SONGMICS Pull-Out Recycling Bin LTB950GZ01 User Manual

Model: LTB950GZ01 | Brand: SONGMICS

1. INTRODUCTION AND PRODUCT OVERVIEW

Thank you for choosing the SONGMICS Pull-Out Recycling Bin, Model LTB950GZ01. This product is designed to offer an efficient and discreet waste management solution for your kitchen. It features two removable 15-liter compartments, a smooth-gliding mechanism, a robust steel frame, and a durable ABS lid, all intended for convenient under-cabinet installation.

This manual provides essential information for the safe installation, proper operation, and effective maintenance of your recycling bin. Please read it thoroughly before use and retain it for future reference.

Poubelle cachée

Elle cache les déchets, retient les odeurs désagréables et fait gagner de la place

2. SAFETY INSTRUCTIONS

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Install the unit securely according to the instructions to prevent tipping or instability.
- Do not overload the bins. The maximum static load capacity per bucket is 10 kg.
- Avoid placing hot ashes or flammable materials directly into the bins.

- Use appropriate personal protective equipment (e.g., gloves) during installation if necessary.
- Regularly check the mounting screws and runners for tightness and smooth operation.

3. PACKAGE CONTENTS

Please verify that all the following items are included in your package:

- 1 x Pull-Out Frame with Runners
- 2 x 15L Inner Buckets
- 1 x ABS Lid
- 1 x Set of Mounting Screws (4 screws)
- 1 x Instruction Manual

4. SETUP AND INSTALLATION

The SONGMICS Pull-Out Recycling Bin is designed for easy installation. The unit comes pre-assembled, requiring only 4 screws to secure it inside your cabinet.

4.1 Cabinet Requirements

Before installation, ensure your cabinet meets the minimum internal dimensions:

Depth: Minimum 48.6 cm (19.1 inches)

Width: Minimum 30.4 cm (12 inches)

Height: Minimum 49 cm (19.3 inches)

Image 4.1: Minimum internal cabinet dimensions for proper fit.

4.2 Installation Steps

1. Open your cabinet door and clear the installation area.
2. Place the pre-assembled recycling bin unit inside the cabinet, positioning it where you intend to secure it. Ensure the pull-out mechanism faces the cabinet opening.
3. Using the provided screws, secure the base of the unit to the cabinet floor. There are typically four designated screw holes on the frame.
4. Test the pull-out mechanism to ensure it slides smoothly and is firmly attached.
5. Insert the two 15L inner buckets into the frame.

5. OPERATION

Operating your SONGMICS recycling bin is straightforward:

1. **Pull-Out Function:** Gently pull the front of the bin unit to slide it out of the cabinet. The smooth-gliding metal runners ensure effortless access.
2. **Waste Separation:** Utilize the two separate 15L inner buckets for efficient waste sorting. Typically, one bucket can be used for recyclables and the other for general waste or organic waste.
3. **Lid:** The integrated ABS lid helps contain odors and keeps the contents out of sight when the bin is retracted into the cabinet.
4. **Retracting:** Push the unit back into the cabinet until it is fully closed.

6. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and hygiene of your recycling bin.

- **Inner Buckets:** The 15L inner buckets are removable for easy emptying and cleaning. Wash them with warm soapy water and a soft cloth or sponge. Rinse thoroughly and dry completely before returning them to the frame.
- **Lid:** The durable ABS lid can be wiped clean with a damp cloth and mild detergent. Avoid abrasive cleaners that may scratch the surface.
- **Frame and Runners:** Wipe the steel frame and metal runners with a damp cloth. For the runners, ensure they remain free of debris to maintain smooth operation. A small amount of silicone spray can

be applied to the runners if they become stiff, but avoid excessive lubrication.

- **General:** Periodically check all screws and connections to ensure they remain tight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Bin does not slide smoothly.	Debris on runners, loose screws, or runners need lubrication.	Clean runners of any obstructions. Tighten mounting screws. Apply a small amount of silicone spray to the runners.
Bin unit feels wobbly.	Mounting screws are loose.	Ensure all four mounting screws are securely tightened to the cabinet floor.
Lid does not sit properly.	Inner buckets are not correctly seated or are overfilled.	Ensure inner buckets are fully pushed down into the frame. Do not overfill the buckets.
