Aquonderful 208D

Aquonderful 208D Round Electric Smart Heated Bidet Toilet Seat Instruction Manual

Model: 208D | Brand: Aquonderful

1. Important Safeguards

Please read all instructions carefully before installation and use. Keep this manual for future reference.

- **Electrical Safety:** Ensure the bidet seat is connected to a properly grounded 120V AC outlet. Do not use extension cords. Disconnect power before cleaning or servicing.
- **Water Safety:** Use only potable water. Ensure all water connections are secure to prevent leaks. Do not immerse the unit in water.
- **Cleaning:** Use mild, non-abrasive cleaners. Avoid harsh chemicals that may damage surfaces.
- **Children and Individuals with Reduced Capabilities:** Supervise children and individuals with limited physical, sensory, or mental capabilities to ensure safe use.
- **Temperature:** Avoid direct exposure to extreme temperatures or direct sunlight.

2. Product Overview

The Aquonderful 208D Bidet Toilet Seat offers advanced hygiene and comfort features designed for a superior bathroom experience. This electric smart bidet seat includes a heated seat, warm water wash functions, a warm air dryer, and a night light, all controlled via a convenient remote.

Key Features:

- **Adjustable Wash Functions:** Rear wash, front wash, vortex wash, and oscillating wash for comprehensive cleaning.
- **Instant Warm Water:** Provides continuous warm water for washing, with adjustable temperature and pressure.
- **Heated Seat:** Comfortably warm seat with adjustable temperature settings.
- **Warm Air Dryer:** Gentle warm air for drying, with adjustable temperature levels.
- **LED Night Light:** Soft illumination for nighttime use.

- **Slow-Closing Seat & Lid:** Prevents slamming and ensures quiet operation.
- **Stainless Steel Nozzle:** Durable and hygienic, with self-cleaning function and adjustable position.
- **Energy-Saving Mode:** Reduces power consumption when not in use.

3. Package Contents

Verify that all components are present before beginning installation.

Image: Diagram illustrating the items included in the product package.

- 1x Aquonderful Bidet Seat
- 1x Instruction Manual
- 2x Screws
- 2x Gaskets
- 2x Steel Discs
- 1x Mounting Plate
- 2x Anchoring Rubbers
- 1x Three-way Valve (7/8" to 1/4" to 7/8")
- 1x PE Pipe

4. Toilet Compatibility & Requirements

Ensure your toilet is compatible with the Aquonderful 208D bidet seat before installation.

Toilet Shape and Dimensions:

This model is designed for **Round** toilets. Measure your toilet bowl from the center of the bolt holes to the front edge of the bowl. For round toilets, this measurement should be approximately 16-1/16 inches (408mm). Ensure there is at least 1 inch (25mm) clearance from the bolt holes to the toilet tank.

Electrical Requirements:

An electrical outlet (120V AC) is required near the toilet for power. The bidet seat comes with a power cord that needs to be plugged into a grounded outlet.

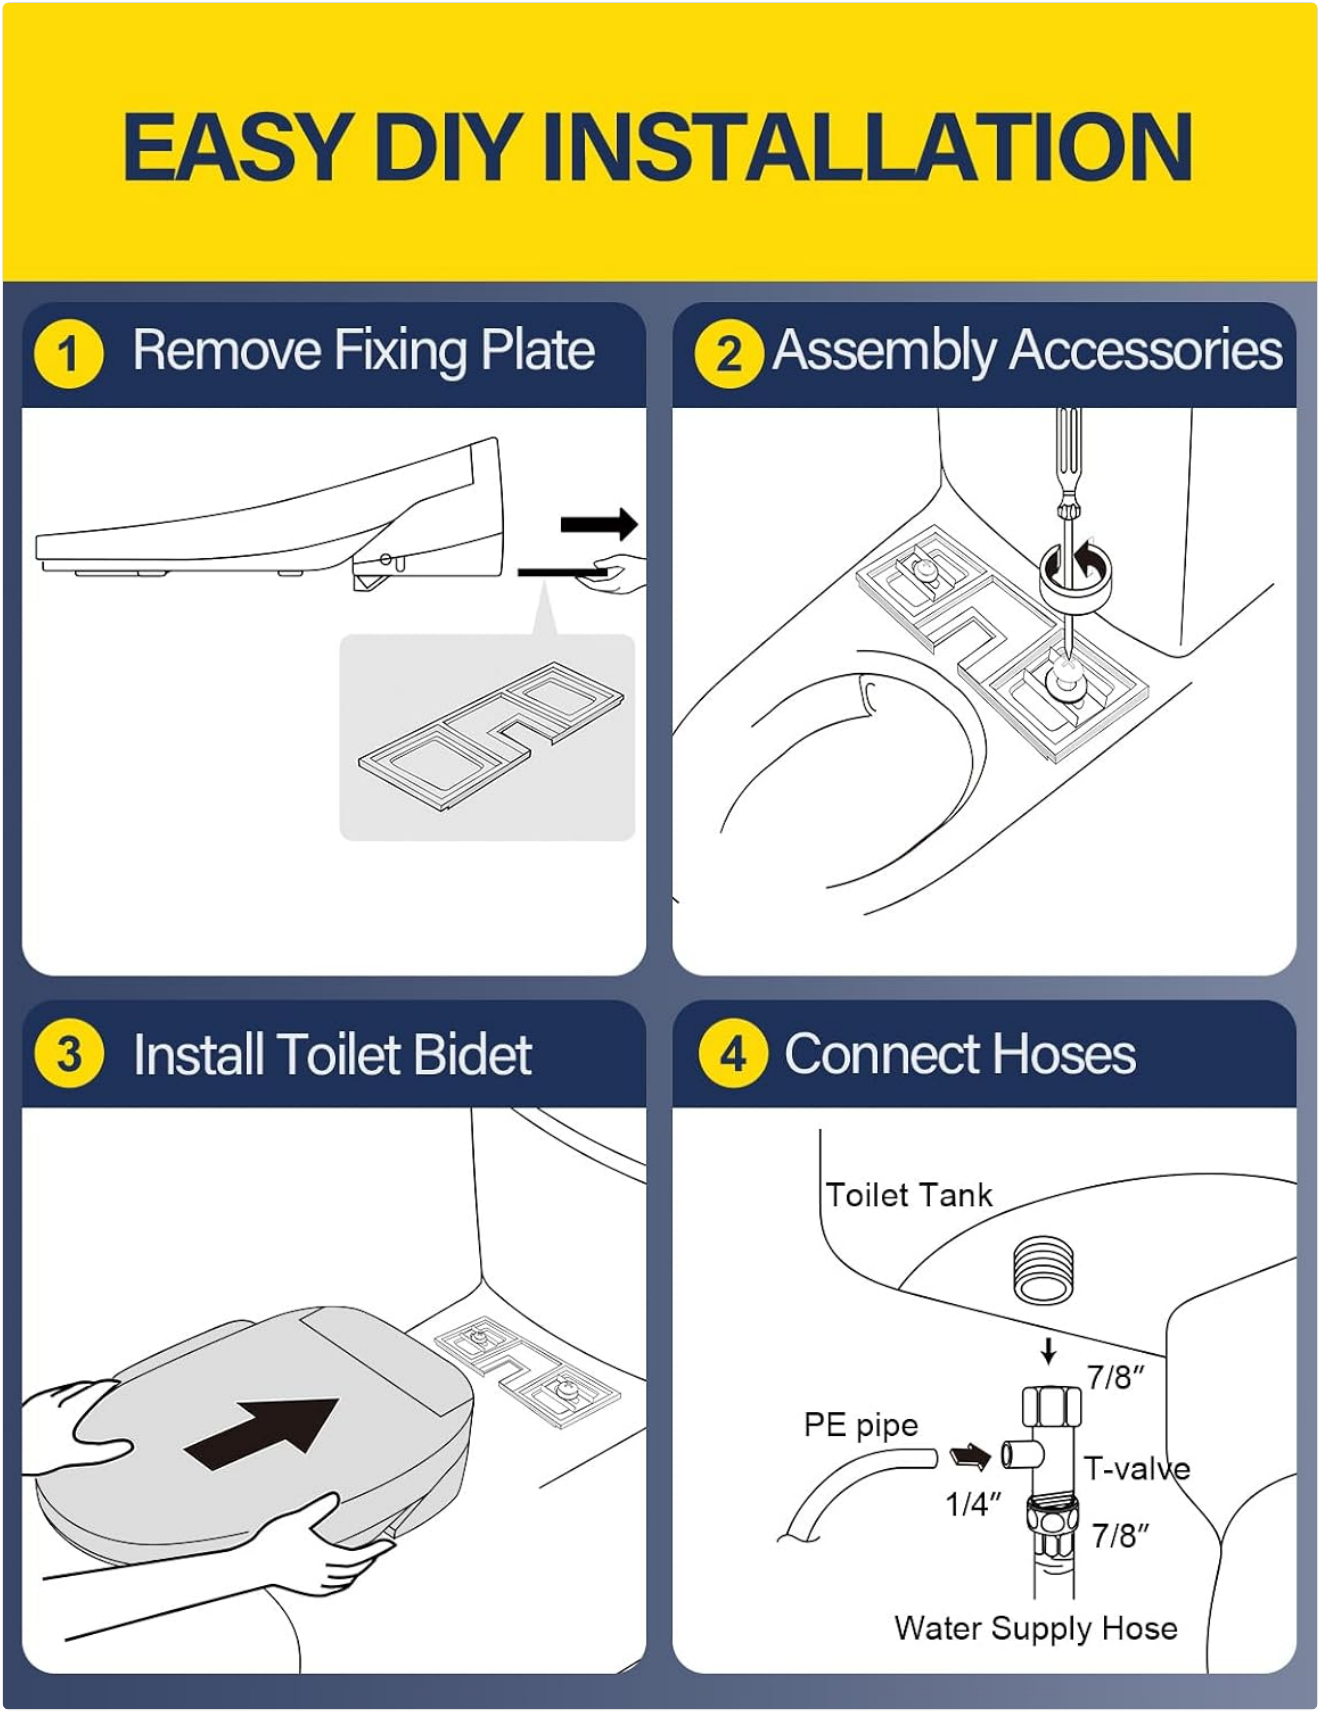

Image: Guide for checking toilet compatibility, including measurements for round and elongated bowls, and the necessity of an electrical outlet.

5. Installation

Follow these steps for a successful DIY installation. No plumber is typically required.

1. **Remove Existing Toilet Seat:** Close the water supply valve to the toilet. Flush the toilet to empty the tank. Remove the nuts and bolts securing your current toilet seat and lid, then remove the seat.
2. **Remove Fixing Plate:** Detach the fixing plate from the new bidet seat. This plate will be mounted to the toilet bowl first.
3. **Assemble Accessories:** Place the anchoring rubbers into the toilet bolt holes. Position the mounting plate over the bolt holes, aligning it correctly. Insert the screws through the steel discs, then through the mounting plate and into the anchoring rubbers. Tighten the screws to secure the mounting plate.
4. **Install Toilet Bidet:** Slide the Aquonderful bidet seat onto the secured mounting plate until it clicks into place. Ensure it is firmly seated.
5. **Connect Hoses:** Disconnect the existing water supply hose from the toilet tank. Install the provided three-way valve (T-valve) to the toilet tank's water inlet. Connect the existing water supply hose to the bottom of the T-valve. Connect the provided PE pipe from the side of the T-valve to the water inlet on the bidet seat.
6. **Restore Water and Power:** Slowly open the water supply valve to the toilet. Check for any leaks. Plug the bidet seat's power cord into a grounded electrical outlet.

6. Operating Instructions

The Aquonderful 208D bidet seat is operated using the side-mounted remote control. Ensure you are seated on the bidet for wash functions to activate.

Remote Control Functions:

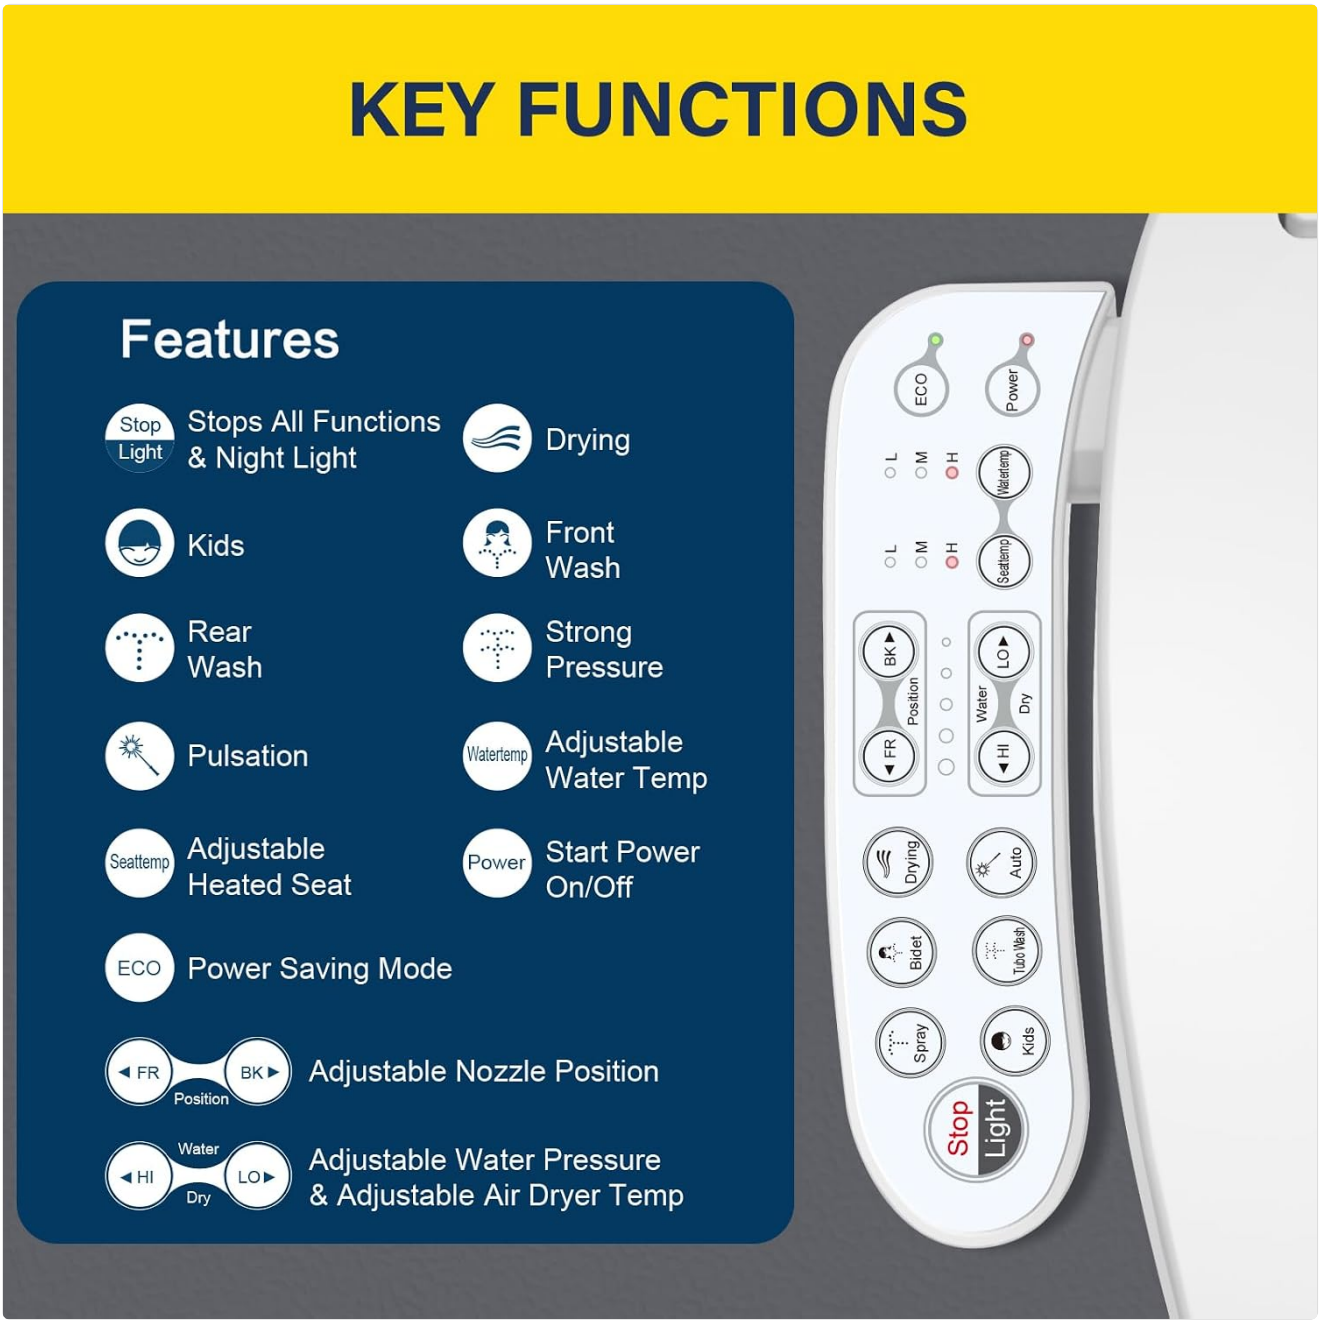

Image: Detailed layout of the remote control with labels for each function button.

- **Power:** Turns the unit on/off.
- **Stop:** Stops all current operations (wash, dry).
- **Light:** Activates/deactivates the LED night light.
- **Kids:** Initiates a gentle wash and dry cycle suitable for children.
- **Rear Wash:** Activates the rear cleansing spray.
- **Front Wash:** Activates the feminine cleansing spray.
- **Pulsation:** Provides a pulsating water stream for enhanced cleaning.
- **Strong Pressure:** Increases water pressure for a more intense wash.
- **Water Temp (HI/LO/OFF):** Adjusts the water temperature.
- **Seat Temp (HI/LO/OFF):** Adjusts the heated seat temperature.
- **Drying (HI/LO/OFF):** Activates the warm air dryer and adjusts its temperature.
- **Nozzle Position (FR/BK):** Moves the nozzle forward or backward to adjust spray position.

- **Water Pressure (HI/LO):** Adjusts the intensity of the water spray.
- **ECO:** Activates energy-saving mode.

Wash Functions:

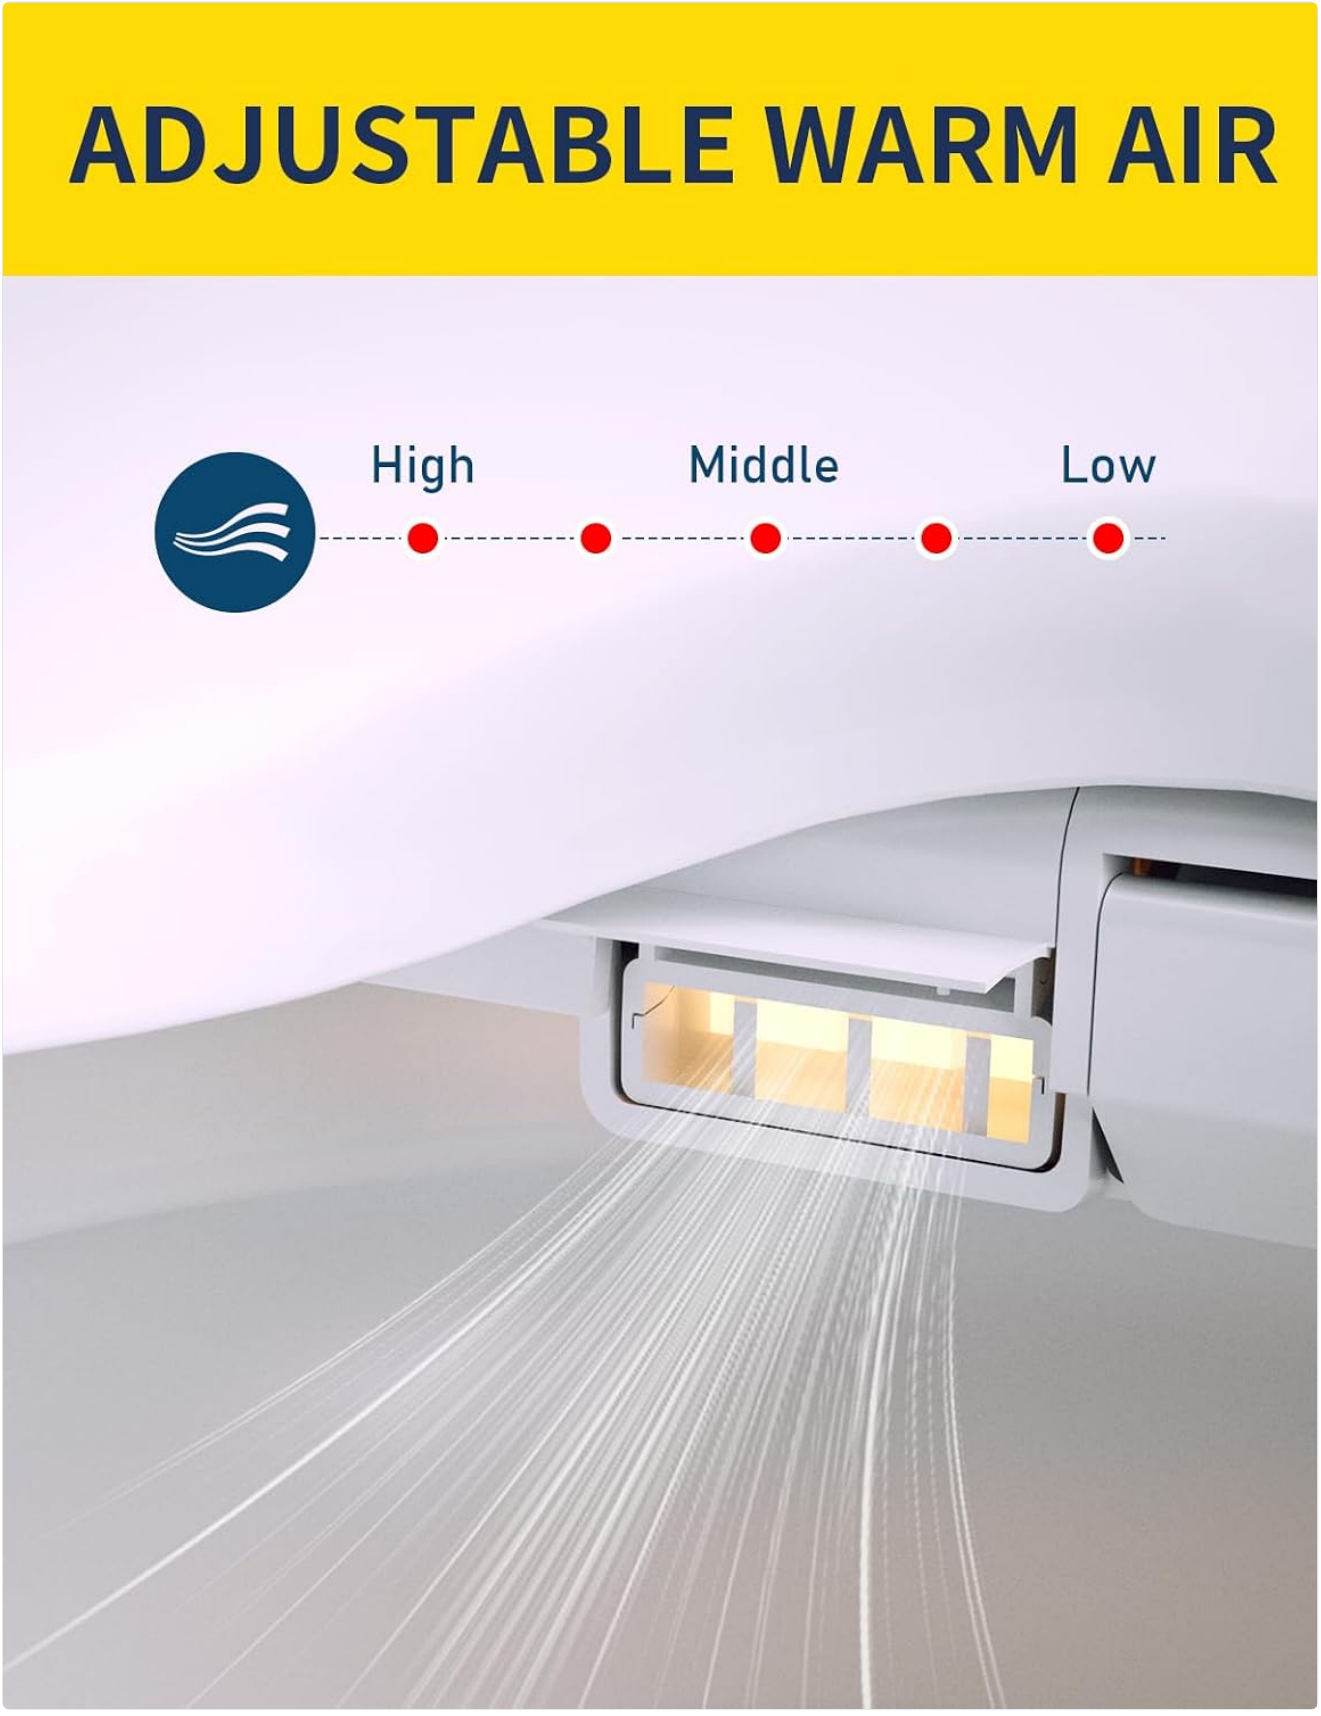

Image: Visual demonstration of various wash modes including rear, front, oscillating, and self-cleaning functions.

- **Rear Wash:** Press the 'Rear Wash' button for posterior cleansing.
- **Front Wash:** Press the 'Front Wash' button for feminine cleansing.

- **Oscillating Wash:** While a wash function is active, press 'Pulsation' to engage oscillating nozzle movement for a wider cleaning area.
- **Vortex Wash:** This feature is integrated into the wash cycles to provide a thorough cleanse.

Drying Function:

Image: Illustration of the warm air dryer with adjustable intensity settings.

After a wash cycle, press the 'Drying' button to activate the warm air dryer. Adjust the air temperature using the 'Drying' button or dedicated temperature controls if available on the remote.

7. Maintenance

Regular cleaning and maintenance ensure optimal performance and hygiene.

Nozzle Cleaning:

- The stainless steel nozzle has a self-cleaning function that activates before and after each use.
- For manual cleaning, ensure the bidet is powered off. Gently pull out the nozzle and wipe it with a soft cloth and mild soap. Do not use abrasive materials.

Exterior Cleaning:

- Wipe the exterior surfaces of the bidet seat with a soft, damp cloth and a mild, non-abrasive cleaner.
- Avoid spraying water directly onto the control panel or electrical components.

Water Filter Cleaning:

Periodically check and clean the water inlet filter located at the connection point of the PE pipe to the bidet seat. Turn off the water supply and disconnect the pipe to access the filter. Rinse it under running water to remove any sediment.

8. Troubleshooting

If you encounter issues, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
No power to the unit.	Power cord unplugged, circuit breaker tripped, outlet malfunction.	Ensure power cord is securely plugged in. Check circuit breaker. Test outlet with another device.
No water spray or weak spray.	Water supply valve closed, water filter clogged, nozzle blocked.	Open water supply valve fully. Clean the water inlet filter. Clean the nozzle.
Heated seat or warm water not working.	Temperature setting too low, energy-saving mode active, internal heater issue.	Adjust temperature settings. Deactivate ECO mode. If problem persists, contact customer support.
Remote control not responding.	Batteries low or dead, remote out of range, interference.	Replace remote batteries. Ensure clear line of sight to the bidet sensor.
Water leakage.	Loose connections, damaged hoses or seals.	Check all water connections and tighten if necessary. Inspect hoses and seals for damage. Replace any damaged parts.

If the issue is not resolved by the above steps, please contact Aquonderful customer support.

9. Specifications

Detailed technical specifications for the Aquonderful 208D Bidet Toilet Seat.

Specification	Detail
Model Number	208D
Shape	Round
Color	White
Material	Acrylonitrile Butadiene Styrene (ABS)
Product Dimensions	20"L x 18"W (50.8cm L x 45.7cm W)
Item Weight	11 Pounds (5 kg)
Power Supply	120V AC (Standard US Outlet)
Water Pressure Range	0.07 MPa - 0.75 MPa (10 psi - 109 psi)
Heated Seat Temperature	Adjustable (e.g., Room Temp, Low, Medium, High)
Water Temperature	Adjustable (e.g., Room Temp, Low, Medium, High)
Air Dryer Temperature	Adjustable (e.g., Low, Medium, High)

10. Warranty and Support

Aquonderful products are manufactured with quality and reliability in mind. This product comes with a standard manufacturer's warranty covering defects in materials and workmanship under normal use.

- **Warranty Period:** Please refer to the warranty card included in your product packaging or visit the official Aquonderful website for specific warranty terms and duration.
- **Customer Support:** For technical assistance, troubleshooting, or warranty claims, please contact Aquonderful customer service.
