7. TROUBLESHOOTING

If you encounter any issues with your coffee table, refer to the following common solutions:

- **Issue: Table is wobbly or unstable.**

Solution: This often indicates incorrect alignment during assembly. Carefully review the assembly instructions, disassemble the affected sections, and reassemble them, paying close attention to the orientation and fit of each piece before tightening screws.

- **Issue: Surface scratches or minor damage.**

Solution: For minor scratches, furniture repair markers or touch-up pens matching the black finish may be used. For deeper damage, professional repair might be necessary. Always use protective measures like coasters to prevent future damage.

- **Issue: Difficulty during assembly.**

Solution: Refer back to the detailed assembly instructions. If you are still struggling, consider seeking assistance from another person. For persistent issues, contact Tribesigns customer service.
