- Periodically check and tighten all screws and fasteners to ensure stability.

### LED Mirror Issues:

- **Lights not turning on:** Ensure the power cable is securely plugged into both the mirror and a working power outlet. Check if the power outlet is functional.
- **Lights flickering or dim:** Verify the power connection. If the issue persists, contact customer support.

### Drawer Issues:

- **Drawers sticking or not sliding smoothly:** Check if the drawer slides are properly aligned and free from obstructions. Ensure all screws on the slides are tightened.
- **Drawers not closing completely:** Remove the drawer and inspect for any items blocking its path. Check the alignment of the drawer slides.
