## 1. SETUP AND INSTALLATION

---

Follow these steps to correctly assemble and install your LASTAR USDL024 Desk Lamp.

### Package Contents:

- LASTAR USDL024 Desk Lamp (Double Head with Gooseneck)
- Remote Control
- Power Adapter
- Clamp
- Screws for assembly
- User Manual (this document)

### Installation Steps:

1. **Unpack Components:** Carefully remove the lamp and all accessories from the packaging.
2. **Prepare the Clamp:** Place the clamp on the edge of your desk. Ensure the power cord is straightened and not tangled.
3. **Attach Lamp Head:** Align the hose screw holes on the lamp's gooseneck with the corresponding holes on the lamp head.
4. **Secure Lamp Head:** Insert the two provided screws and tighten them firmly to secure the lamp head to the gooseneck.
5. **Mount to Desk:** Rotate the clamp's screw mechanism to the right until it is securely fastened to your desk surface. Ensure the clamp is stable and the lamp is positioned as desired.
6. **Connect Power:** Plug the power adapter into the lamp's power port, then connect the adapter to a suitable power outlet.

## 2. OPERATING INSTRUCTIONS

Your LASTAR USDL024 Desk Lamp can be operated using both the included remote control and the touch controls located on the lamp head.

### Remote Control Functions:

The remote control allows for convenient adjustment of the lamp's settings from a distance of up to 20 meters.

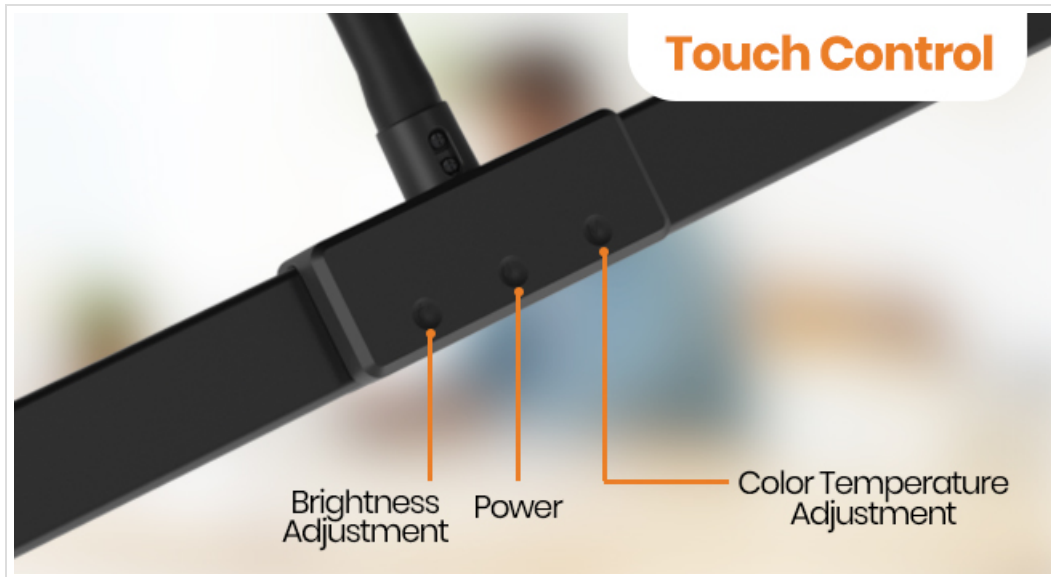

Image: Detailed layout of the remote control with button descriptions.

- **On/Off Button:** Powers the lamp on or off.
- **Night Light Button:** Activates a low-brightness night light mode.
- **Brightness + / - Buttons:** Adjusts the brightness level up or down (5 levels available).
- **Color Temperature + / - Buttons:** Adjusts the color temperature (from 3000K warm white to 6500K cool white).
- **Max Brightness Button:** Instantly sets the lamp to its brightest illumination level.
- **Leisure Mode:** Pre-set lighting mode for relaxation.
- **Reading Mode:** Pre-set lighting mode optimized for reading.
- **Timer Setting Button:** Activates the 1-hour automatic shut-off timer.

- **Gaming Mode:** Pre-set lighting mode suitable for gaming environments.
- **Working Mode:** Pre-set lighting mode optimized for work tasks.

### Touch Control Functions:

The lamp also features touch-sensitive controls on the lamp head for direct adjustments.

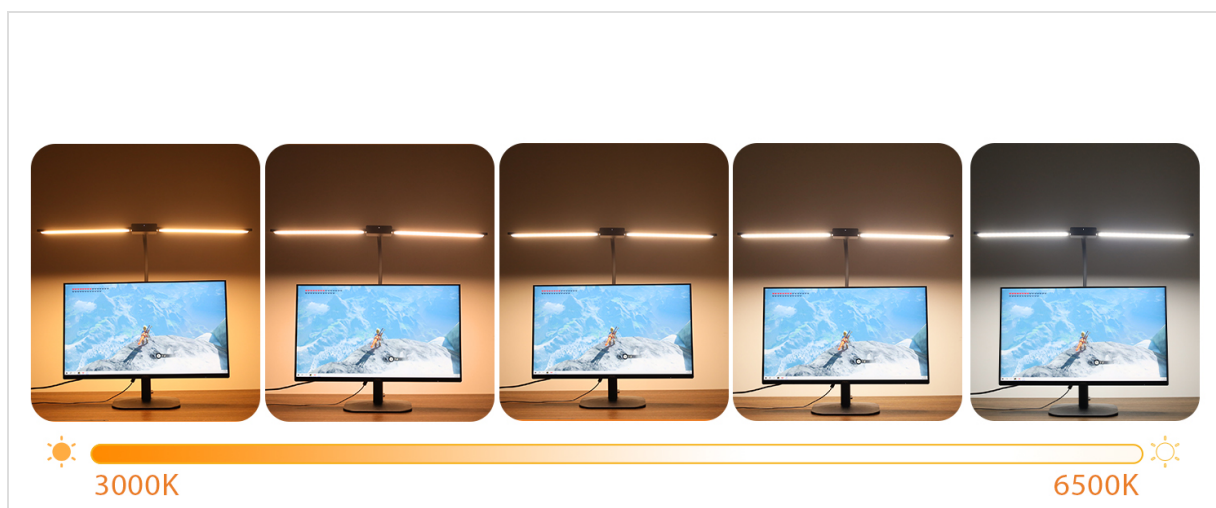

*Image: Close-up view of the touch control panel on the lamp head.*

- **Power Button:** Toggles the lamp on or off.
- **Brightness Adjustment:** Touch to cycle through brightness levels.
- **Color Temperature Adjustment:** Touch to cycle through color temperature settings.

### Brightness and Color Temperature Adjustment:

The lamp offers 5 lighting modes and 5 brightness levels. Color temperature can be adjusted from 3000K (warm white) to 6500K (cool white), and brightness from 5% to 100%. Use the remote or touch controls to customize your lighting.

*Image: Demonstrates the range of color temperatures available, from warm to cool white light.*

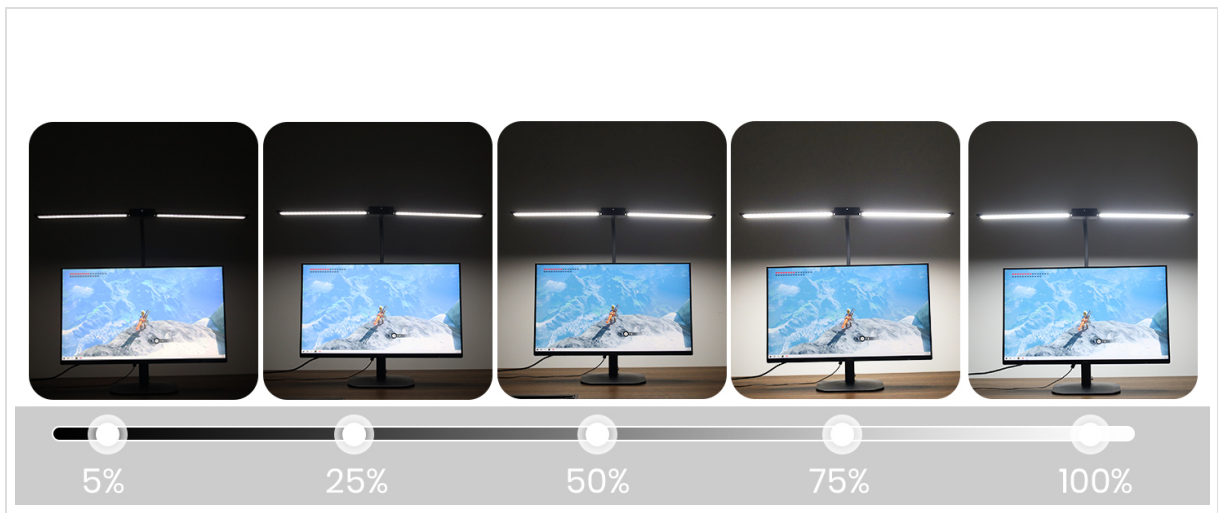

Image: Illustrates the varying brightness levels from dim (5%) to full brightness (100%).

### 1-Hour Timer Function:

Activate the 1-hour timer via the remote control. The lamp will automatically turn off after one hour, useful for timed breaks or before sleeping.

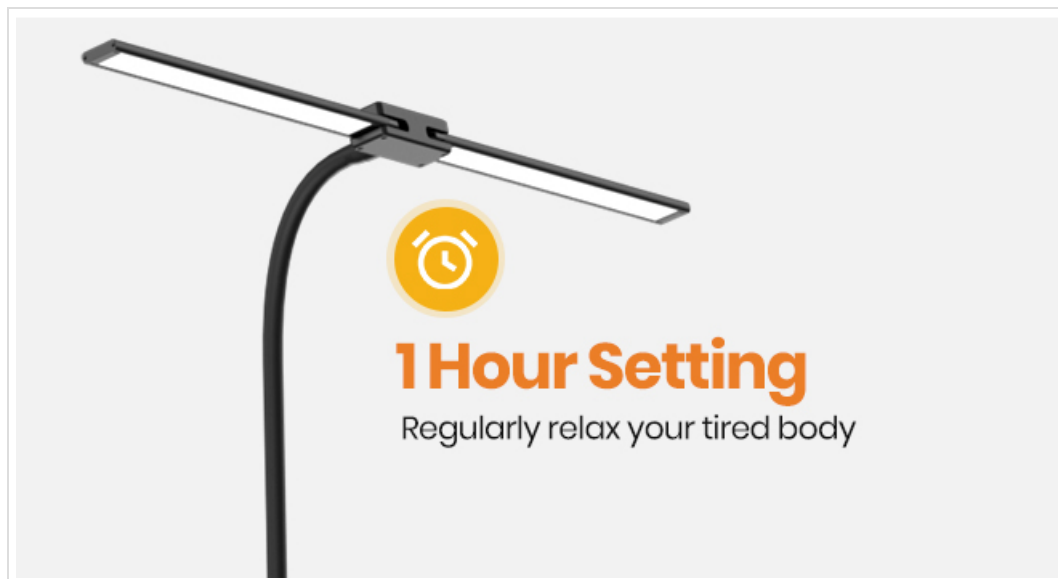

Image: Graphic highlighting the 1-hour timer feature.

### Memory Function:

The lamp features a memory function that recalls the last used brightness and color temperature settings when powered on again, simplifying your lighting experience.

*Image: Graphic illustrating the memory function, which saves the last lighting settings.*

### 3. KEY FEATURES

---

#### **Double Head Design:**

The 32.5-inch wide double-headed lamp provides extensive and uniform illumination, ideal for multi-monitor setups or large workspaces. The lamp bar is adjustable between 0-180° to direct light precisely where needed.

## 1 Hour Timing Off

Take a break to relax your eyes

*Image: The wide double-head lamp positioned over a desk with multiple monitors.*

### **Flexible Gooseneck and Clamp:**

The flexible gooseneck allows for 360° adjustment, providing optimal lighting angles. The sturdy 360° rotating metal clamp ensures easy attachment to various desk surfaces, saving space and offering flexibility in positioning.

## 1 Hour Timing Off

Take a break to relax your eyes

### **Eye Protection:**

Constructed from aluminum alloy and ABS material, this lamp delivers uniform, wide-ranging, and glare-free illumination. This design helps reduce eye fatigue during extended use, making it suitable for reading, working, and other tasks.

## **4. MAINTENANCE**

---

Proper maintenance ensures the longevity and optimal performance of your desk lamp.

### **Cleaning:**

- Always unplug the lamp from the power source before cleaning.
- Use a soft, dry cloth to wipe down the lamp's surfaces.
- For stubborn marks, a slightly damp cloth with mild soap can be used, followed by a dry cloth.
- Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish or electronic components.

### **Storage:**

If storing the lamp for an extended period, ensure it is clean and dry. Store it in a cool, dry place away from direct sunlight and extreme temperatures.

### Safety Precautions:

- Do not attempt to disassemble or repair the lamp yourself. Refer to qualified service personnel.
- Keep the lamp away from water or other liquids.
- Ensure the power cord is not pinched or placed under heavy objects.
- This lamp is designed for indoor use only.

## 5. TROUBLESHOOTING

---

If you encounter issues with your LASTAR USDL024 Desk Lamp, refer to the following common problems and solutions:

| Problem  | Possible Cause  | Solution  |
|--|---|---|
| Lamp does not turn on.                         | No power supply.  | Check if the power adapter is securely plugged into both the lamp and the wall outlet. Test the outlet with another device. |
| Remote control is not responding.              | Remote battery is low or depleted. Obstruction between remote and lamp. | Replace the remote control battery. Ensure there is a clear line of sight between the remote and the lamp's sensor.         |
| Light flickers or is inconsistent.             | Loose connection. Power fluctuation.                                    | Ensure all connections are secure. Try plugging the lamp into a different power outlet.                                     |
| Cannot adjust brightness or color temperature. | Lamp is in a pre-set mode that limits adjustments.                      | Exit any pre-set modes (e.g., Night Light, Reading Mode) and try adjusting again.   |

## 6. PRODUCT SPECIFICATIONS

---
