Aeitto B0FLPCP1V6

Aeitto Professional Countertop Blender

Model: B0FLPCP1V6

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the Aeitto Professional Countertop Blender. Failure to follow these safety guidelines may result in electric shock, fire, or serious injury.

- Always unplug the blender from the power outlet before cleaning or when not in use.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the container while blending to reduce the risk of severe injury to persons or damage to the blender. A scraper may be used but only when the blender is not running.
- Avoid contact with moving parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- The use of attachments not recommended or sold by the manufacturer may cause fire, electric shock, or injury.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
- Always operate the blender with the lid securely in place.
- Do not blend hot liquids in the blender as they may cause pressure buildup and result in scalding.

2. PRODUCT OVERVIEW

The Aeitto Professional Countertop Blender is designed for efficient blending of various ingredients, from smoothies and juices to ice crushing and purees. It features a powerful motor and durable blades for consistent results.

Components

- Motor Base
- 68 oz Blending Jar
- Lid with Removable Cap
- Plunger

- 8-Point 3D Blades (integrated into jar)

68oz Large Capacity

Serve whole family at a time

Image: The blender's control panel showing power, speed dial, pulse, and preset functions. Examples of blended items like smoothies, milkshakes, juices, puree, and baby food are displayed above.

8-Point 3D Blades

Upgraded blades make the blending smoother

Image: The 68oz blending jar on the motor base, illustrating its large capacity suitable for multiple servings of various beverages and foods.

1800w Highest Power Motor

High speed is up to 25,000 RPM

Fast Heat Dissipation

No Odor

3. SETUP INSTRUCTIONS

Before first use, wash all parts that will come into contact with food. Ensure the blender is placed on a stable, flat, and dry surface.

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Wash the blending jar, lid, and plunger with warm, soapy water. Rinse thoroughly and dry. The blending jar is dishwasher safe.
3. **Assemble:** Place the blending jar onto the motor base. Ensure it is seated correctly and securely.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet. The display will illuminate.

4. OPERATING INSTRUCTIONS

The Aeitto blender offers both manual speed control and convenient preset functions.

General Blending

1. **Add Ingredients:** Place your desired ingredients into the blending jar. Do not exceed the maximum fill line.
2. **Secure Lid:** Place the lid firmly on the blending jar and ensure the removable cap is in place.
3. **Power On:** Flip the 'POWER' switch to the 'ON' position.
4. **Select Speed:** Turn the central dial to select a speed from 1 to 7. Start with a lower speed and gradually increase as needed.
5. **Pulse Function:** For short bursts of power, use the 'PULSE' switch. Hold it down for desired duration, then release.
6. **Stop Blending:** Once desired consistency is reached, turn the speed dial to 'OFF' or flip the 'POWER' switch to 'OFF'.

Preset Functions

The blender includes three preset functions for common blending tasks:

- **P01 = ICE CRUSH:** Optimized for crushing ice cubes.
- **P02 = SMOOTHIE:** Ideal for making smooth and creamy beverages.
- **P03 = JUICE:** Designed for extracting juices from fruits and vegetables.

To use a preset function:

1. Prepare ingredients and secure the lid as described above.
2. Flip the 'POWER' switch to 'ON'.
3. Turn the central dial to the desired preset (P01, P02, or P03). The blender will automatically run through a pre-programmed cycle.
4. The blender will stop automatically when the cycle is complete. You can manually stop it at any time by turning the dial to 'OFF'.

3-PRESET FUNCTIONS
Automation makes blending easier

The graphic features a central speed dial with settings 1 through 7 and an OFF position. To the left, three food images are shown with corresponding labels: a glass of orange juice labeled 'P03=JUICE', a green smoothie with fruit labeled 'P02=SMOOTHIE', and a bowl of crushed ice with fruit labeled 'P01=ICE CRUSH'. Dashed lines connect these labels to the P03, P02, and P01 positions on the dial. A legend to the right of the dial shows a glass icon for P03, a smoothie cup icon for P02, and a bowl of ice icon for P01. A note at the bottom states: 'Note: When the preset function is running, the blender can be turned off.'

5. MAINTENANCE AND CLEANING

Proper cleaning and maintenance will ensure the longevity and optimal performance of your Aeitto blender.

Cleaning the Blending Jar

- **Self-Cleaning:** After use, fill the jar halfway with warm water and add a drop of dish soap. Secure the lid and run the blender on a low speed for 30-60 seconds. Rinse thoroughly.
- **Dishwasher Safe:** The blending jar, lid, and plunger are top-rack dishwasher safe.
- For stubborn residue, use a brush to clean around the blades carefully.

Cleaning the Motor Base

- Always unplug the motor base before cleaning.
- Wipe the motor base with a damp cloth. Do not immerse it in water or any other liquid.
- Dry thoroughly after cleaning.

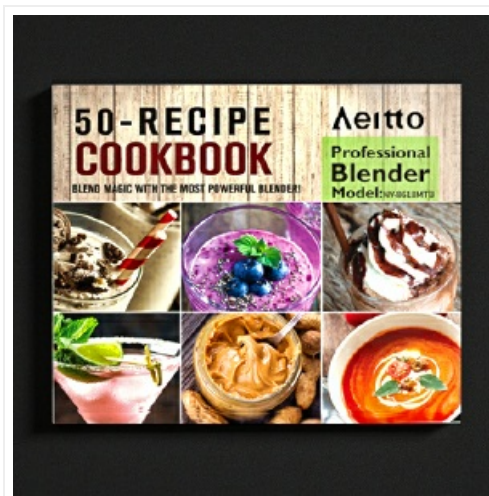

Image: A split image showing the blender performing a self-cleaning cycle with water in the jar on the left, and the blending jar placed in a dishwasher on the right, demonstrating its easy cleaning features.

6. TROUBLESHOOTING

If you encounter issues with your blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; Power switch off; Jar not seated correctly.	Ensure power cord is securely plugged in. Flip 'POWER' switch to 'ON'. Re-seat the blending jar firmly on the motor base.
Ingredients are not blending smoothly.	Too little liquid; Overfilling; Ingredients too large.	Add more liquid. Do not exceed the MAX fill line. Cut ingredients into smaller pieces. Use the plunger to push ingredients towards the blades. Increase speed or use Pulse function.
Loud noise or burning smell.	Overloaded motor; Foreign object in jar.	Immediately turn off and unplug the blender. Remove some ingredients if overloaded. Check for any foreign objects. Allow motor to cool down before restarting. If the smell persists, contact customer support.
Lid leaks during blending.	Lid not properly secured; Jar overfilled.	Ensure the lid is firmly pressed onto the jar. Do not fill ingredients above the MAX fill line.

7. SPECIFICATIONS

Detailed technical specifications for the Aeitto Professional Countertop Blender.

- **Model:** B0FLPCP1V6
- **Brand:** Aeitto
- **Motor Power:** 1500-Watt (Peak 1800-Watt)
- **Peak RPM:** 25000
- **Capacity:** 68 oz (2 Liters)
- **Number of Speeds:** 7
- **Preset Functions:** Ice Crush, Smoothie, Juice
- **Blade Material:** Plastic (referring to the blade assembly housing, blades are typically stainless steel)
- **Container Material:** Plastic
- **Color:** Silver
- **Product Dimensions:** 8.27"D x 7.24"W x 16.73"H
- **Item Weight:** 8.64 pounds
- **Power Source:** AC
