Baasha BS87-ALLBLACK

Baasha All-Black Reclining Salon Chair Model 87 Instruction Manual

INTRODUCTION

Thank you for choosing the Baasha All-Black Reclining Salon Chair, Model 87. This manual provides essential information for the safe assembly, operation, and maintenance of your new salon chair. Please read these instructions thoroughly before use and retain them for future reference.

The Baasha Model 87 is a versatile and robust chair designed for various salon services, including haircuts, braiding, tattooing, and lash services. It features a reclining backrest, 360-degree swivel, and a heavy-duty hydraulic pump for adjustable height.

SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Do not exceed the maximum weight capacity of 440 lbs. Exceeding this limit may cause structural failure.
- Adjust the recline slowly and ensure the chair is fully locked in position before use. Sudden movements may cause instability or injury.
- Do not stand on the chair or apply excessive side pressure. Unbalanced weight distribution may cause the chair to tip over.
- Regularly inspect all bolts, screws, and hydraulic components for tightness. Any faulty or loose parts must be repaired or replaced by qualified professionals.
- Always assemble the chair strictly according to the provided instructions. Improper installation can lead to instability and potential hazards.
- Keep hands and feet clear of moving parts during adjustment.

PACKAGE CONTENTS

Your Baasha All-Black Reclining Salon Chair Model 87 package includes the following items:

- 1 x Baasha Salon Chair (components shipped in two separate boxes)

- 1 x Instruction Manual
- 1 x Set of Assembly Tools

Please verify all components are present and undamaged upon receipt. If any parts are missing or damaged, contact customer support immediately.

SETUP AND ASSEMBLY

Assembly of the Baasha Reclining Salon Chair requires two people due to the weight of certain components. Please follow the step-by-step instructions provided in the included assembly guide. A hammer may be required for certain steps.

Important Note: The chair ships in two separate boxes. Ensure both packages have arrived before beginning assembly.

OPERATING INSTRUCTIONS

1. Height Adjustment (Hydraulic Pump)

To adjust the chair's height, use the hydraulic pump lever located on the side of the chair. Pressing the lever down will lower the chair, while pumping it will raise the chair. Ensure the client is seated before adjusting height.

2. Reclining Backrest

The backrest can recline up to 165 degrees. Locate the recline lever (typically on the side, near the armrest). Pull the lever to release the lock and gently push the backrest to the desired angle. Release the lever to lock it in place. Ensure the client is aware and prepared before reclining the chair.

4. Removable Headrest

The headrest is removable and adjustable, allowing for customization based on client comfort and service requirements. It can be adjusted up to 4 inches in height.

MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Baasha Salon Chair.

- **Cleaning:** Wipe clean the synthetic leather upholstery with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners that may damage the material. The upholstery is waterproof for easy cleaning.
- **Inspection:** Regularly check all fasteners (bolts, screws) to ensure they are tight. Loose fasteners can affect stability and safety.
- **Hydraulic System:** The hydraulic pump is designed for long-lasting and safe operation. If you notice any issues with height adjustment, consult a professional for repair. Do not attempt to disassemble the hydraulic system yourself.
- **General Care:** Avoid exposing the chair to direct sunlight for prolonged periods to prevent material degradation.

TROUBLESHOOTING

If you encounter any issues with your Baasha Reclining Salon Chair, please refer to the following common solutions:

- **Chair not adjusting height:** Ensure the hydraulic pump lever is fully engaged and that the chair is not overloaded beyond its 440 lbs capacity. Check for any obstructions around the hydraulic mechanism.
- **Chair feels unstable:** Verify that all assembly bolts and screws are securely tightened. Ensure the chair is placed on a flat, stable surface.
- **Recline mechanism not working smoothly:** Check for any obstructions in the reclining mechanism. Ensure the lever is fully pulled to release the lock.

For persistent issues or concerns not addressed here, please contact Baasha customer support for assistance.
