

YITAHOME MAYIH4yMGb

YITAHOME Heavy Duty 55-75 Gallon Aquarium Stand

MODEL: MAYIH4yMGb

Brand: YITAHOME

1. SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Retain this manual for future reference.

- **Weight Capacity:** This stand is designed to support a maximum weight of 860 lbs. Do not exceed this limit to prevent structural failure and potential injury.
- **Stability:** Always install the included anti-tip devices to secure the stand to a wall. This is crucial for preventing accidental tipping, especially in households with children or pets.
- **Electrical Safety:** The integrated power outlet is for aquarium equipment only. Ensure all electrical connections are dry and free from water contact. Disconnect power before performing any maintenance on the aquarium or stand. Do not overload the power strip.
- **Placement:** Place the stand on a flat, level, and stable surface. Uneven surfaces can compromise stability.
- **Water Exposure:** While the stand features moisture-resistant materials, prolonged exposure to standing water should be avoided. Promptly wipe up any spills.

2. PACKAGE CONTENTS

Verify that all components are present and undamaged before beginning assembly. If any parts are missing or damaged, please contact customer support.

3. ASSEMBLY INSTRUCTIONS

Assembly typically requires two adults. Please follow the steps carefully. A Phillips head screwdriver (not included) may be required.

1. **Prepare Workspace:** Clear a spacious, clean, and level area for assembly. Lay out all components and hardware.
2. **Assemble Base Structure:** Attach the side frames to the bottom base using the provided hardware. Ensure all connections are secure.
3. **Install Shelves:** Insert the various shelf panels into their designated slots within the frame. Secure them with the appropriate fasteners.
4. **Attach Top Panel:** Carefully place the top panel onto the assembled frame and secure it using the remaining hardware.
5. **Install Power Outlet:** Mount the power outlet unit into its designated recess on the top panel or side, as indicated in the detailed diagram.
6. **Secure Anti-Tip Devices:** Position the stand in its final location. Using the anti-tip kit, secure the stand to a wall stud. This step is critical for safety.
7. **Final Check:** Ensure all screws are tightened and the stand is stable before placing any weight on it.

5. MAINTENANCE

Proper care will ensure the longevity and appearance of your aquarium stand.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Spills:** Immediately wipe up any water spills to prevent moisture damage, especially around the power outlet area.
- **Inspection:** Periodically check all fasteners and connections to ensure they remain tight. Re-tighten if necessary. Verify that the anti-tip devices are still securely attached.

6. TROUBLESHOOTING

If you encounter issues with your YITAHOME aquarium stand, refer to the following common solutions:

- **Stand is Wobbly:** Ensure the stand is on a level surface. Check all assembly screws and tighten any that are loose. Verify that the anti-tip devices are properly installed and secured to the wall.
- **Power Outlet Not Working:** Check if the red power switch on the outlet strip is in the 'ON' position. Ensure the stand's power cord is securely plugged into a functional wall outlet. Test the wall outlet with another device. If issues persist, discontinue use and contact customer support.
- **Damaged Parts:** If any part of the stand becomes damaged, do not attempt to repair it with unauthorized parts. Contact customer support for replacement parts or guidance.
