> GOHHDL Android 15 Car Stereo Instruction Manual for Renault Dacia (4G+64G, 7-inch Display)

## GOHHDL 4G+64G Carplay

# GOHHDL Android 15 Car Stereo User Manual

Model: 4G+64G Carplay

## 1. INTRODUCTION

---

Thank you for choosing the GOHHDL Android 15 Car Stereo. This manual provides detailed instructions for the installation, operation, and maintenance of your new car multimedia system. Please read this manual thoroughly before use to ensure proper functionality and to maximize your user experience. This device is designed to enhance your driving with advanced navigation, entertainment, and connectivity features.

## 2. PRODUCT OVERVIEW

---

The GOHHDL Android 15 Car Stereo features a 7-inch touch screen, powered by Android 15 with 4GB RAM and 64GB ROM for smooth performance and ample storage for applications. It offers seamless integration with your smartphone via wireless Carplay and Android Auto, along with GPS navigation, WiFi connectivity, Bluetooth 5.0, and FM/RDS radio.

### 2.1 Vehicle Compatibility

This car stereo is specifically designed for the following vehicle models:

- Dacia Logan (2012-2017)
- Dacia Duster (2011-2017)
- Dacia Sandero (2012-2017)
- Dacia Lodgy (2012-2017)
- Renault Captur (2013-2017)
- Renault Symbol (2013-2017)
- Lada Xray

For Dacia Logon 2012-2017  
For Duster 2011-2017  
For Sandero 2012-2017  
For Lodgy 2012-2017

For spring 2012-2017  
For Captur 2013-2017  
For Symbol 2013-2017  
For Lada Xray

## 4. INSTALLATION AND SETUP

Professional installation is recommended for this product. Incorrect wiring can damage the device or your vehicle's electrical system. Ensure the vehicle's ignition is off and the battery is disconnected before starting installation.

### 4.1 Wiring Connections

Refer to the wiring diagram provided in Image 3.1 and the included user manual for specific connection points. Key connections include:

- **Power Cable:** Connect to the vehicle's power supply (constant 12V, accessory 12V, and ground).
- **RCA Cables:** For audio output to external amplifiers or subwoofers.
- **USB Cables:** For connecting USB devices, charging, or data transfer.
- **GPS Antenna:** Mount in a location with a clear view of the sky for optimal signal reception.
- **Canbus Decoder:** Connect to the vehicle's CAN-BUS system for steering wheel controls and other vehicle data

integration.

- **Rear Camera Input:** Connect the rear view camera cable.
- **Radio Antenna:** Connect the vehicle's radio antenna.
- **Microphone:** Connect the external microphone for hands-free calling and voice commands.

## 4.2 Initial Power On

After all connections are securely made, reconnect the vehicle's battery and turn on the ignition. The device should power on automatically. Follow any on-screen prompts for initial setup, such as language selection and time zone.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Wireless Carplay & Android Auto

The unit supports wireless Carplay and Android Auto for seamless smartphone integration. This allows you to access navigation, music, calls, and messages directly from your phone via the car stereo's display, using voice control or touch.

1. Ensure Bluetooth and Wi-Fi are enabled on your smartphone.
2. On the car stereo, open the Carplay or Android Auto application.
3. Follow the on-screen instructions to pair your phone. For Carplay, search for the car stereo's Bluetooth name on your iPhone and connect. For Android Auto, ensure the Android Auto app is installed on your Android phone and follow the pairing process.
4. Once connected, your phone's interface will appear on the car stereo screen.

### 5.2 Mirror Link

Mirror Link allows you to mirror your smartphone's screen onto the car stereo display. This feature supports both iOS and Android devices.

1. Open the 'Mirror Link' application on the car stereo.
2. Follow the specific instructions for iOS or Android devices displayed on the screen to establish the connection, typically involving a USB cable or Wi-Fi connection.

Image 5.1: Wireless Carplay, Android Auto, and Mirror Link features.

### 5.3 Bluetooth 5.0

The integrated Bluetooth 5.0 module enables hands-free calling, audio streaming, and phonebook synchronization.

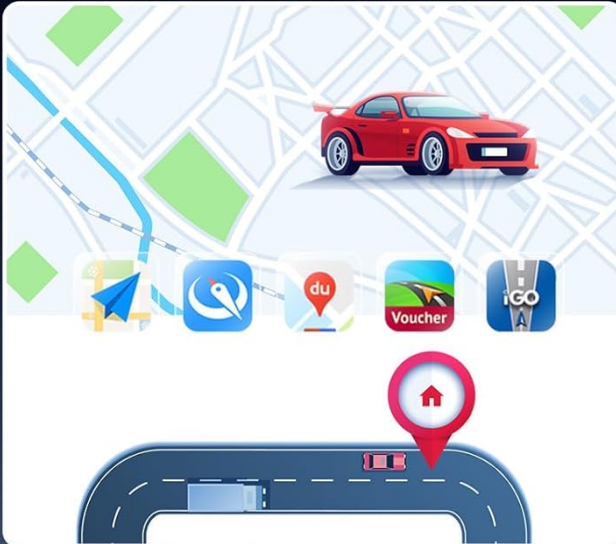

1. Go to the Bluetooth settings on the car stereo.
2. Enable Bluetooth on your smartphone and search for the car stereo's device name.
3. Pair and connect the devices. You may be prompted to enter a PIN (usually '0000').
4. Once connected, you can make/receive calls, play music, and access your phone's contacts.

### 5.4 FM/RDS Radio with 32-Band EQ

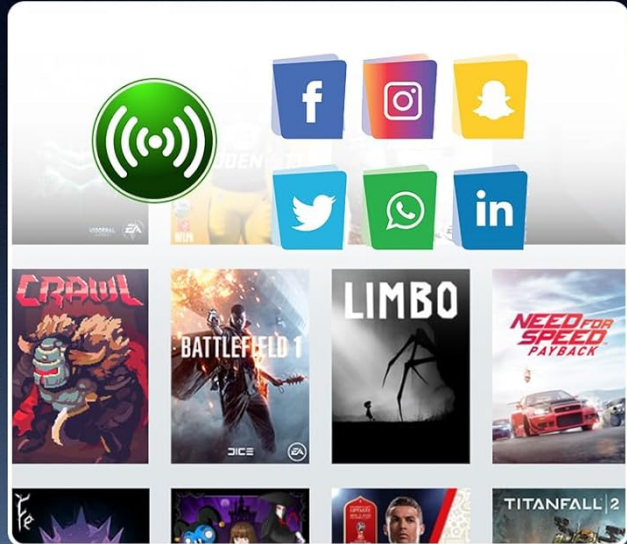

Enjoy high-quality radio reception with FM/RDS functionality. The 32-band equalizer allows for precise audio customization.

1. Select the 'Radio' application from the main menu.
2. Use the scan function to find available stations or manually tune to a frequency.
3. Save your favorite stations to the presets.
4. Access the 'EQ' settings to adjust the 32-band equalizer for optimal sound.

## GPS Navigation

## WiFi Connection

## Android 15

## 4 Core 4G+ 64G

Image 5.2: Bluetooth, 32-band EQ, and FM/RDS Radio functions.

### 5.5 GPS Navigation and WiFi

The built-in GPS module supports both online and offline navigation. Connect to WiFi to download maps, applications, and stream media.

1. **GPS:** Open the 'Navigation' application. You can use pre-installed maps or download others via WiFi. Ensure the GPS antenna is properly installed.
2. **WiFi:** Go to 'Settings' > 'Network & Internet' > 'Wi-Fi'. Connect to an available Wi-Fi network (e.g., mobile hotspot). Once connected, you can browse the internet, download apps from the Play Store, or stream content.

# Packing List & Size

## 5.6 Rear View Camera (Optional)

If equipped with a rear view camera, the system automatically displays the camera feed when the vehicle is in reverse gear. The camera features AHD resolution, a wide viewing angle, waterproof design, and HD night vision.

## 5.7 Steering Wheel Control (SWC)

The unit supports learning functions for your vehicle's steering wheel controls, allowing you to operate the stereo without taking your hands off the wheel.

1. Go to 'Settings' > 'Steering Wheel Control'.
2. Follow the on-screen instructions to program each button on your steering wheel to the corresponding function on the car stereo.

# Wireless Carplay & Android Auto

Access to voice control/navigation/information and more...

## Mirror Link

Compatible Devices	Smartphone
Audio Output Mode	Stereo
Surround Sound Channel Configuration	2.1
Video Encoding	H.264, H.265/HEVC

## 7. TROUBLESHOOTING

---

If you encounter issues with your car stereo, please refer to the following common troubleshooting steps:

- **No Power:** Check all power cable connections. Ensure the vehicle's ignition is on. Verify fuses are intact.
- **No Sound:** Check speaker connections. Ensure volume is not muted or set to zero. Verify audio output settings.
- **GPS Signal Loss:** Ensure the GPS antenna is securely connected and mounted in a location with a clear view of the sky.
- **Bluetooth Connection Issues:** Ensure Bluetooth is enabled on both devices. Try unpairing and re-pairing the devices. Clear Bluetooth cache on your phone if necessary.
- **Carplay/Android Auto Not Connecting:** Ensure Wi-Fi and Bluetooth are enabled on your phone. Try restarting both the phone and the car stereo. Check for app updates on your phone.
- **Touch Screen Unresponsive:** Try restarting the device. If the issue persists, a factory reset might be necessary (note: this will erase all user data).
- **System Slow/Lagging:** Close unnecessary background applications. Clear cache from apps. Consider a factory reset if performance does not improve.

For persistent issues, please contact GOHHDL customer support.

## 8. MAINTENANCE

---

To ensure the longevity and optimal performance of your GOHHDL car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn smudges, lightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Software Updates:** Periodically check for system software updates via the 'Settings' menu and a Wi-Fi connection. Updates can improve performance, add features, and fix bugs.
- **Avoid Extreme Temperatures:** Do not expose the device to extreme heat or cold for extended periods, as this can affect its electronic components.
- **Protect from Moisture:** Keep the device dry. Moisture can cause internal damage.

## 9. WARRANTY AND SUPPORT

---

GOHHDL products are designed for reliability and performance. For information regarding warranty coverage, please refer to the warranty card included with your product or contact your point of purchase. For technical support, troubleshooting assistance beyond this manual, or service inquiries, please contact GOHHDL customer support through the official website

or the seller from whom you purchased the product.
