## Troubleshooting

If you encounter any issues with your ORRD Fluted Nightstand, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Charging station not working	Not plugged in; loose connection; faulty device cable	Ensure the nightstand's power cord is securely plugged into a working outlet. Check device cables for damage and ensure they are fully inserted into the charging ports. Test with a different device or cable.
Drawer is difficult to open/close	Misaligned drawer slides; obstruction; overtightened screws	Check that the drawer slides are correctly installed and aligned. Ensure no items are obstructing the drawer's path. Loosen screws on the drawer slides slightly if they appear too tight.
