KAWADA nanoblock Daruma (Blue) Building Kit Instruction Manual

Model: NAN23569

1. Introduction

This manual provides instructions for the assembly and care of your KAWADA nanoblock Daruma (Blue) Collection Series Building Kit. This kit allows you to construct a miniature Daruma figure using micro-sized building blocks. The finished model stands approximately 1.65 inches tall and consists of 160 pieces. It is designed for a difficulty level of 2, indicating a moderate challenge suitable for experienced builders or those seeking a detailed project.

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years. Adult supervision is recommended for younger builders.

2. Setup and Assembly

Before beginning assembly, ensure all pieces are present and accounted for. The kit includes 160 micro-sized building blocks and a detailed instruction sheet.

1. **Unpack Components:** Carefully open the product box and remove all contents. Separate the building blocks from the instruction sheet.
2. **Review Instructions:** Familiarize yourself with the included graphical instruction sheet. nanoblock instructions typically use visual diagrams to guide the building process layer by layer.
3. **Organize Pieces:** For easier assembly, sort the blocks by color and size. This will help in quickly locating the correct pieces as you follow the steps.
4. **Begin Assembly:** Follow the step-by-step diagrams provided in the instruction sheet. Start from the base of the Daruma figure and build upwards, ensuring each block is securely connected.
5. **Small Parts Handling:** Due to the micro size of the blocks, it is recommended to work on a clean, flat surface to prevent loss of pieces. A pair of tweezers (not included) may assist in handling smaller blocks.

3. Operating and Display

Once assembled, your nanoblock Daruma (Blue) figure is ready for display. The Daruma is a traditional Japanese doll symbolizing perseverance and good luck.

- **Placement:** Place your finished Daruma on a stable, flat surface where it can be admired.
- **Symbolism:** Traditionally, one eye of the Daruma is filled in when setting a goal, and the second eye is filled in upon achieving that goal. The included prayer stickers can be applied to enhance this tradition.

4. Maintenance

To maintain the appearance of your nanoblock Daruma figure:

- **Cleaning:** Dust can be removed using a soft brush or a can of compressed air. For more thorough cleaning, gently wipe with a damp cloth and allow to air dry completely. Avoid harsh chemicals or abrasive materials.
- **Storage:** If disassembling for storage, keep all pieces in a sealed container to prevent loss and protect them from dust.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause colors to fade over time.

5. Troubleshooting

Common issues and their solutions:

- **Missing Pieces:** If you discover missing pieces upon opening the kit, please contact KAWADA customer support with proof of purchase and details of the missing components.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly. Apply gentle, even pressure. Avoid forcing blocks, as this may cause damage.
- **Model Instability:** Double-check all connections according to the instruction sheet. Loose connections can lead to an unstable model.
