HOMBCK Floating Bed Frame Full with Smart LED Lights - Instruction Manual

Model: Floating Bed Frame Full | Brand: HOMBCK

INTRODUCTION

This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your HOMBCK Floating Bed Frame Full with Smart LED Lights. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SAFETY INFORMATION

To ensure safety, always assemble the bed frame according to the instructions provided. Be cautious of potential tip-over risks, especially with the floating design. When handling the LED lights, be aware of potential electrical hazards and follow proper safety precautions. Do not overload the bed frame beyond its weight capacity.

FEATURES

- **Unique Floating Design:** Creates an illusion of a bed elevated off the floor, offering under-bed storage space and a modern aesthetic. Weight-distributed legs ensure stability.
- **Smart LED Lights:** App-controlled RGB lighting with multiple preset colors and effects to customize bedroom ambiance. Capable of displaying over 60,000 colors.
- **Faux Leather Upholstery:** The bed frame is decorated with breathable faux leather, and the headboard is filled with high-density cotton for softness and ergonomic back support.
- **Sturdy & Noise-Free Construction:** Engineered with reinforced materials and noise-reducing joints to provide quiet and consistent support for peaceful sleep.
- **No Box Spring Needed:** Your mattress rests directly on the bed frame's slats.

SETUP AND ASSEMBLY

The HOMBCK Floating Bed Frame is designed for easy assembly with pre-configured components. Detailed, easy-to-follow assembly instructions are provided in the packaging. Typically, assembly requires minimal time.

Key Assembly Points:

- Ensure all components are present before starting.
- Follow the step-by-step guide for proper frame construction.
- Secure all fasteners tightly to ensure stability and prevent noise.
- No box spring is required; your mattress will sit directly on the provided slats.

OPERATING INSTRUCTIONS (SMART LED LIGHTS)

The integrated Smart LED Lights are controlled via a dedicated application on your smartphone or a remote control (if included).

To Operate the LED Lights:

1. **Power Connection:** Ensure the LED light strip is properly connected to a power source.
2. **App Control:** Download the recommended app (details in separate LED light manual) to your smartphone. Pair your device with the LED lights via Bluetooth or Wi-Fi as instructed.
3. **Functionality:** Use the app to:
 - Select from over 60,000 colors.
 - Choose various preset lighting effects (e.g., dynamic, music mode).
 - Adjust brightness levels.
 - Set timing functions for automatic on/off.
4. **Remote Control (if applicable):** If a physical remote control is provided, use it to access basic functions like power, color selection, and brightness adjustment.

MAINTENANCE

Proper care will extend the life and appearance of your bed frame.

- **Faux Leather Upholstery:** Wipe clean with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For spills, blot immediately with a clean, dry cloth.
- **Frame:** Periodically check all bolts and screws to ensure they are tight. Retighten as necessary to maintain stability and prevent noise.
- **LED Lights:** Keep the LED strips free from dust. Do not attempt to repair or modify the LED lights yourself; contact customer support if issues arise.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions:

- **Bed Frame Noise:** Ensure all assembly bolts and screws are securely tightened. Loose connections are a common cause of squeaking.
- **LED Lights Not Working:**
 - Check if the power adapter is securely plugged into both the wall outlet and the LED strip.
 - Verify the wall outlet is functional.
 - Ensure the remote control (if used) has working batteries and is pointed directly at the receiver.

- If using the app, confirm Bluetooth/Wi-Fi connection and app functionality.
- **Floating Effect Appears Uneven:** Check the concealed support legs underneath the frame to ensure they are properly installed and making even contact with the floor.

For persistent issues, please contact HOMBCK customer support.
