Giantex GX-11229-HU

Giantex Twin Kids House Bed with Light Bulbs Instruction Manual

Model: GX-11229-HU

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Giantex Twin Kids House Bed with Light Bulbs. Please read this manual thoroughly before assembly and retain it for future reference.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions could result in serious injury.

- Always follow the assembly instructions carefully to prevent instability.
- Be cautious around sharp edges to avoid injury.
- Keep the bed away from walls or heavy furniture to prevent entrapment.
- Never leave children unattended near the bed.
- Ensure all fasteners are securely tightened before use and periodically check for looseness.
- Do not allow children to jump on the bed frame.
- Only use a mattress that fits the interior dimensions of the bed (76" x 39"). A mattress thickness of less than 8 inches is recommended for a snug fit.

PACKAGE CONTENTS

Before beginning assembly, ensure all parts listed below are present and undamaged. If any parts are missing or damaged, please contact Giantex customer service.

- 1 x House Bed Frame (components)
- 1 x LED Bulb Light String
- 1 x User Manual (this document)
- Hardware Pack (screws, nuts, etc.)

ASSEMBLY INSTRUCTIONS

Assembly requires at least two adults. A power drill may be helpful for faster assembly, but hand tools are sufficient. Follow the numbered steps carefully.

Assembly Video Guide

Your browser does not support the video tag.

Official installation video for a Twin Size Floor Bed. This video demonstrates the step-by-step assembly process for a similar floor bed model, providing visual guidance for construction.

Step-by-Step Visual Guide

Step 1: Prepare the Side Panels

Lay out the two side panels of the bed frame on a clean, flat surface. Ensure all pre-drilled holes are aligned as per the diagram in your included paper manual.

Step 2: Attach the Horizontal Support Beams

Slat-free Floor Bed

Make a smooth transition to independent sleep

Playhouse

Connect the horizontal support beams between the two side panels using the provided hardware. Tighten screws firmly but do not overtighten.

Step 3: Install the Roof Frame

House-Shaped Frame

● ● ●

Build a dreamy sleep space for kids

2 Open Windows

● ● ●

Make it fun for kids to play hide & seek

Assemble the roof frame components and attach them to the top of the bed structure. Ensure all connections are secure to form the house shape.

Step 4: Finalize Frame Assembly

Double-check all connections and ensure the frame is stable. The bed is designed to be slat-free, so no additional slats are required for mattress support.

Step 5: Install LED Bulb Lights

Carefully string the LED bulb lights along the roof frame as desired. Secure them using the provided clips or fasteners, ensuring wires are tucked away safely.

Step 6: Place Mattress

Place your twin-size mattress (not included) directly onto the floor within the bed frame. Ensure it fits snugly within the interior area of 76" x 39".

OPERATING INSTRUCTIONS

LED Bulb Lights

- Plug the LED light string into a standard electrical outlet.
- Use the integrated switch (if available) or the wall switch to turn the lights on and off.
- Ensure the light string is not tangled or obstructed to prevent overheating.

MAINTENANCE

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten as necessary to maintain stability.
- **LED Lights:** If a bulb burns out, replace it with a bulb of the same type and wattage as specified by the manufacturer. Unplug the light string before replacing bulbs.
- **Wood Care:** Protect the wood from extreme temperature changes and humidity. Avoid placing hot or

wet items directly on the wood surface.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame feels wobbly.	Loose fasteners.	Check and tighten all screws and bolts. Ensure all components are correctly aligned.
LED lights not working.	Not plugged in, faulty bulb, or damaged wire.	Ensure the light string is securely plugged into a working outlet. Check individual bulbs for damage and replace if necessary. Inspect the wire for any visible damage.
Mattress does not fit properly.	Incorrect mattress size.	Verify mattress dimensions. The bed is designed for a standard twin mattress (76" L x 39" W).
Missing parts during assembly.	Packaging error.	Refer to the package contents list and contact Giantex customer service with the specific part numbers.

SPECIFICATIONS

Brand: Giantex

Model Number: GX-11229-HU

Color: White

Material: Solid Wood, Plywood, MDF

Overall Dimensions (L x W x H): 82" x 42" x 51"

Interior Area for Mattress (L x W): 76" x 39"

Recommended Mattress Thickness: Less than 8 inches

Doorway Width: 16"

Window Size (L x W): 15" x 11"

Net Weight: 43 lbs

Special Feature: LED Lighting, No Box Spring Needed

Assembly Required: Yes
