GEVEELIFE GZJ

GEVEELIFE GZJ 2-in-1 Electric Pruning Shears with Extension Pole User Manual

Model: GZJ | Brand: GEVEELIFE

1. INTRODUCTION

Thank you for choosing the GEVEELIFE GZJ 2-in-1 Electric Pruning Shears. This versatile tool is designed for efficient and effortless pruning of various branches, offering both handheld and extended pole operation. Please read this manual thoroughly before use to ensure safe and optimal performance. Keep this manual for future reference.

2. PACKAGE CONTENTS

Verify that all items listed below are included in your package:

- 1 x Electric Pruning Shears
- 2 x 4.0Ah Batteries
- 1 x Fast Charger
- 1 x SK5 Extra Blade
- 1 x Shoulder Strap
- 1 x Lubricating Oil Bottle (oil not included)
- 1 x Sharpening Stone
- 3 x Assembly Tools
- 1 x User Manual

3. PRODUCT OVERVIEW AND KEY FEATURES

The GEVEELIFE GZJ Electric Pruning Shears offers a powerful and flexible solution for your gardening needs.

3.1 2-in-1 Design: Handheld & Pole Mode

Easily switch between handheld pruning for close-range tasks and extended pole mode for reaching high branches without a ladder. The extension pole provides a reach from 5.4 ft to 9.2 ft.

Figure 2: Illustrates the 2-in-1 functionality, showing both handheld and pole usage scenarios.

3.2 Powerful Motor & Sharp Blades

Equipped with a 1000W pure copper brushless motor, these shears deliver strong performance and durability. The SK5 high-carbon steel blades ensure sharp, clean cuts, minimizing plant damage.

3.3 Adjustable Cutting Diameter

The shears feature 4 adjustable cutting diameters (0.4", 0.6", 1", 1.6") to accommodate various branch sizes, from delicate flowers to thick limbs.

Traditional Manual Scissors

- ❌ Climbing Required, Risky
- ❌ Manual Force Needed
- ❌ High Strain
- ❌ Slow & Tiring

Electric Pruning Shears

- ✅ Use From Ground, No Ladder
- ✅ Motor-Powered, Effortless
- ✅ Low Effort, Ergonomic
- ✅ Fast & Efficient

3.5 User-Friendly Design

Weighing only 2.1 lbs, the pruner features a non-slip rubber handle and an ergonomic shoulder strap for reduced fatigue. The 180° adjustable rotating head allows for flexible cutting angles.

4 Modes for Every Branch Size

Figure 7: The 180-degree rotating head provides versatility for various cutting positions.

4. SETUP INSTRUCTIONS

4.1 Battery Charging

1. Insert a 4.0Ah battery into the fast charger.
2. Plug the charger into a standard power outlet.
3. Allow 2-3 hours for a full charge. The charger's indicator light will change to show charging status.

4.2 Attaching the Pruning Shears to the Extension Pole

1. Ensure the pruning shears are powered off and the blade is closed.
2. Align the connection point of the pruning shears with the top of the extension pole.
3. Push the shears firmly onto the pole until it clicks into place, securing the connection.

4. To detach, press the release button on the pole connection and pull the shears away.

4.3 Adjusting the Extension Pole Length

1. Loosen the locking mechanism on the extension pole.
2. Extend or retract the pole to your desired length (5.4 ft to 9.2 ft).
3. Securely tighten the locking mechanism to prevent slippage during use.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

1. **To Power On:** Insert a charged battery. Press and hold the power button until the LCD screen illuminates. Double-click the trigger to activate the blades.
2. **To Power Off:** Hold the trigger until the blades close completely. The device will automatically enter sleep mode after 60 seconds of inactivity and shut down after 5 minutes to prevent accidental activation.

5.2 Adjusting Cutting Diameter

Use the mode selection button on the device to cycle through the four cutting diameter settings: 0.4" (10mm), 0.6" (15mm), 1" (25mm), and 1.6" (40mm). Select the appropriate setting based on the branch thickness to optimize cutting efficiency and battery life.

Figure 8: Guide to selecting the correct cutting mode for various branch diameters.

5.3 Handheld Operation

For smaller branches and shrubs within easy reach, use the shears in handheld mode. Ensure a firm grip on the non-slip rubber handle. Always keep your free hand away from the blades.

Figure 9: Handheld use for precise cuts on smaller branches (0.4 inch).

5.4 Pole Operation

When using the extension pole, attach the shoulder strap for comfortable weight distribution. The dual-trigger system ensures safe operation in pole mode. Adjust the 180° rotating head to achieve the optimal cutting angle for high or awkwardly positioned branches.

Figure 10: Safe and extended reach with the pole attachment, eliminating the need for ladders.

6. MAINTENANCE

6.1 Blade Care

- **Cleaning:** After each use, clean the blades with a damp cloth to remove sap and debris. Dry thoroughly.
- **Lubrication:** Apply a few drops of lubricating oil (not included) to the blades regularly to ensure smooth operation and prevent rust.
- **Sharpening:** Use the provided sharpening stone to maintain blade sharpness. Refer to the user manual for detailed sharpening instructions.
- **Replacement:** If blades become dull or damaged beyond sharpening, replace them with the included SK5 extra blade or genuine GEVEELIFE replacement blades.

6.2 Battery Storage

Store batteries in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, ensure batteries are partially charged (around 50%) to prolong their lifespan.

7. TROUBLESHOOTING

- **Shears not turning on:** Ensure the battery is fully charged and correctly inserted. Check if the power button is pressed and held, and the trigger is double-clicked for activation.
- **Blades not cutting effectively:** Check the blade sharpness and clean any accumulated sap or debris. Ensure the correct cutting diameter mode is selected for the branch size.
- **Reduced battery life:** Ensure batteries are fully charged before use. Battery performance can decrease over time; consider replacing old batteries if significant degradation is observed.
- **Pole attachment feels loose:** Verify that all locking mechanisms on the extension pole are securely tightened.

If you encounter issues not covered here, please contact GEVEELIFE customer support.

8. SPECIFICATIONS

Feature	Specification
Brand	GEVEELIFE
Model Number	GZJ
Item Weight	6 Pounds
Blade Material	High Carbon Steel
Handle Material	Rubber
Blade Type	Bypass
Cutting Width	1.6 Inches (Max)
Power Source	Battery Powered
Batteries	2 x 4.0Ah Lithium Ion (included)
Extension Pole Reach	5.4 ft to 9.2 ft

9. WARRANTY AND SUPPORT

GEVEELIFE is committed to providing high-quality products and excellent customer service.

- **Warranty:** This product comes with a 24-month after-sales warranty.
- **Customer Support:** We offer 24/7 customer support for ultimate satisfaction.
- **Technical Support:** Lifetime customer and technical support are provided.

For any inquiries, assistance, or warranty claims, please contact GEVEELIFE customer service through your purchase platform or the official GEVEELIFE website.
