

Acer B0FMF719C3

Acer 7-in-1 Wireless Charging Station with LED Clock User Manual

Model: B0FMF719C3

1. PRODUCT OVERVIEW

The Acer 7-in-1 Wireless Charging Station is a versatile device designed to streamline your charging experience. It integrates multiple charging points for various Apple devices, an LED clock with Bluetooth time synchronization, and an adjustable night light, all within a compact design. This station provides up to 30W total output for fast charging compatible devices.

- Cable
- Case
- Wireless Charger
- Charging Station with LED Light, LED Clock, Stand

3. SETUP

1. **Power Connection:** Connect the provided power cable to the charging station and plug it into a wall outlet.
2. **Initial Clock Setup:** The LED clock will power on. For automatic time synchronization, enable Bluetooth on your smartphone and connect to the device named "S1". The time, weekday, and indoor temperature will update automatically.
3. **Manual Clock Adjustment:** If Bluetooth sync is not desired or available, use the 'MIN', 'HOUR', 'WEEK', '12/24', and 'C/F' buttons located on the back of the unit to manually set the time, day, and temperature unit (Celsius/Fahrenheit).
4. **Placement:** Place the charging station on a flat, stable surface, such as a nightstand or desk, ensuring adequate ventilation.

4. OPERATING INSTRUCTIONS

4.1 Wireless Charging

- **Smartphones:** Place your iPhone (16/15/14/13/12/Pro Max Series) on the designated wireless charging pads. The station supports charging two phones simultaneously. For optimal wireless charging, ensure phone cases are under 2mm thick. Android phones require an additional magnetic compatible case for wireless charging on this device.
- **Apple Watch:** Place your Apple Watch (Series 1-10) on the integrated watch charging stand.
- **AirPods:** Place your wireless charging compatible AirPods case (AirPods 4, AirPods 3, AirPods Pro 2, AirPods Pro, AirPods (3rd generation), AirPods 2 Wireless Charging Case) on the designated AirPods charging area. Ensure the AirPods case is centered for proper charging.

4.2 USB Charging

The station includes USB-C and USB-A output ports for wired charging of additional devices. Connect your device's charging cable to the appropriate port on the back of the station.

4.3 LED Clock and Display

- **Bluetooth Time Sync:** As described in Setup, connect to "S1" via Bluetooth for automatic time, weekday, and indoor temperature updates.
- **Manual Adjustment:** Use the buttons on the back to set time, day, and temperature unit manually.
- **Display Brightness:** The LED display features 4 adjustable brightness levels. Use the controls to set

your preferred intensity. Note: The LED display will not show indoor temperature while your phone is charging wirelessly.

4.4 Night Light Functionality

- **Adjustable Brightness:** The night light offers 4 adjustable brightness levels.
- **Color Modes:** Choose from three versatile modes: white, warm white, and warm yellow, to adapt to your preferred ambiance.
- **Control:** Use the two front buttons to adjust brightness or turn off the lights entirely.
- **Automatic Activation:** A built-in sensor automatically activates a soft, non-disruptive glow in low light conditions.

5. FEATURES

- **7-in-1 Functionality:** Combines dual wireless phone charging, Apple Watch charging, AirPods charging, USB-C output, USB-A output, an LED clock, and a night light.
- **30W Max Total Output:** Provides efficient and fast charging for multiple devices simultaneously.
- **Dual Wireless Charging:** Power up two iPhones (16/15/14/13/12 Pro Max Series) simultaneously. The built-in stand supports landscape orientation for media viewing.
- **Smart LED Clock:** Features Bluetooth-enabled automatic time, weekday, and indoor temperature synchronization. Manual adjustment options are also available.
- **Thoughtful Night Light:** Offers 4 adjustable brightness levels and three color modes (white, warm white, warm yellow). Includes an automatic sensor for low-light activation.
- **Tangle-Free Design:** Eliminates cable clutter, providing a neat and organized charging area.
- **Case Compatibility:** Works with phone cases under 2mm thickness. Not compatible with cases containing credit cards or metal.

6. SAFETY INFORMATION

The Acer wireless charging dock incorporates multiple safety features to ensure secure operation:

- **Overcurrent Protection:** Prevents damage from excessive current flow.
- **Overvoltage Protection:** Safeguards devices against voltage spikes.
- **Temperature Protection:** Monitors and regulates the device's temperature to prevent overheating.
- **Foreign Body Detection:** Detects foreign objects on the charging surface to prevent hazards.

- **Short Circuit Protection:** Protects against electrical shorts.
- **AirPods Placement:** Ensure AirPods are centered on the charging area for proper function.
- **Case Thickness:** For optimal wireless charging, use phone cases under 2mm.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the charging station. Avoid using abrasive cleaners or solvents.
- **Dust Removal:** Regularly remove dust from charging ports and surfaces to ensure optimal performance.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place.

8. TROUBLESHOOTING

- **Device Not Charging:**

- Ensure the charging station is properly connected to a power source.
- Verify that your device is placed correctly on the wireless charging pad.
- Check if your phone case is thicker than 2mm or contains metal/credit cards. Remove the case if necessary.
- For AirPods, ensure the case is centered on the charging area.
- Confirm your device supports wireless charging.

- **Clock Not Syncing via Bluetooth:**

- Ensure Bluetooth is enabled on your smartphone.
- Search for and connect to "S1" in your phone's Bluetooth settings.
- If issues persist, try restarting both your phone and the charging station.

- **Night Light or Display Not Working:**

- Check power connection.
- Use the front buttons to adjust brightness or toggle the light on/off.

- **Indoor Temperature Not Displaying:**

- The LED display will not show indoor temperature while a phone is charging wirelessly. Remove the phone to view the temperature.

9. SPECIFICATIONS

Feature	Detail
Brand	Acer
Model	B0FMF719C3
Total Output Wattage	30 Watts
Input Voltage	12 Volts
Total USB Ports	3 (USB-C & USB-A output, USB-C input)
