## CUBIMANA SC9988

# CUBIMANA 9-Pack Mini Botanical Flowers Building Set

Model: SC9988

Brand: CUBIMANA

## INTRODUCTION

---

This manual provides detailed instructions for assembling and caring for your CUBIMANA 9-Pack Mini Botanical Flowers Building Set. This set includes nine unique mini plant designs, each with its own dedicated instruction booklet and numbered building block packs. Please read all instructions carefully before beginning assembly.

## SAFETY INFORMATION

---

**WARNING: Choking Hazard - Small Parts. Not for children under 3 years. Recommended for ages 12 and up due to the small size and intricate nature of the building blocks.**

## SETUP AND ASSEMBLY

---

Each of the nine flower designs comes with its own individual instruction booklet and corresponding numbered building block pack. This organization simplifies the assembly process, allowing for a smooth and stress-free building experience.

The set utilizes 3.6mm mini building bricks, which are smaller than standard building blocks. This allows for finer details and more refined shaping in the finished botanical models. Due to their small size, careful handling is recommended during assembly.

Each flower set is individually packaged with its own instruction booklet and numbered parts.

## MAINTENANCE

The CUBIMANA Mini Botanical Flowers are artificial and require minimal maintenance. To keep them looking their best, occasionally dust the assembled models with a soft cloth or brush. Avoid exposing them to direct sunlight for prolonged periods to prevent potential fading of colors.

## TROUBLESHOOTING

### Difficulty with Small Pieces

The 3.6mm mini bricks are intentionally small to achieve intricate details. If you find them challenging to handle, using tweezers or a small tool can assist in placing and connecting the pieces. Patience is key, especially for adults and children aged 12 and up, as recommended.

### Loose Connections

While the blocks are designed for secure connections, some delicate parts may feel less stable. Ensure each piece is firmly pressed into place. If a connection remains loose, consider applying a small amount of model glue for permanent display, though this will prevent future disassembly.

### Missing or Damaged Parts

Each set is carefully inspected, but in the rare event of missing or damaged parts, please contact customer

support for assistance.
