MAINTENANCE

To ensure the longevity and proper functioning of your SEDETA Gaming Desk, follow these maintenance guidelines:

- **Cleaning:** Always unplug the desk from the power source before cleaning. Use a soft, damp cloth to wipe down surfaces. Avoid harsh chemicals or abrasive cleaners that could damage the engineered wood or metal finish.
- **Electrical Components:** Keep all electrical components, including the LED lights and power outlets, dry and free from dust. Do not expose them to water or other liquids.
- **Drawer Care:** The fabric drawers can be spot cleaned with a mild detergent if necessary. Ensure they are completely dry before placing items inside.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.

TROUBLESHOOTING

If you encounter any issues with your SEDETA Gaming Desk, please refer to the following common problems and solutions:

- Desk is wobbly:**
Ensure all assembly screws are securely tightened. Adjust the individual foot pads on the bottom of the desk legs to level the desk on uneven floors.
- LED lights not working:**
Check that the power cord for the LED lights is securely plugged into a working outlet. Verify all connections to the LED strip and controller. If using the app, ensure your device is properly paired and the app is updated.
- Power outlets/USB ports not functioning:**
Confirm the main power cord for the desk's built-in power supply is fully plugged into a live wall outlet. Test the outlet with another device to ensure it is working. Check for any tripped circuit breakers.
