Flrrtenv 43 Inch Small L Shaped Gaming Desk Instruction Manual

Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Flrrtenv 43 Inch Small L Shaped Gaming Desk. This desk features an L-shaped design, integrated power outlets, LED lighting, reversible storage shelves, and a monitor stand. Please read this manual thoroughly before assembly and use to ensure proper function and safety.

Safety Information

- Always follow assembly instructions carefully. Incorrect assembly can lead to instability and potential injury.
- Do not exceed the maximum weight capacity of the desk. Refer to the specifications section for details.
- Ensure all electrical connections for the power outlets and LED lights are secure and properly grounded. Do not overload the power outlets.
- Keep liquids away from electrical components to prevent electric shock or damage.
- Place the desk on a level surface to prevent wobbling and ensure stability.
- Keep small parts and packaging materials away from children to prevent choking hazards.

Setup and Assembly Instructions

Follow these steps carefully for proper assembly. It is recommended to assemble the desk with two people.

1. Prepare the Workspace

Clear an open area for assembly. Lay out all components and hardware. Keep the instruction manual nearby for reference.

2. Assemble the Frame

Connect the metal frame components using the provided hardware. Ensure all screws are finger-tightened initially, then fully tighten once the frame is stable.

4. Install Monitor Stand and Accessories

Attach the monitor stand to the designated area on the desk. Install the pegboard, headphone hooks, and any other accessories as desired.

5. Integrate Power Outlets and LED Lights

Mount the integrated power outlet strip into its recessed position. Carefully attach the LED light strip to the underside of the monitor stand or desired location, ensuring the adhesive is secure. Connect the LED strip to its power source.

Operating Instructions

Using the Integrated Power Outlets

The desk includes a built-in power strip with 3 standard AC outlets and 2 USB ports. Plug your devices directly into these outlets for convenient power access. Ensure the desk's main power cord is plugged into a wall outlet.

Controlling the LED Lights

The LED light strip is controlled by the provided remote. Use the remote to:

- Turn the lights On/Off.
- Change between 20 different colors.
- Adjust brightness levels.
- Control lighting effects and speed.

Utilizing Storage Features

The desk offers various storage solutions:

- **Monitor Stand:** Elevates your monitor to an ergonomic viewing height, freeing up desk space below.
- **Storage Shelves:** Use the adjustable shelves for books, accessories, or a CPU tower.
- **Pegboard:** Customize with the removable hooks to hang headphones, cables, or small tools.
- **Headphone Hooks:** Two fixed hooks are provided for convenient headphone storage.

Maintenance

- **Cleaning:** Wipe the desk surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the carbon fiber finish.
- **Electrical Components:** Periodically check the power cord and connections for any signs of wear or damage. Ensure the LED strip remains securely attached.
- **Hardware:** Occasionally check and retighten any loose screws or bolts to maintain desk stability.

Troubleshooting

Desk Wobbles

- Ensure all assembly screws are fully tightened.
- Adjust the leveling feet at the bottom of the desk legs to compensate for uneven floor surfaces.

LED Lights Not Working

- Check if the LED strip is properly connected to its power source.
- Ensure the remote control has working batteries and is pointed directly at the LED receiver.
- Verify that the desk's main power cord is plugged into a functional wall outlet.

Power Outlets Not Functioning

- Confirm the desk's main power cord is securely plugged into a live wall outlet.
- Check if the wall outlet itself is working by plugging in another device.
- Avoid overloading the power strip. Unplug some devices and try again.
