1. Setup and Installation

This section provides detailed instructions for the proper installation of your Votamuta Shower Panel. Ensure all components are present before beginning.

1.1 Unpacking and Component Check

Carefully unpack all items from the box. Verify that all parts listed in the manual are included and undamaged. Refer to the component diagram below.

- ❶ Shower Panel Body
- ❷ Shower Head
- ❸ 59 Inch Shower Hose
- ❹ Hand Shower
- ❺ Handheld Shower Holder
- ❻ Adjustable Shower Arm
- ❼ All Mounting Components

Figure 1: Included Components of the Votamuta Shower Panel.

The package includes: 1. Shower Panel Body, 2. Shower Head, 3. 59 Inch Shower Hose, 4. Hand Shower, 5. Handheld Shower Holder, 6. Adjustable Shower Arm, 7. All Mounting Components.

1.2 Wall Preparation and Mounting

Before mounting, ensure your wall is structurally sound and capable of supporting the shower panel's weight. Mark the desired installation height and positions for the mounting brackets. Drill pilot holes and secure the brackets using appropriate anchors and screws for your wall type.

Figure 2: Votamuta Shower Panel mounted on a wall.

1.3 Water Supply Connections

Connect the hot and cold water supply lines to the corresponding inlets on the back of the shower panel. Use thread sealant tape on all threaded connections to prevent leaks. Ensure connections are tight but do not overtighten.

1.4 Final Assembly

Once the water lines are connected and secured, carefully hang the shower panel onto the installed mounting brackets. Connect the shower head, handheld sprayer, and tub spout (if applicable) to their respective outlets on the panel. Ensure all connections are secure.

2. Operating Instructions

Your Votamuta Shower Panel offers multiple functions for a customized showering experience.

2.1 Water Flow and Temperature Control

The main handle controls the water flow and temperature. Rotate the handle to adjust the water temperature from cold to hot. The digital temperature display provides real-time water temperature readings, helping to prevent scalding.

THREE modes to switch at will

ON/OFF Switch

Figure 3: ON/OFF Switch and Temperature Control.

2.2 Function Selection

Use the selector knob to switch between the different shower functions: rainfall shower head, body massage jets, and handheld sprayer. Only one function can be active at a time.

3. Maintenance

Regular maintenance ensures the longevity and optimal performance of your Votamuta Shower Panel.

3.1 Cleaning the Shower Panel

Clean the stainless steel surface with a soft cloth and mild soap or a non-abrasive cleaner designed for stainless steel. Avoid harsh chemicals, abrasive pads, or cleaners containing ammonia or bleach, as these can damage the finish.

3.2 Nozzle Cleaning and Lime-scale Removal

The nozzles on the shower head and body jets are designed for easy cleaning. To remove lime-scale and impurities, gently rub the rubber nozzles with your finger or a soft brush. For stubborn deposits, a solution of white vinegar and water can be used. Ensure to rinse thoroughly after cleaning.

4. Troubleshooting

This section addresses common issues you might encounter with your shower panel.

4.1 Low Water Pressure

- **Check water supply:** Ensure both hot and cold water supply valves are fully open.
- **Inspect nozzles:** Clean any clogged nozzles on the shower head or body jets as described in the Maintenance section.
- **Verify home water pressure:** If other fixtures in your home also have low pressure, the issue might be with your main water supply.

4.2 Leaks

- **Check connections:** Ensure all water supply connections and hose connections are tight and properly sealed with thread sealant tape. Do not overtighten.
- **Inspect O-rings/washers:** Verify that all O-rings and washers are correctly seated and not damaged. Replace if necessary.
- **Internal leaks:** If leaks persist from within the panel, contact customer support or a qualified plumber.

4.3 Inconsistent Water Temperature

- **Adjust mixing valve:** Ensure the mixing valve is correctly adjusted.
- **Check water heater:** Verify your water heater is functioning correctly and providing sufficient hot water.

4.4 Digital Display or LED Lights Not Working

- **Check power source:** Ensure any necessary power connections for the display or LEDs are secure.
- **Internal wiring:** If the issue persists, there may be an internal wiring problem. Contact customer support.

5. Specifications

Feature	Detail
Brand	Votamuta
Model Number	VOT-HFT7006
Colour	Black
Material	Stainless Steel
Number of Handles	1

Item Weight	7 Kilograms
Mounting Type	Wall Mount
Included Components	Adjustable Shower Body Jets, Adjustable Rainfall Shower Head and Shower Arm, Brass Valve, Multifunctional Handheld Sprayer, Shower Panel

6. Warranty Information

For specific warranty details and terms, please refer to the product page on Amazon or contact Votamuta customer support directly. The product typically includes a 30-day return/replacement policy through Amazon. For manufacturer-specific warranty information, please consult the official Votamuta website or contact their support team.

7. Customer Support

Should you require assistance with your Votamuta Shower Panel, please use the following contact information:

- **Email:** medoqeshower@163.com
- **Phone Support:** Available 24/7 (refer to product page for specific numbers if available).
- **Technical Support:** Lifetime Technical Support is provided.

When contacting support, please have your model number (VOT-HFT7006) and purchase details ready.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
