

## GOHHDL B0FMH9BT

# GOHHDL Android 15 Car Stereo User Manual

For Kia Forte Cerato K3 (2013-2018) - Model: B0FMH9BT

## 1. INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your GOHHDL Android 15 Car Stereo. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

## 2. SAFETY INFORMATION

---

- Ensure professional installation to prevent damage to the vehicle's electrical system.
- Do not operate the device in a manner that distracts you from driving.
- Keep the volume at a safe level to hear external traffic sounds.
- Avoid exposing the unit to extreme temperatures or direct sunlight for prolonged periods.
- Do not attempt to disassemble or modify the unit. This may void the warranty and cause damage.

## 3. PACKAGE CONTENTS

---

Verify that all items are present in the package:

- Car Stereo Unit
- Power Cable
- RCA Cable
- Microphone
- Accessories
- Backup Camera
- USB Cable
- GPS Antenna

- Rear View Input Cable

## 5. SETUP AND INSTALLATION

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

### 5.1. Physical Installation

The car stereo is designed for direct fitment in Kia Forte Cerato K3 models from 2013-2018. Carefully remove the original car stereo and connect the new unit using the provided wiring harnesses. Ensure all connections are secure.

## 5.2. Bluetooth Connection

To enable hands-free calling and music streaming, connect your smartphone via Bluetooth.

1. On the car stereo, open the S-Play application.
2. Navigate to the Bluetooth settings on your smartphone and enable Bluetooth.
3. Search for available devices on your phone and select the car stereo's Bluetooth name (e.g., BLINK\_UNW2652).
4. Confirm the pairing request on both devices.

## 5.3. Wireless CarPlay & Android Auto Connection

Connect your smartphone wirelessly for an integrated driving experience.

1. Ensure your phone's Bluetooth is connected to the car stereo.
  2. On the car stereo, open the S-Play application.
  3. Follow the on-screen prompts to initiate CarPlay or Android Auto. This may involve enabling Wi-Fi on your phone for the connection.

Image: Visual representation of wireless CarPlay, Android Auto, and Mirror Link features.

#### 5.4. Mirror Link (Jlink) Connection

To mirror your phone's screen to the car stereo, use the Jlink application.

1. Open the Jlink application on the car stereo.
2. Connect the car stereo to your mobile phone's hotspot.
3. If connecting for the first time, download the Jlink client to your phone by scanning the QR code provided in the Jlink app on the stereo.
4. On your mobile phone, open the Jlink app and initiate screen casting.

Video: Demonstrates the Jlink connection process for screen mirroring.

#### 5.5. Steering Wheel Control (SWC) Setup

If your vehicle has original steering wheel buttons, you can configure them to control the car stereo.

1. Access the Steering Wheel Control settings on the car stereo.
2. Follow the on-screen instructions to program each button by pressing the corresponding button on your steering wheel and then selecting the desired function on the stereo screen.

## Reversing Display

Waterproof night vision camera will automatically switch the reverse image when in reverse gear.

## Steering Wheel Control

If the original car has buttons, you can use the steering wheel buttons to control the radio, making the operation more convenient
