

morngree GF11

morngree GPS Tracker Model GF11 User Manual

Your guide to setting up and using your morngree GF11 GPS Tracker.

1. INTRODUCTION

The morngree GPS Tracker Model GF11 is a compact and versatile tracking device designed for various applications, including personal item tracking, pet safety, and vehicle location. This device utilizes Bluetooth and RF connectivity to provide location data without requiring a subscription. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal performance.

2. SETUP GUIDE

2.1 Unboxing and Initial Check

Upon opening the package, verify that all components are present. The package should contain the morngree GF11 GPS Tracker and any included accessories. Inspect the device for any visible damage.

2.2 App Download and Installation

To use the mornGREE GF11 GPS Tracker, you need to download the companion mobile application. The device is compatible with both Android and iOS operating systems.

1. Scan the QR code provided in the product packaging or search for the official 'CariTag' or 'FindingTag' app in your device's app store (Google Play Store for Android, Apple App Store for iOS).
2. Download and install the application on your smartphone or tablet.
3. Open the app and follow the on-screen prompts to create an account or log in if you already have one.

EASY TO SET UP & USE

The device can also be monitored real-time via the free mobile App (Android and iOS).

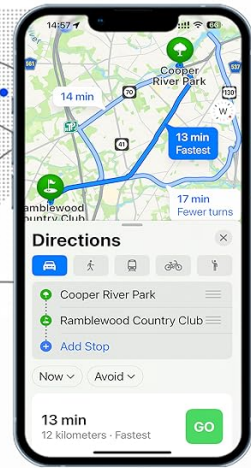

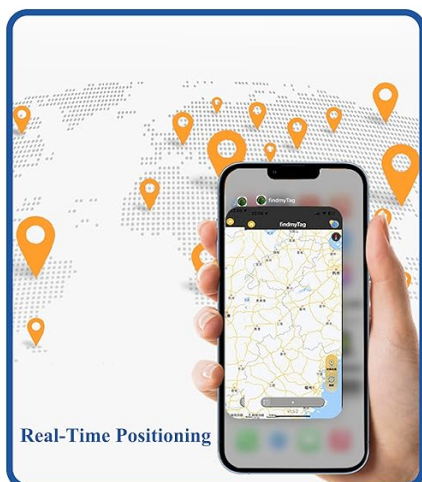

Figure 2: The mornGREE GPS Tracker is easy to set up and use with its dedicated mobile application, compatible with both Android and iOS devices for real-time monitoring.

2.3 Device Pairing and Activation

Follow these steps to pair your mornGREE GF11 GPS Tracker with the mobile application:

1. **Withdraw the battery insulation piece:** Locate and remove the small plastic tab from the device. This activates the battery.
2. **Connect via Bluetooth:** Ensure Bluetooth is enabled on your smartphone. In the app, initiate the device search or 'Add Device' function. The app will automatically detect the GPS device.
3. **Registration and Customization:** Once detected, follow the app's instructions to complete the registration information, bind the item to the tracker, and customize its name (e.g., 'Car Keys', 'Pet Collar', 'Backpack').
4. The app will confirm successful activation, and you can then view the device on the map interface.

Product App Activation Steps

1. Withdraw the battery insulation piece of the GPS device, download the APP and then connect the GPS locator via Bluetooth
2. After APP automatically detects the GPS device, you can fill in the registration information, bind items and customize naming
3. The last picture shows the page after successful activation

3. OPERATING INSTRUCTIONS

3.1 Live Tracking and Global Positioning

The morngree GF11 GPS Tracker provides real-time location updates through the connected mobile application. It utilizes Google location mode for detailed and accurate monitoring.

- Open the app to view the current location of your tracker on a map.
- The app displays the tracker's position and can provide navigation directions to its location.
- The device supports global tracking in over 140 countries, including the U.S., Canada, and Mexico, ensuring seamless movement tracking without additional costs.

Figure 4: The morngree GPS Tracker offers live tracking and global positioning, with a built-in speaker to help locate items. The image shows a car being tracked on a map via a smartphone app.

3.2 Sound Feature

If you are within Bluetooth range of your tracker and cannot visually locate it, you can activate a sound alert through the app. The built-in speaker on the tracker will emit a sound, helping you pinpoint its exact location.

3.3 Managing Multiple Devices

The morngree GF11 GPS Tracker allows you to tie one locator to one item. A single mobile phone can be connected to multiple GPS locators, enabling you to track various items simultaneously through the same application interface.

MANAGE MULTIPLE DEVICES

One GPS locator can be tied to one item, and one cell phone can be tied to multiple GPS locators.

CariTag

Figure 5: This image illustrates how one mobile phone can manage multiple morngree GPS locators, showing various use cases such as tracking a motorcycle, child, pet, luggage, and car.

3.4 Application Scenarios

The morngree GF11 GPS Tracker is suitable for a range of tracking needs:

- **Child Safety:** Attach to backpacks or clothing for peace of mind.
- **Pet Safety:** Secure to pet collars to monitor their location.

- **Elderly Safety:** Can be carried by elderly individuals for emergency location.
- **Car Safety:** Discreetly place in vehicles for theft recovery or tracking.
- **Personal Items:** Attach to keys, wallets, luggage, or other valuables.

4. MAINTENANCE

4.1 Battery Information

The morngree GF11 GPS Tracker is designed for extended battery life. When the battery level is low, the app may provide a notification. Refer to the app for specific battery status indicators. The device uses a replaceable coin cell battery. To replace, carefully open the device casing, remove the old battery, and insert a new one, ensuring correct polarity.

4.2 Cleaning and Care

To maintain the device's functionality and appearance:

- Wipe the tracker with a soft, dry cloth.
- Avoid using harsh chemicals, cleaning solvents, or strong detergents.
- The device is splash-proof, offering protection against light rain or splashes. However, it is not designed for submersion in water.

Upgraded Waterproof Rating

No Fear of Rainy Weather

Figure 7: The morngree GPS Tracker features an upgraded waterproof rating, providing protection against rainy weather and splashes, as depicted by a dog wearing the tracker near splashing water.

5. TROUBLESHOOTING

If you encounter issues with your morngree GF11 GPS Tracker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not connecting to app	Battery insulation tab still in place; Bluetooth off; App not updated; Device out of range.	Ensure battery tab is removed. Turn on Bluetooth on your phone. Update the app to the latest version. Bring the device closer to your phone.
Inaccurate location data	Weak signal; Environmental interference; Device in a shielded area.	Move the device to an open area. Ensure the device is not obstructed by metal or dense materials.
No sound from tracker	Device out of Bluetooth range; Low battery.	Ensure the device is within Bluetooth range of your phone. Check and replace the battery if necessary.
App not displaying map	No internet connection; Location services disabled.	Ensure your phone has an active internet connection. Enable location services for the app in your phone settings.

6. SPECIFICATIONS

Key technical specifications for the morngree GPS Tracker Model GF11:

Feature	Detail
Model Number	GF11
Brand	morngree
Connectivity Technology	Bluetooth, RF
Special Feature	No Subscription Required
Supported Application	GPS tracking apps (e.g., CariTag, FindingTag)
Material	Plastic
Water Resistance	Splash-proof

7. WARRANTY AND SUPPORT

For warranty information and customer support, please refer to the documentation included with your purchase or contact morngree customer service through their official website or the contact information provided in the mobile application. Please have your model number (GF11) and purchase details ready when contacting support.
