JOYDEEM B0FM2KFP81

JOYDEEM Nut Milk Maker Machine Instruction Manual

Model: B0FM2KFP81

IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the appliance and retain for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- Always ensure the appliance is unplugged from the power outlet before cleaning or when not in use.
- Do not immerse the main unit, power cord, or plug in water or other liquids.
- Keep hands and utensils out of the container while blending to reduce the risk of severe personal injury and/or damage to the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Close supervision is necessary when any appliance is used by or near children.
- Do not use the appliance for anything other than its intended use.
- Ensure the lid is securely closed before operating the machine.
- Avoid contact with moving parts.
- Do not overfill the container. Observe the MAX fill lines for hot and cold beverages.

PACKAGE CONTENTS

Carefully unpack all components and check that you have received all items listed below. If any items are missing or damaged, please contact customer service.

PRODUCT OVERVIEW

Familiarize yourself with the main components and features of your Joydeem Nut Milk Maker Machine.

Front view of the Joydeem Nut Milk Maker Machine, highlighting the control panel with various function buttons.

Internal view of the machine, showcasing the 10 triple-layer stainless steel blades and 316L stainless steel interior.

Diagram showing the dimensions of the Joydeem Nut Milk Maker Machine: 5.9"D x 8.7"W x 12.2"H.

SETUP

Before first use, follow these steps:

1. Unpack all components from the packaging.
2. Wash the inner container, lid, and any accessories (strainer, measuring cup, cleaning brush) with warm, soapy water. Rinse thoroughly and dry.
3. Place the main unit on a stable, flat, and dry surface, away from heat sources.
4. Ensure the power cord is securely plugged into a grounded electrical outlet.

OPERATING INSTRUCTIONS

General Operation

1. Add your desired ingredients to the inner container.
2. Add water, ensuring the liquid level is between the MIN and MAX fill lines indicated inside the container.
3. Securely close the lid. Ensure it is properly aligned and locked into place.
4. Select the desired function by pressing the corresponding button on the control panel.
5. Press the Start/Pause button to begin the operation.

Nut Milk Mode with Adjustable Temperature

The Nut Milk mode offers 7 adjustable temperature settings to cater to various ingredients and preferences: 113°F, 122°F, 131°F, 140°F, 158°F, 176°F, and 194°F. You can also choose to blend at room temperature for a fresh, cool option.

8 in 1 Multifunctional & Auto Clean

After use, press the “Wash” button for automatic self-cleaning to minimize cleanup time.
For best results, add water immediately after pouring out your beverage

Other Functions

The Joydeem Nut Milk Maker is an 8-in-1 multifunctional appliance. In addition to Nut Milk, it features dedicated programs for:

High-Powered Performance & 316L Stainless Steel

1000W Heating Power & 250W Blending Power + 10-blade, 3-layer stainless steel blending blade + 316 Stainless Steel Interior

Close-up of the Joydeem Nut Milk Maker's control panel, displaying buttons for Nut Milk, Soymilk, Oat Milk, Juice, Milkshake, Soup, Paste, Boil, and Wash functions.

- **Soymilk:** For making fresh soy milk, even from dry beans without pre-soaking.
- **Oat Milk:** Prepare creamy oat milk.
- **Juice:** Blend fruits and vegetables into fresh juices.
- **Milkshake:** Create smooth and delicious milkshakes.
- **Paste:** Ideal for making various pastes or purees.
- **Soup:** Prepare hot soups.
- **Boil:** For boiling water or other liquids.

12-Hour Preset & 6-Hour Keep Warm

The machine supports a 12-hour delay start, allowing you to add ingredients in advance and set a timer for your beverage to be ready at a specific time. After completing a hot drink cycle, the machine automatically switches to a 6-hour Keep Warm mode, maintaining a temperature of 131°F (55°C).

Note: The Preset and Keep Warm features are not available for Nut Milk (room-temperature drinks), Room-temperature Drinks, and Wash modes.

MAINTENANCE AND CLEANING

Auto Clean Function

The machine features an automatic self-cleaning function. After use, simply press the "Wash" button on the control panel to activate it. For optimal cleaning results, it is recommended to add water immediately after pouring out your beverage.

High-Powered Performance & 316L Stainless Steel

1000W Heating Power & 250W Blending Power + 10-blade, 3-layer stainless steel blending blade + 316 Stainless Steel Interior

Understanding and Reducing Residue

A small amount of residue may appear when making soy milk, grain drinks, or other plant-based beverages. This is normal and can be reduced with proper use and cleaning.

Why Does Residue Occur?

- **Natural Fiber:** Soybean and grain fiber may settle at the bottom after blending.
- **Starch Gelatinization:** Heated starches can form light sediment as the drink cools.
- **Hard Water Minerals:** Calcium and magnesium in tap water may create scale-like deposits.
- **Delayed Cleaning:** Residue may stick to the jug if left to dry.
- **Beverage Sitting Too Long:** Sediment becomes more visible if the drink sits in the jug for an extended time.

Simple Tips to Reduce Residue

- **Clean Promptly:** Pour out the beverage and rinse the jug with warm water while it is still slightly warm.
- **Stir Before Pouring:** Stir for 10-15 seconds to evenly distribute natural fiber.
- **Use Filtered Water:** Purified or filtered water helps reduce mineral buildup.

- **Soak if Needed:** For certain ingredients, soaking them for 10-15 minutes before processing can help.

Removing Stubborn Residue

- **White Vinegar:** Mix white vinegar and water (1:2 ratio) and bring to a boil in the machine. Turn off the heat and let soak for 30 minutes, then rinse thoroughly.
- **Citric Acid Descaler:** Dissolve citric acid descaler in water as directed. Soak for 12 hours (or overnight), then rinse thoroughly.

Image showing usage tips, including cleaning with a soft brush if slight residue remains, and cutting ingredients into small pieces.

TROUBLESHOOTING

If you encounter any issues with your Joydeem Nut Milk Maker, please refer to the table below for common problems and their solutions.

Problem	Possible Cause	Solution
Machine does not turn on.	Power cord not properly connected; Power outlet malfunction.	Ensure the power cord is securely plugged into a working outlet. Check the circuit breaker.
Lid leaks during operation.	Lid not properly secured; Overfilling the container.	Ensure the lid is correctly aligned and locked into place. Do not exceed the MAX fill line.
Excessive residue at the bottom.	Natural fiber settling; Hard water deposits; Delayed cleaning.	Refer to the "Understanding and Reducing Residue" section. Clean promptly after use. Consider using filtered water.
Burning smell or ingredients sticking to the bottom.	Insufficient liquid; Overfilling with solid ingredients; Incorrect program selected.	Ensure adequate liquid is added. Do not overfill. Select the appropriate program for your ingredients.
Machine stops unexpectedly.	Overheating protection activated; Lid not properly closed.	Unplug the machine and let it cool down for 15-20 minutes. Ensure the lid is securely closed.

SPECIFICATIONS

- **Brand:** JOYDEEM
- **Model:** B0FM2KFP81
- **Capacity:** 46oz (1350ml) for room-temperature drinks; 41oz (1200ml) for hot drinks
- **Heating Power:** 1000W
- **Blending Motor Power:** 250W
- **Blades:** 10 triple-layer stainless steel blades
- **Inner Container Material:** 316L Stainless Steel
- **Product Dimensions (D x W x H):** 5.9" x 8.7" x 12.2" (150mm x 220mm x 310mm)
- **Special Features:** 7 Adjustable Temperature Controls (Nut Milk Mode), 8-in-1 Multifunctional, Auto Clean, 12-Hour Preset, 6-Hour Keep Warm

WARRANTY AND SUPPORT

Your JOYDEEM Nut Milk Maker Machine is covered by a manufacturer's warranty. For specific warranty terms and conditions, please refer to the warranty card included in your package or visit the official JOYDEEM website.

For technical support, troubleshooting assistance, or to inquire about replacement parts, please contact JOYDEEM customer service through the contact information provided in your purchase documentation or on the official JOYDEEM website. Please have your model number (B0FM2KFP81) and proof of purchase ready when contacting support.
