SAFETY INFORMATION

- Do not expose the device to extreme temperatures, direct sunlight, or high humidity.
- Avoid dropping or subjecting the device to strong impacts.
- Use only the provided charging cable and adapter to prevent damage.
- Keep the device away from water and other liquids.
- Do not attempt to disassemble or repair the device yourself. Contact customer support for assistance.
- Prolonged listening at high volume levels can cause hearing damage.

PRODUCT OVERVIEW

The AHENOD G18-EU is a portable MP3/MP4 player featuring a 4.02-inch IPS HD touchscreen, Android 13 OS, and extensive storage capabilities. It supports various audio and video formats and offers wireless connectivity via Bluetooth 5.0 and Wi-Fi.

Key Features:

- **Operating System:** Android 13 with 8-core MTK chip for smooth performance.
- **Display:** 4.02-inch IPS HD touchscreen, supporting 1080P video resolution.
- **Storage:** 3GB RAM, 32GB ROM, and a 128GB TF card included, expandable up to 512GB.
- **Connectivity:** Bluetooth 5.0 for stable connections to audio devices, and Wi-Fi for online streaming and app management.
- **Battery:** 2000mAh lithium-ion battery, offering up to 25 hours of music playback or 5 hours of video playback.
- **Pre-installed Apps:** Includes popular music streaming services like Spotify, Apple Music, Amazon Music, and Deezer.
- **Parental Control:** Features for managing device usage.
- **Additional Features:** FM Radio, sound recorder.

SETUP

1. Charging the Device

Before first use, fully charge the MP3 player. Connect the provided USB Type-C cable to the device's charging port and the other end to a compatible USB power adapter or computer USB port. The charging indicator will show the charging status.

2. Inserting the SD Card

The device comes with a 128GB TF (Micro SD) card pre-installed. If you wish to use a different card (up to 512GB), gently insert it into the designated SD card slot until it clicks into place. Ensure the device is powered off before inserting or removing the SD card.

3. Initial Power On

Press and hold the power button located on the side of the device until the screen lights up. Follow the on-screen prompts to complete the initial setup, including language selection and time zone.

4. Connecting to Wi-Fi

From the home screen, navigate to **Settings** > **Network & internet** > **Wi-Fi**. Turn on Wi-Fi, select your desired network, and enter the password if prompted. This enables online music streaming and app updates.

OPERATING INSTRUCTIONS

1. Basic Navigation

The device uses a touchscreen interface. Swipe left/right or up/down to navigate between screens and menus. Tap icons to open applications or select options. Use the physical buttons for power, volume, and back functions.

2. Music Playback

Local Music: Open the pre-installed music player app. Use the music scan function to automatically add songs from the internal storage or SD card. The player supports MP3, WAV, APE, FLAC, AAC, OGG, and WMA formats. You can select playback modes such as sequential, loop list, random, or single song loop.

MAINTENANCE

1. Cleaning

Wipe the device with a soft, dry cloth. Do not use abrasive cleaners or solvents. For the screen, use a screen-specific cleaning solution and a microfiber cloth.

2. Battery Care

To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, but do not leave it plugged in for extended periods after it's fully charged. Store the device in a cool, dry place when not in use for long durations.

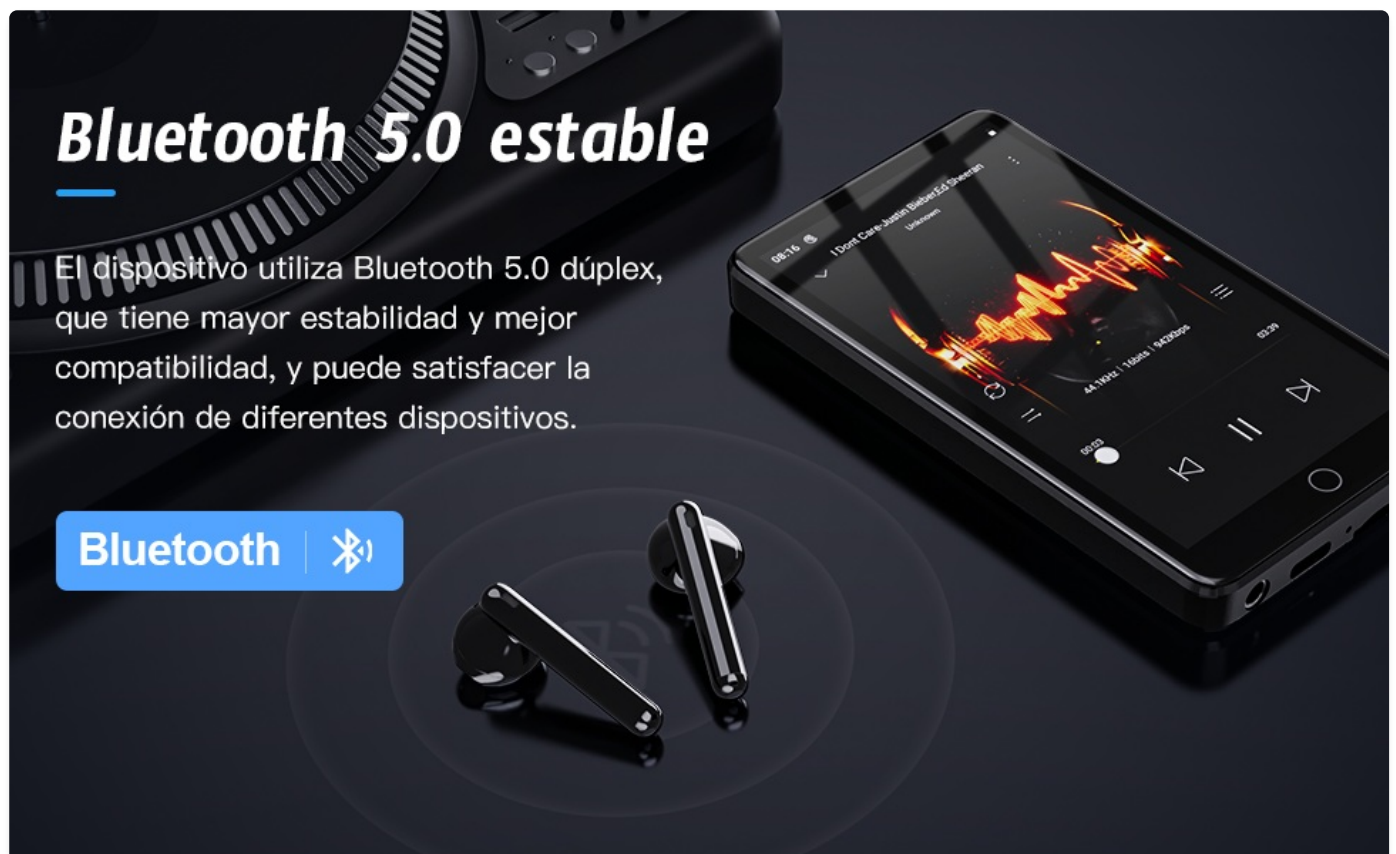

Image: The AHENOD G18-EU MP3 Player screen displaying battery information, highlighting its 2000mAh capacity and estimated usage

3. Software Updates

Periodically check for software updates to ensure optimal performance and security. Connect to Wi-Fi and go to [Settings](#) > [System](#) > [System update](#).

TROUBLESHOOTING

If you encounter issues with your device, refer to the following common solutions:

- **Device not turning on:** Ensure the battery is charged. Connect the device to a charger and wait a few minutes before attempting to power it on again.
- **Screen flickering or unresponsive:** Restart the device by holding the power button. If the issue persists, perform a factory reset (Note: this will erase all data). Navigate to [Settings](#) > [System](#) > [Reset options](#) > [Erase all data \(factory reset\)](#).
- **Bluetooth connectivity issues:** Ensure Bluetooth is enabled on both the player and the target device. Make sure both devices are within range. Try unpairing and re-pairing the devices.
- **Wi-Fi connection problems:** Verify your Wi-Fi password and ensure the router is functioning correctly. Try restarting the player and your Wi-Fi router.
- **Apps crashing or freezing:** Close and reopen the app. Clear the app's cache and data from [Settings](#) > [Apps](#) > [See all apps](#). If the problem continues, uninstall and reinstall the app.
- **Low volume or poor audio quality:** Check the volume settings on the device and any connected audio accessories. Ensure earphones are fully plugged in. For Bluetooth devices, check their individual volume settings.

If these steps do not resolve the issue, please contact customer support.
