# ROCKBROS 2-in-1 Foldable Bike Stand Instruction Manual

Model: 270014001/CA

Brand: ROCKBROS

## PRODUCT OVERVIEW

---

The ROCKBROS 2-in-1 Foldable Bike Stand provides a versatile and space-saving solution for bicycle storage. It supports both vertical and horizontal parking configurations and is compatible with a wide range of bicycle wheel sizes and tire widths. Constructed from durable carbon steel, this stand is designed for stability and ease of use in various indoor and outdoor environments.

# Different parking forms Adapt to multiple scenarios

Vertical  
&  
Horizontal parking

## SETUP AND ASSEMBLY

The ROCKBROS Bike Stand is designed for quick and easy assembly, requiring no additional tools beyond what may be provided. Follow these steps to set up your stand:

1. Unfold the main body of the stand.
2. Attach the two leg tubes to the parking body by aligning them with the mounting holes and securing them with the provided screws. Ensure all screws are tightened in order for stability.
3. Once assembled, slightly open the parking body towards the back and pull the Quick Release Lever to fully extend the stand into its operational position.

For a visual guide on assembly and adjustment, please refer to the video below:

## OPERATING INSTRUCTIONS

---

### Parking Your Bicycle

The stand features a spring-assisted design for smooth operation. To park your bike:

1. Roll the rear wheel of your bicycle onto the stand's base.
2. Gently push the bike forward until the front wheel pops up and locks into the vertical position. Ensure the curved wheel rollers cradle the tire securely.
3. For vertical parking, secure the front wheel to the frame using the included velcro strap to prevent movement. Additionally, a strap can be used to secure the seatpost to the upper arm of the stand for enhanced stability.

To remove your bike, simply pull it backward to disengage the locking mechanism.

### Adjusting for Tire Size

The stand is compatible with 24"-29" wheels and tires up to 2.4" wide. The adjustable design allows you to customize the fit for various bike types, including mountain bikes and road bikes. The curved wheel rollers are designed to match tire shape, increasing contact area for enhanced stability.

## Arc tire roller More stable parking

**Wheel Sizes Maximum 29"**  
**Maximum Tire Width: 2.4"**

Image: A mountain bike tire is shown securely held by the stand's arc tire rollers, with specifications for wheel and tire compatibility.

### **Vertical Parking Considerations**

When using the vertical parking option, please note that bicycles with fenders or rear racks may not fit optimally. Ensure your bike's configuration allows for stable vertical storage without interference.

## MAINTENANCE

To ensure the longevity and optimal performance of your ROCKBROS Bike Stand, regular maintenance is recommended:

- **Cleaning:** Wipe down the stand with a damp cloth to remove dust and dirt. Avoid harsh chemicals that may damage the carbon steel finish.
- **Check Fasteners:** Periodically inspect all screws and connections to ensure they are tight. Re-tighten if necessary to maintain stability.
- **Rubber Feet:** Ensure the anti-slip foot pads are intact and free from damage to protect your floors and prevent sliding.
- **Storage:** When not in use, the stand can be fully folded to a compact size for easy storage, protecting it from environmental elements.

## TROUBLESHOOTING

- **Stand Instability:** If the stand feels unstable, ensure it is placed on a flat, level surface. Verify that all assembly screws are securely tightened.
- **Bike Not Fitting Securely:** Check that your bike's wheel size and tire width are within the compatible range (24"-29" wheels, up to 2.4" tire width). Adjust the bases on both sides to match your tire's width.
- **Difficulty Folding/Unfolding:** Ensure the quick-release mechanism is fully disengaged when folding and properly engaged when unfolding. Check for any obstructions.

## SPECIFICATIONS

Feature	Detail
Model Number	270014001/CA
Material	Carbon Steel
Color	Black
Item Weight	5.3 kg
Compatible Wheel Sizes	24"-29"
Max Tire Width	2.4"
Folded Dimensions	Approx. 25 x 15.5 x 4 inches (64 x 23 x 12 cm)

## WARRANTY AND SUPPORT

For warranty information or technical support, please refer to the product packaging or contact ROCKBROS customer service directly. Keep your purchase receipt for any warranty claims.
