OffiGo 55 Inch Electric L Shaped Standing Desk

OffiGo Electric L Shaped Standing Desk (55 Inch, White)

Model: 55 Inch Electric L Shaped Standing Desk

Brand: OffiGo

1. INTRODUCTION

Thank you for choosing the OffiGo Electric L Shaped Standing Desk. This manual provides comprehensive instructions for the safe and efficient assembly, operation, and maintenance of your new workstation. Please read this guide thoroughly before beginning assembly or operation to ensure proper use and to maximize the lifespan of your desk.

Safety Warnings

- Always ensure the desk is properly assembled and stable before use.
- Do not exceed the recommended weight limit of 154 lbs (70 kg).
- Be cautious when adjusting the desk height, especially if multiple users are sharing the desk.
- Always follow the manufacturer's instructions for safe use and maintenance.
- Keep children and pets away from the desk during operation.
- Ensure no obstacles are in the path of the desk's movement.

2. SETUP & ASSEMBLY

For ease and safety, we recommend two people for assembly. Please take out all parts from the package and check that all parts are included and in good condition before beginning. This standing desk can be installed in two orientations: left

or right. The following video demonstrates the right-side installation process (Steps R-1 to R-17).

Video: Official OffiGo L Shaped Standing Desk Installation Guide. This video provides step-by-step visual instructions for assembling the desk, including connecting panels, securing legs, and attaching the control panel.

Assembly Steps Overview

1. **Connect Desktop Panels:** Join the main desktop panels using the provided dowels.
2. **Attach Corner Panel:** Connect the L-shaped corner panel to the main desktop using dowels.
3. **Secure Desktop Sections:** Use metal tabs and screws to firmly connect the desktop sections. Ensure no gaps before tightening.
4. **Assemble Leg Frames:** Secure the crossbar to the leg columns. Ensure legs are at their lowest height before installation.
5. **Attach Leg Supports:** Connect the leg support bars to the leg columns using screws. Tighten screws to about 80% at this stage.
6. **Install Crossbar:** Attach the central crossbar to the leg frames. Tighten screws to about 80% at this stage.
7. **Attach Feet:** Connect the feet to the bottom of the leg columns.
8. **Connect Leg Frames to Desktop:** Secure the assembled leg frames to the underside of the desktop using screws. Use the correct screw type to avoid damage.
9. **Tighten Crossbar Screws:** Fully tighten the screws connecting the central crossbar to the leg frames.
10. **Connect Leg Frames to Desktop (Final):** Fully tighten the screws connecting the leg frames to the desktop.
11. **Insert Connecting Shaft:** Insert the hexagonal connecting shaft into the motor leg. Adjust the length of the plastic part on the shaft and connect it to the hexagonal rod on the other motor leg, then tighten the screw cap. Ensure the marked point on the shaft is fully inserted.
12. **Attach Support Bracket:** Connect the support bracket to the motor leg and the desktop using screws.
13. **Attach Headphone Hook:** Secure the headphone hook to the desktop using screws.
14. **Attach Control Panel:** Mount the digital control panel to the desktop using screws.
15. **Connect Power Cords:** Insert the power cord from the power adapter and the leg motor into the control panel. Organize the power cords using cable ties.
16. **Install Cable Management Clips:** Screw the cable management clips into the holes on the side of the desktop.
17. **Reset Desk:** After installation is complete, press and hold the "↓" key until the screen shows "rES". This operation will keep the product in its optimal state.

3. OPERATING INSTRUCTIONS

Your OffiGo Electric L Shaped Standing Desk features smooth electric height adjustment and memory control for effortless transitions between sitting and standing positions.

Digital Control Panel

LED Screen

Up & Down

3 Memory Height Presets

Set Button

Image: Digital Control Panel with LED screen, up/down arrows, 3 memory presets, and a set button.

Height Adjustment

- **Up/Down Arrows:** Press the ▲ (up) or ▼ (down) arrows to manually adjust the desk height. The height range is from 28.4 inches to 47.2 inches.
- **Quiet Operation:** The motor operates quietly at around 50 dB (no-load), ensuring minimal disruption.

Memory Presets

- **Set a Preset:** Adjust the desk to your desired height using the up/down arrows. Press the **S** (Set) button, then press one of the number buttons (**1**, **2**, or **3**) to save the current height to that preset.
- **Recall a Preset:** Simply press the corresponding number button (**1**, **2**, or **3**) to automatically move the desk to your saved height.

Customize Your Ideal Height

Height Adjustable Range from **28.4"** to **47.2"**

4. MAINTENANCE

To ensure the longevity and optimal performance of your OffiGo Electric L Shaped Standing Desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desktop and frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Cable Management:** Regularly check and organize cables to prevent tangling or damage, using the provided cable ties.
- **Screw Tightness:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.
- **Weight Limit:** Do not exceed the maximum weight recommendation of 154 lbs (70 kg) to prevent strain on the motor and frame.

5. TROUBLESHOOTING

If you encounter any issues with your OffiGo Electric L Shaped Standing Desk, please refer to the following troubleshooting guide. For further assistance, contact customer support.

Trouble Category	Trouble Code	Trouble Shooting
Overheating Protection	HSE	When the motor has been working continuously for 2 minutes, it will show 'HSE' and stop. You can use it again after 18 minutes. If the desk still does not move after waiting 18 minutes, please unplug the power and plug it back in after 10 seconds.
Sensor Malfunction Warning	E01	Sensor malfunction or circuit short-circuit. Unplug the power and plug it back in after 10 seconds. If the desk still does not move, please contact customer service.
Overloading Warning	E02	Max load reached. If moving the desk, please take the things off the desk and try again. If lowering the desk, please check if there is any obstacle below the desk, remove it and try again.
Operation Status Warning	rES	The desk stops moving or is stuck. Please check if there is any obstacle. If there is no obstacle, please unplug the power and plug it back in after 10 seconds. If the desk still does not move, please press and hold the "↓" key until the screen shows "rES". This operation will keep the product in its optimal state.
