

Merax Twin Over Full 1 White+orange

Merax Twin Over Full Wooden Bunk Bed User Manual

Model: Twin Over Full 1 White+orange | Brand: Merax

INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Merax Twin Over Full Wooden Bunk Bed. Please read all instructions carefully before assembly and use to ensure proper function and safety. This bunk bed is designed to maximize space with a twin-size upper bunk, a full-size lower bunk, integrated storage solutions including a wardrobe, drawers, and shelves, and convenient LED lighting.

SAFETY INFORMATION

Adherence to the following safety guidelines is crucial for preventing injury and ensuring the longevity of your bunk bed:

- Follow all assembly steps precisely as outlined in the included assembly manual.
- Ensure all connections, bolts, and screws are securely tightened before use and periodically thereafter.
- The top bunk is not suitable for children under six years of age.
- Use only mattresses that meet the specified dimensions for each bunk to prevent gaps.
- Do not allow horseplay on or under the bed.
- Always use the ladder for access to the upper bunk. Never use other furniture or objects to climb onto the top bunk.
- Do not remove or modify any parts of the bed structure.
- Keep children away from the assembly area during setup.

SETUP AND ASSEMBLY INSTRUCTIONS

Assembly of this bunk bed is required. It is strongly recommended that two adults perform the assembly. Please refer to the detailed, step-by-step assembly manual included in your packaging for precise instructions and diagrams. The following is a general overview:

1. Unpack all components and verify against the parts list.
2. Identify all hardware and separate them for easy access.
3. Begin by assembling the main bed frames for both the upper (twin) and lower (full) bunks.
4. Attach the ladder securely to the designated points on the bunk bed structure.
5. Install the wardrobe and shelving units according to the manual's instructions.
6. Insert the storage drawers into their designated slots beneath the lower bunk.
7. Connect the LED lighting system as per the specific electrical instructions provided.
8. Ensure all bolts and screws are tightened firmly. Do not overtighten, as this can damage the wood.
9. Once assembled, perform a final check to ensure stability and security of all components.

OPERATING INSTRUCTIONS

Using the Wardrobe

The built-in wardrobe provides convenient hanging space and shelves for clothing and accessories. Simply open the doors to access the interior. Ensure doors are closed gently to prevent wear and tear.

Using the Drawers

Two spacious drawers are located beneath the lower bunk, offering additional storage for bedding, toys, or other essentials. To open, pull the drawer handles gently outwards. To close, push them in until they are flush with the bed frame.

Using the Shelves and LED Light

The integrated shelves positioned between the bunks offer convenient display and storage space for books, small decorative items, or personal belongings. The built-in LED lights provide ambient illumination. Locate the designated switch (usually on the shelving unit itself or an accessible cord) to turn the LED lights on or off.

MAINTENANCE

Proper maintenance will extend the life and appearance of your bunk bed:

- **Cleaning:** Clean the bed frame with a soft, damp cloth. Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the finish.
- **Fasteners:** Periodically check all bolts, screws, and other fasteners. Tighten them as needed to ensure the bed remains stable and secure.
- **LED Lights:** Keep the LED light area free from dust. If a bulb needs replacement (though LEDs have a long lifespan), consult the assembly manual or contact customer support.
- **Weight Limits:** Do not overload shelves or drawers beyond their intended capacity.

TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Bed feels wobbly:** Check all connections and tighten any loose bolts or screws. Ensure the bed is placed on a level surface.
- **Drawers not sliding smoothly:** Check for any obstructions in the drawer glides. Ensure the drawers are properly aligned within their tracks. A small amount of silicone lubricant can be applied to the glides if necessary.
- **LED light not working:** Verify the power connection to the LED strip and check the switch. Ensure the power outlet is functional. If issues persist, contact customer support.
- **Squeaking noises:** Tighten all fasteners throughout the bed frame. If the noise continues, identify the source and consider applying a small amount of furniture wax or lubricant to metal-on-metal or wood-on-wood contact points, ensuring it is safe for the material.
