5.3. Durability

The Galaxy Tab S10 Lite features IP42 durability, offering protection against limited dust ingress and water spray from any direction. While durable, avoid exposing the device to excessive dust or water.

6. TROUBLESHOOTING

If you encounter issues with your tablet, consider the following basic troubleshooting steps:

- **Device not powering on:** Ensure the battery is charged. Connect the tablet to a power source using the USB-C cable and a compatible adapter.
- **Screen unresponsive:** Try restarting the device by holding the Power button for an extended period (usually 10-15 seconds) until it reboots.
- **Wi-Fi connection issues:** Check your router and ensure it's working correctly. Restart your tablet and try reconnecting to the Wi-Fi network.
- **S-Pen not responding:** Ensure the S-Pen is properly attached to the tablet's magnetic strip to charge. If issues persist, restart the tablet.
- **Slow performance:** Close unused applications, clear cache, or restart the tablet. Ensure your software is up to date.

For more complex issues, refer to Samsung's official support website or contact customer service.
