Operating Instructions

Converting the Sofa Bed (3-in-1 Functionality)

Your Marsail sofa bed offers three versatile modes: sofa, recliner, and sleeper bed.

1. **Sofa Mode:** The standard upright position for seating.
2. **Recliner Mode:** To recline, gently push the backrest backward to adjust to the 105° or 135° angle. The footrest can be pulled out partially for leg support.
3. **Sleeper Bed Mode:** To convert to a bed, pull the side straps located on the front of the footrest section. This will extend the footrest fully and allow the backrest to lay flat (180°). Ensure there is enough space in front of the sofa for full extension.

Figure 4: Adjustable Backrest Positions. The backrest can be set to 105° (reading), 135° (movie), and 180° (napping).

Maintenance and Care

- **Cleaning:** For general cleaning, use a soft, dry cloth to dust the velvet fabric. For spills, blot immediately with a clean, damp cloth. Avoid rubbing, as this can spread the stain. Use a mild fabric cleaner if necessary, testing on an inconspicuous area first.
- **Vacuuming:** Regularly vacuum the sofa using an upholstery attachment to remove dust and debris.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the fabric to fade. Position the sofa away from direct sunlight or use curtains/blinds.
- **Frame Care:** Periodically check all screws and bolts to ensure they are tight. Tighten if necessary to maintain stability.
- **Pet Care:** If you have pets, consider using a furniture cover to protect the velvet fabric from scratches and pet hair.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Sofa feels unstable or wobbly.	Loose screws or uneven legs.	Check and tighten all assembly screws. Ensure the sofa is on a flat, even surface. Adjust leg levelers if applicable.
Difficulty converting to bed mode.	Mechanism obstruction or improper alignment.	Ensure no objects are obstructing the pull-out mechanism. Verify that the hinges are correctly installed and locked. Apply gentle, even pressure when pulling the straps.
USB charging port not working.	Not connected to power or faulty cable.	Ensure the sofa's power cord is securely plugged into a working electrical outlet. Try a different USB cable or device to rule out cable/device issues.
Fabric appears flattened or matted.	Regular use or pressure.	Gently brush the velvet fabric with a soft brush in the direction of the pile to restore its texture. Rotate cushions periodically.
