# Domi 8x10 FT Outdoor Resin Storage Shed Instruction Manual

Model: LGFA-DR-1709-NEW-US | Brand: domi outdoor living

## Introduction

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Domi 8x10 FT Outdoor Resin Storage Shed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

The Domi 8x10 FT Outdoor Resin Storage Shed is designed to provide a spacious and durable solution for organizing outdoor essentials. It features double-wall resin construction, lockable double doors, a weather-resistant roof, and integrated ventilation.

## Safety Information

**Important Safety Precautions:**

- Always follow assembly instructions carefully.
- Keep the shed locked when not in use to prevent unauthorized access.
- Do not exceed the weight limit of the shed's floor and roof.
- Ensure the shed is placed on a level and stable surface.
- Keep children and pets away from the assembly area.
- Wear appropriate safety gear during assembly, such as gloves and eye protection.

## Setup and Assembly

Before starting assembly, ensure you have all parts listed in the packaging. A level foundation is crucial for the stability and longevity of your shed. Refer to the detailed assembly instructions provided in the product packaging for step-by-step guidance.

## Operating Instructions

Your Domi Outdoor Resin Storage Shed is designed for straightforward operation. Follow these guidelines for optimal use:

- **Door Operation:** The shed features full-access double doors that swing 180 degrees. Open both doors fully for easy access to large items.
- **Locking Mechanism:** The built-in door handles are designed to be lockable. Use a padlock (not included) to secure

your belongings. Ensure the doors are properly closed and aligned before locking.

- **Ventilation:** The integrated air vents promote airflow within the shed. Ensure these vents are not obstructed to prevent dampness and maintain air circulation, especially when storing items sensitive to humidity.
- **Window Visibility:** The two-way visibility windows allow light into the shed while offering privacy from the outside, depending on the light contrast.

**Image: Ventilation Design.** This image shows the integrated ventilation system, crucial for promoting air circulation and preventing moisture buildup inside the shed.

## Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Domi Outdoor Resin Storage Shed.

- **Cleaning:** Clean the shed exterior periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the resin panels. Rinse thoroughly with clean water.
- **Ventilation Check:** Ensure the air vents remain clear of debris (leaves, dirt, etc.) to maintain proper airflow and prevent moisture accumulation.
- **Door and Lock Inspection:** Periodically check the doors for proper alignment and smooth operation. Lubricate hinges if necessary. Inspect the lock mechanism for any signs of wear or damage.

- **Roof Inspection:** After heavy snow or strong winds, inspect the roof for any damage or debris. Clear snow accumulation to prevent excessive load. The roof is designed to withstand snow loads up to 15 lbs./sq. ft.
- **Water Drainage:** Verify that the integrated rain gutter system is clear and effectively channeling water away from the shed.

**Image: Resin Durability.** This image illustrates the long-term durability of resin construction compared to metal and wood, highlighting the low maintenance benefits of your shed.

## Troubleshooting

If you encounter issues with your shed, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|---|---|---|
| Water leakage inside the shed. | Improper assembly, damaged roof/panels, obstructed rain gutter. | Check all panel connections and roof seals. Ensure the shed is on a level surface. Clear any debris from the rain gutter system. Inspect roof and panels for cracks or damage. |
| Doors do not close or align properly. | Uneven foundation, misaligned hinges, obstruction. | Verify the shed is on a perfectly level surface. Adjust door hinges if possible. Remove any obstructions around the door frame. |
| Dampness or condensation inside. | Poor ventilation, high humidity. | Ensure all air vents are clear and unobstructed. Consider adding a dehumidifier if the problem persists in very humid climates. |
| Difficulty locking doors. | Misaligned doors, faulty padlock (if used). | Ensure doors are fully closed and aligned. Test with a different padlock. Inspect the built-in lock mechanism for damage. |

## Specifications

| Feature | Detail |
|---|---|
| Brand | domi outdoor living |
| Model Number | LGFA-DR-1709-NEW-US |

| Feature | Detail |
|---|---|
| Color | Gray |
| Material | Metal, Resin |
| Product Dimensions (D x W x H) | 117.96"D x 93.84"W x 93.6"H |
| Item Weight | 335.07 Pounds |
| Floor Area | 82.62 Square Feet |
| Base Material | Resin |
| Top Material Type | Resin |
| Frame Material | Resin, Metal |
| Door Style | Double Door |
| Water Resistance Level | Waterproof |
| Required Assembly | Yes |
