

Genérico MCF-38D

Genérico MCF-38D 2-in-1 Wireless Lavalier Microphone User Manual

Model: MCF-38D

1. INTRODUCTION

The Genérico MCF-38D 2-in-1 Wireless Lavalier Microphone system is designed to provide clear, stable, and noise-free audio for various recording needs. This system is ideal for video production, live streaming, interviews, online classes, and podcasts. Featuring two lavalier microphones and a plug-and-play USB-C receiver, it offers convenience and professional sound capture.

2. PRODUCT FEATURES

- **Plug and Play Connectivity:** Connect the receiver directly to your device's Type-C or Lightning port to begin recording without additional configuration.
- **Dual Microphones:** Includes two microphones, suitable for interviews, dual presentations, podcasts, or collaborative recordings.
- **Stable Wireless Transmission:** Offers a reliable connection with an operating range of up to 20 meters, allowing for freedom of movement.
- **Clear Audio with Noise Reduction:** Designed for clear sound capture and effective noise reduction, suitable for both indoor and outdoor environments.
- **Wide Compatibility:** Compatible with Android smartphones featuring USB-C, cameras, and other compatible devices.
- **Long Battery Life:** Provides an average of 6 to 8 hours of continuous use, with fast recharging via USB Type-C.

3. PACKAGE CONTENTS

Verify that all items are present in the package:

- 2 x Wireless Lavalier Microphones
- 1 x USB-C Receiver (with Lightning adapter)
- 1 x Wireless Charging Case
- 1 x User Manual

Figure 3.1: Product packaging displaying the MCF-38D wireless microphone system components.

4. SETUP INSTRUCTIONS

1. **Charge the Microphones:** Ensure both lavalier microphones are fully charged before first use. Place them in the charging case or connect them directly via USB-C if the case is not available.
2. **Connect the Receiver:**
 - For devices with a USB-C port: Plug the USB-C end of the receiver directly into your smartphone, camera, or compatible recording device.
 - For devices with a Lightning port: Use the integrated Lightning adapter on the receiver and plug it into your iOS device.

Figure 4.1: The MCF-38D receiver with dual connectivity options and two microphones.

3. **Power On Microphones:** Press and hold the power button on each lavalier microphone until the indicator light illuminates, indicating they are powered on and ready to pair.
4. **Automatic Pairing:** The microphones will automatically pair with the receiver once both are powered on and within range. A solid indicator light on the microphone typically signifies a successful connection.
5. **Verify Connection:** Check your device's audio input settings to ensure the MCF-38D system is recognized as the active microphone.

5. OPERATING INSTRUCTIONS

1. **Wearing the Microphone:** Clip the lavalier microphone to your clothing, ideally about 6-8 inches (15-20 cm) from your mouth, to capture optimal sound. Ensure it is not covered by clothing.
2. **Recording:** Once connected, open your preferred recording application (e.g., camera app, voice recorder, live streaming app) on your device and begin recording. The system will automatically use the wireless microphones for audio input.

3. **Monitoring Audio:** If your device supports it, use headphones connected to your device (not the receiver) to monitor audio quality during recording.
4. **Operating Range:** Maintain a distance of up to 20 meters (approximately 65 feet) between the microphones and the receiver for stable transmission. Obstacles and electromagnetic interference may reduce this range.

Figure 5.1: Illustration of the wireless operating range between the microphone and receiver.

5. **Power Off:** To turn off the microphones, press and hold the power button on each microphone until the indicator light turns off. Disconnect the receiver from your device when not in use.

6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the microphones and receiver. Avoid using liquids or abrasive cleaners.
- **Storage:** Store the system in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to store the microphones in their charging case.
- **Charging:** Recharge the microphones regularly, even if not in frequent use, to maintain battery health. Use a standard USB Type-C charging cable.
- **Avoid Water:** The devices are not waterproof. Avoid exposure to water or high humidity.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume.	Microphone not powered on, not paired, or device audio input not selected.	Ensure microphones are powered on and paired. Check device audio settings to select the MCF-38D as the input. Increase device volume.
Intermittent connection or static.	Out of range, interference, or low battery.	Move closer to the receiver. Avoid strong electromagnetic fields. Recharge microphones.
Microphone not charging.	Charging cable or port issue, or improper placement in charging case.	Ensure the charging cable is properly connected. Verify microphones are correctly seated in the charging case. Try a different USB-C cable or power adapter.
Receiver not recognized by device.	Incompatible device, loose connection, or device settings.	Ensure your device has a compatible USB-C or Lightning port. Reinsert the receiver firmly. Restart your device.

8. SPECIFICATIONS

Model	MCF-38D
Type	Wireless Lavalier Microphone System (2 Microphones)
