## USKEYVISION R01 PRO

# USKEYVISION R01 PRO Auto Face Tracking Tripod Instruction Manual

MODEL: R01 PRO

## Product Overview

The USKEYVISION R01 PRO is a versatile 3-in-1 tripod designed for content creators, offering auto face tracking, gesture control, and a detachable wireless remote. It functions as a selfie stick, desktop stand, and camera mount tripod, supporting various shooting heights and angles.

Image: The USKEYVISION R01 PRO tripod shown in its full extended tripod form with a smartphone, as a folded selfie stick, and in a compact folded state. A remote control is also visible.

- **Versatile 3-in-1 Design:** Easily switches between selfie stick, desktop stand, and camera mount tripod.
- **Auto Face Tracking:** Advanced AI automatically locks onto and follows subjects with 360° rotation.

- **Gesture Control:** Use "OK" gesture to start tracking/shooting and "Palm" gesture to stop.
- **Wireless Remote Control:** Detachable remote with a 33ft (10m) range for convenient photo and video capture.
- **Wide Compatibility:** Features a standard 1/4" screw for mounting various devices, compatible with most smartphones (2 to 3.62 inches width).

## Setup Instructions

---

1. **Unpack the Tripod:** Carefully remove all components from the packaging, including the tripod unit, remote control, and charging cable.
2. **Charge the Device:** Connect the tripod to a power source using the provided USB charging cable. Ensure the device is fully charged before first use.
3. **Extend the Tripod Legs:**
  - Locate the leg locks on each tripod leg.
  - Release the locks and extend the legs to the desired height.
  - Securely fasten the leg locks to ensure stability.
4. **Mount Your Device:**
  - For smartphones: Open the phone holder and carefully insert your smartphone, ensuring it is securely gripped. The holder accommodates devices 2 to 3.62 inches in width.
  - For cameras/accessories: Utilize the standard 1/4" screw mount at the top of the tripod to attach compatible cameras, phone holders, or gimbal stabilizers.
5. **Adjust Angle and Orientation:** The tripod supports 360° rotation and multi-angle adjustment for horizontal, vertical, and overhead shooting. Adjust the head to your preferred orientation.
6. **Pair the Remote Control:**
  - Remove the detachable remote control from its slot on the tripod.
  - Activate Bluetooth on your smartphone.
  - Search for available devices and select "Selfie" or a similar name to pair.

# Versatile and Flexible

Free your hands and take selfies

## Operating Instructions

### 1. Auto Face Tracking & Gesture Control

The R01 PRO features an integrated AI camera that automatically detects and tracks human faces, ensuring you remain in the frame during recording or live streaming. No additional app is required for this function.

- **Start Tracking:** Make an "OK" gesture with your hand towards the tripod's camera. The device will recognize the gesture and begin tracking your face.
- **Stop Tracking:** Make a "Palm" gesture with your hand towards the tripod's camera. The device will stop tracking.

# 360° Auto Face Tracking

Automatic face recognition and movement follow

## 2. Using the Wireless Remote Control

The detachable remote control allows for convenient photo and video capture from a distance of up to 33 feet (10 meters).

- Once paired via Bluetooth, press the button on the remote to trigger your smartphone's camera shutter or start/stop

video recording.

### 3. Multi-Mode Operation

The R01 PRO can be used in several modes to suit different needs:

- **Floor Mode:** Extend the tripod legs and place it on a flat surface for stable, hands-free recording.
- **Desktop Mode:** Use the shorter leg extension for tabletop use, ideal for video calls or tutorials.
- **Handheld Mode (Selfie Stick):** Collapse the legs and hold the unit for mobile shooting, vlogging, or selfies.

## Maintenance

- **Cleaning:** Wipe the tripod with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.

- **Storage:** Store the tripod in a cool, dry place away from direct sunlight and extreme temperatures. Ensure it is fully collapsed and secured when not in use.
- **Battery Care:** Recharge the internal battery regularly, even if not in frequent use, to maintain battery health.

## Troubleshooting

Issue	Possible Cause	Solution
Tracking is inconsistent or loses subject.	Low light conditions. Multiple faces in the frame. Subject moving too quickly or out of range. Obstructions between subject and sensor.	Ensure adequate lighting. Minimize other faces in the tracking area. Maintain a steady pace and stay within the recommended tracking distance. Ensure a clear line of sight to the tripod's sensor.
Remote control not pairing.	Bluetooth not enabled on smartphone. Remote battery low. Out of range.	Enable Bluetooth on your smartphone. Ensure the remote control has sufficient battery. Move closer to the tripod (within 33ft/10m).
Smartphone does not fit in holder.	Smartphone width exceeds limits. Using a folding phone.	Verify smartphone width is between 2 and 3.62 inches. Note that folding phones are not recommended due to their unique dimensions.

## Specifications

- **Model Name:** R01 PRO
- **Brand:** USKEYVISION
- **Color:** Black
- **Material:** Aluminum, Plastic
- **Item Weight:** 2.07 pounds
- **Package Dimensions:** 17.4 x 4.45 x 2.72 inches
- **Minimum Height:** 16.06 Inches
- **Maximum Height:** 57.67 Inches
- **Number of Leg Sections:** 3
- **Tripod Head Type:** Gimbal Heads
- **Compatible Devices:** Compact Camera, Smartphone (not recommended for foldable phones)
- **Special Feature:** Rotatable
- **Batteries:** 1 Lithium Metal battery required (included)
