OLIGHT 300164-ARKPROLITEYD-BK

OLIGHT ArkPro Lite EDC Flashlight User Manual

Model: 300164-ARKPROLITEYD-BK

1. INTRODUCTION

Thank you for purchasing the OLIGHT ArkPro Lite EDC Flashlight. This compact and versatile flashlight is designed for everyday carry, offering multiple light sources and robust features for various applications. Please read this manual carefully before use to ensure proper operation and maintenance.

The ArkPro Lite features a 3-in-1 multi-light source, including 1200 lumens white light, 40 lumens red light, and a high-precision 365nm UV light. It boasts a durable unibody construction, dual charging options (MCC and Type-C), and user-friendly indicators.

2. PRODUCT OVERVIEW

The OLIGHT ArkPro Lite is a flat EDC flashlight integrating three light sources: white light, red light, and UV light. Its design prioritizes portability, durability, and ease of use.

3 in 1 ライト 簡単操作

Image: The ArkPro Lite showcasing its three distinct light sources.

Key Features:

- **3-in-1 Multi-Light Source:** Integrates 1200 lumens white light, 40 lumens red light, and a 365nm UV light.
- **High-Precision 365nm UV Light:** Powerful 1000mW output for making invisible things visible, with 2 adjustable levels for various inspection tasks.
- **Easy Charging & Operation:** Supports both dedicated MCC charging and versatile Type-C charging. Intuitive circular selector for mode switching.
- **User-Friendly Design:** Ergonomic concave button, textured grip, and color-coded indicators for brightness (white), battery level (green), and lockout status.
- **Robust Unibody Structure & High Portability:** Durable unibody construction with a flat, anti-slip design. Features a two-way clip and magnetic tail cap for hands-free use.

3. SETUP

3.1 Initial Charge

Before first use, fully charge the ArkPro Lite. The device supports two charging methods:

1. **Magnetic Charging Cable (MCC):** Attach the magnetic charging cable to the tail cap of the flashlight.
2. **USB Type-C:** Connect a USB Type-C cable to the charging port on the side of the flashlight.

The green indicator light will show battery level during charging. A full charge is indicated when the light turns solid green.

4. OPERATING INSTRUCTIONS

4.1 Power On/Off

- **To Turn On:** Press the central button once.
- **To Turn Off:** Press and hold the central button for 1 second.

4.2 Switching Light Sources

Rotate the circular selector around the central button to switch between the three light sources:

- **White LED Light:** For general illumination.
- **Red Light:** For preserving night vision or signaling.
- **UV Light:** For detection and inspection tasks.

5. MAINTENANCE

- **Cleaning:** Wipe the flashlight with a soft, clean cloth. Do not use harsh chemicals or abrasives.
- **Charging Port:** Keep the charging ports clean and free of debris to ensure efficient charging.
- **Storage:** Store the flashlight in a cool, dry place when not in use for extended periods. Charge the battery every 3-6 months to maintain battery health.
- **Water Resistance:** The ArkPro Lite is IPX7 waterproof. Ensure the charging port cover is properly sealed before exposing it to water.
