Roinvou B0FMXNQZB5

Roinvou Android 15 Car Radio User Manual

Model: B0FMXNQZB5

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your Roinvou Android 15 Car Radio. This 9-inch touchscreen stereo system is designed to enhance your driving experience with features like CarPlay, Android Auto, GPS navigation, Bluetooth connectivity, Wi-Fi, and FM/RDS radio. Please read this manual thoroughly before using the product to ensure proper function and safety.

2. Package Contents

Please check the package for the following items:

- Roinvou Android 15 Car Radio Unit
- Double Power Cable
- RCA Cable
- Radio Antenna
- Canbus Decoder
- GPS Antenna
- USB Cable
- Rear View Camera Input Cable
- Rear View Camera
- External Microphone
- User Manual (this document)

3. Compatibility

This 1-DIN car radio is compatible with various Volkswagen, Skoda, and Seat models. Please refer to the list and images below to confirm compatibility with your vehicle's dashboard and existing radio slot.

Image 3.1: Compatibility chart showing various VW, Seat, and Skoda models. The image also displays examples of dashboards where the unit can be installed (green check) and where it cannot (red cross).

Compatible Models Include:

- **VW:** Golf 5, Golf 6, Passat, Polo, Tiguan, Touran, Caddy, Jetta, Scirocco, EOS, Amarok, Beetle, Sharan, Transporter (T5/T6)
- **Seat:** Altea, Toledo, Leon, Altea XL, Alhambra
- **Skoda:** Fabia, Praktik, Roomster, Octavia, Yeti

If you are unsure about compatibility, please consult a professional installer or contact Roinvou customer support with photos of your car's dashboard.

4. Setup and Installation

Installation of a car stereo system can be complex. It is highly recommended to have the unit installed by a qualified professional to avoid damage to the product or your vehicle. Ensure the vehicle's battery is disconnected before starting any installation work.

4.1 Wiring Connections

Connect the provided cables according to your vehicle's wiring diagram. The package includes a double power cable, RCA cable, radio antenna, Canbus decoder, GPS antenna, USB cable, and rear view camera input cable. Ensure all connections are secure to prevent intermittent issues.
Note: While a wiring diagram is included, online resources or professional assistance may be helpful for specific vehicle models.

4.2 Mounting the Unit

Carefully insert the car radio into the 1-DIN slot in your dashboard. Secure it using the appropriate mounting brackets and screws. Ensure the unit is flush with the dashboard and does not obstruct any vehicle controls.

4.3 Connecting Peripherals

- **GPS Antenna:** Mount the GPS antenna in a location with a clear view of the sky, typically on the dashboard or under the windshield.
- **External Microphone:** Connect the external microphone and place it in a suitable position (e.g., near the sun visor) for clear hands-free calling.
- **Rear View Camera:** Connect the rear view camera to its dedicated input. Ensure the camera is properly powered and mounted for optimal rear visibility.
- **USB Cables:** Route the USB cables to an accessible location for connecting USB devices or for wired CarPlay/Android Auto.

5. Operating Instructions

Your Roinvou car radio runs on the Android 15 operating system, offering a fast and fluid user experience.

5.1 Power On/Off and Basic Navigation

After installation, reconnect your vehicle's battery. The unit should power on with the ignition. Use the touchscreen to navigate through the Android interface, access apps, and adjust settings.

5.2 CarPlay and Android Auto

This unit supports both wired and wireless CarPlay and Android Auto, allowing seamless integration with your smartphone for navigation, music, calls, and messages.

Image 5.1: Visual representation of wireless CarPlay, Android Auto, and Mirror Link connections, displaying phone interfaces on the car radio screen.

- **Wireless Connection:** Enable Bluetooth and Wi-Fi on your smartphone. Pair your phone with the car radio via Bluetooth. Follow the on-screen prompts to initiate CarPlay or Android Auto wirelessly.
- **Wired Connection:** Connect your smartphone to the car radio using a USB cable. The system should automatically detect and launch CarPlay or Android Auto.

5.3 GPS Navigation

The integrated GPS module allows you to use navigation applications like Waze, Google Maps, or others, both online and offline. Ensure the GPS antenna is properly installed for accurate positioning.

5.4 WLAN (Wi-Fi) Connectivity

Connect the car radio to a Wi-Fi hotspot (e.g., from your smartphone or a dedicated in-car hotspot) to access online features, download apps, and use online navigation services.

5.5 Bluetooth 5.0

Pair your smartphone via Bluetooth for hands-free calling and audio streaming.

- **Pairing:** Go to the Bluetooth settings on the car radio and your phone. Search for available devices on your phone and select the car radio's name. Confirm the pairing code if prompted.
- **Hands-Free Calling:** Once paired, you can make and receive calls directly from the car radio screen. Use the external microphone for clear voice transmission.
- **Music Streaming:** Play audio from your phone through the car's speakers via Bluetooth.

5.6 FM/RDS Radio

Access the FM radio tuner for local stations. The RDS (Radio Data System) feature provides additional information like station name, song title, and traffic updates where available.

Image 5.2: Overview of key features including GPS navigation with app icons, Wi-Fi signal strength, Bluetooth call and music screens, and FM/RDS radio interface with frequency display.

5.7 Audio Equalizer (32-Band EQ)

Customize your audio experience with the built-in 32-band equalizer. Adjust frequency bands to suit your musical preferences or choose from various preset EQ modes.

5.8 Steering Wheel Controls (SWC)

The unit supports integration with your vehicle's existing steering wheel controls for safe and convenient operation of audio functions (volume, track change, mode, etc.). Refer to the system settings to configure SWC mapping.

5.9 Split Screen Function

Utilize the split-screen feature to run two applications simultaneously, such as navigation on one side and music playback on the other, enhancing multitasking capabilities.

Image 5.3: Top section displays the 32-band equalizer interface and a visual representation of sound delay adjustments. The bottom section shows the split-screen feature with navigation and radio displayed simultaneously.

5.10 Rear View Camera

When the vehicle is shifted into reverse gear, the display will automatically switch to the rear view camera feed, providing a clear view of the area behind your vehicle for safer parking and maneuvering.

Image 5.4: Top section illustrates the steering wheel button learning interface and common steering wheel control icons. The bottom section shows the rear view camera display with parking guidelines and an inset of the camera unit.

5.11 Powerful Processor

The unit is equipped with a powerful processor (4GB RAM, 64GB ROM) running Android 15, ensuring fast performance, a fluid interface, and access to millions of apps.

Image 5.5: A detailed view of the car radio's processor, highlighting its core specifications for fast and efficient operation.

6. Specifications

Feature	Specification
Model Number	B0FMXNQZB5

Video Encoding	MKV/RMVB/AVI/MP4/MDV
Package Dimensions	27.5 x 21 x 10.5 cm
Weight	1.26 kg
Country of Origin	China

7. Maintenance

7.1 Cleaning the Screen

Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-cleaning solution. Avoid using harsh chemicals or abrasive materials that could damage the screen.

7.2 Software Updates

Periodically check for software updates through the system settings or Roinvou's official support channels. Keeping your system updated ensures optimal performance, security, and access to new features.

7.3 General Care

Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture. Ensure proper ventilation around the unit to prevent overheating.

8. Troubleshooting

If you encounter any issues with your Roinvou car radio, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on	Loose power connection, blown fuse, vehicle ignition issue	Check power cables and connections. Inspect vehicle fuses. Ensure ignition is on.
No sound	Volume too low, mute activated, speaker wiring issue, incorrect audio source	Increase volume. Check mute status. Verify speaker connections. Select correct audio source.
Wi-Fi keeps dropping out	Weak signal, interference, software glitch	Ensure strong Wi-Fi signal. Move away from interference sources. Restart the unit. Check for software updates.
Touchscreen unresponsive or inaccurate	Software issue, screen calibration needed, physical damage	Restart the unit. Check for screen calibration options in settings. If persistent, contact support.
GPS signal lost or inaccurate	GPS antenna not properly connected or positioned, environmental factors	Ensure GPS antenna is securely connected and has a clear view of the sky. Avoid areas with tall buildings or tunnels.
Bluetooth pairing issues	Bluetooth not enabled, device not discoverable, interference	Ensure Bluetooth is enabled on both devices. Make sure the car radio is in pairing mode. Clear previous pairings.

If the problem persists after trying these solutions, please contact Roinvou customer support for further assistance.

9. Warranty and Support

Your Roinvou Android 15 Car Radio comes with a**24-month warranty** from the date of purchase. This warranty covers manufacturing defects and ensures online support for lifelong questions.
For any questions regarding installation, operation, troubleshooting, or warranty claims, please contact our customer support team. We aim to respond to all inquiries within 24 hours.
