navigation without an internet connection.

Image 6.2: The car stereo screen displaying a detailed GPS navigation map.

6.4 DSP (Digital Signal Processor)

The integrated DSP enhances audio quality by reducing noise, distortion, and interference. Access the DSP settings in the audio menu to customize equalization (32-band EQ) and sound effects for an optimized listening experience.

6.5 Bluetooth 5.0

Bluetooth 5.0 provides a stable and fast connection for your smartphone and other Bluetooth devices. It supports hands-free calling and high-quality audio streaming.

- **Pairing:** Go to the Bluetooth settings on the car stereo, enable Bluetooth, and search for available devices. Select your phone from the list and confirm the pairing code.
- **Hands-Free Calling:** Make and receive calls directly through the car stereo. Your contacts can be synchronized.
- **Audio Streaming:** Play music from your phone through the car stereo speakers.

6.6 FM/RDS Radio

The built-in FM tuner with RDS (Radio Data System) allows you to listen to your favorite radio stations. RDS provides additional information like station name, song title, and traffic announcements.

- **Scanning:** Use the auto-scan function to find and save available stations.
- **Presets:** Manually save your preferred stations to preset buttons for quick access.

6.7 Mirror Link

Mirror Link allows you to display your smartphone's screen directly onto the car stereo. This feature supports both Android and iOS devices. Follow the instructions within the 'Mirror Link' application on the stereo to establish a connection.

6.8 Split Screen Function

Multitask efficiently with the 3-way split-screen function. You can run two or three applications simultaneously, such as navigation on one side and music on the other.

Image 6.3: The car stereo screen demonstrating the split-screen feature, showing two applications side-by-side.

6.9 Intelligent Voice Control

Utilize intelligent voice control to manage various functions without taking your hands off the wheel. This feature integrates with Siri or Google Assistant, allowing you to issue commands for navigation, calls, music, and more.

6.10 UI Customization

Personalize your car stereo's appearance with 19 wallpapers and 59 UI desktop themes to match your style.

7. Maintenance

Proper maintenance ensures the longevity and optimal performance of your car stereo.

- **Screen Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a screen cleaner specifically designed for electronics. Avoid abrasive materials or harsh chemicals.
- **Software Updates:** Periodically check for available software updates through the unit's settings menu (requires Wi-Fi connection). Updates can improve performance and add new features.
- **General Care:** Keep the unit free from dust and debris. Avoid spilling liquids on the unit.

8. Troubleshooting

If you encounter issues with your SIXWIN car stereo, refer to the following common problems and solutions:

- **No Power:**
 - Check all power connections to ensure they are secure.
 - Verify the vehicle's fuse for the radio is not blown.
 - Ensure the vehicle's battery is properly connected and charged.
- **No Sound:**
 - Check the volume level and ensure it is not muted.

- Verify speaker wire connections are correct and secure.
- Ensure the correct audio source is selected.

- **GPS Not Working / Poor Signal:**

- Ensure the GPS antenna is properly connected and placed in a location with a clear view of the sky.
- Check GPS settings in the unit to ensure GPS is enabled.
- If using offline maps, ensure the required maps are downloaded and up-to-date.

- **Bluetooth Connection Issues:**

- Ensure Bluetooth is enabled on both the car stereo and your smartphone.
- Delete previous pairings on both devices and attempt to re-pair.
- Move your smartphone closer to the unit.

- **CANbus Module Not Functioning:**

- Ensure the CANbus decoder is correctly connected to the wiring harness and the vehicle's CANbus system.
- Verify that the CANbus settings in the unit's factory settings (if accessible) are configured for your specific Ford Fiesta model.
- If issues persist, professional assistance may be required to diagnose CANbus communication.

If you cannot resolve the issue using these steps, please contact customer support.

9. Specifications

Feature	Specification
Brand	SIXWIN
Model Number	1
