

Suchtale SET-B916-SU-US

Suchtale SET-B916-SU-US Heated Seat Cushion User Manual

Model: SET-B916-SU-US | Brand: Suchtale

1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Suchtale SET-B916-SU-US Plug-in Heated Seat Cushion. Please read this manual thoroughly before using the product and retain it for future reference.

2. SAFETY INFORMATION

- Do not use this product if it is wet or damp.
- Do not use pins or other metallic objects with this product.
- Do not use if the cord or plug is damaged.
- Keep out of reach of children and pets.
- Always unplug the cushion when not in use or before cleaning.
- Avoid folding or creasing the cushion sharply during use to prevent damage to heating elements.
- Do not use with infants, incapacitated individuals, or persons insensitive to heat.
- Ensure the power adapter is 5V2A for optimal and safe operation.

3. PRODUCT OVERVIEW

Features:

- **Soft-Touch Corduroy Fabric:** High-quality corduroy material with 4.5-inch thick padding for comfort and support.
- **Fast Heating:** Reaches comfortable temperature in approximately 1 minute.
- **Stable Plug-in Power:** Designed for reliable, continuous power when plugged into a wall outlet (5V2A input).
- **Smart Temperature Control:** Three heat levels (High: 65°C/149°F, Medium: 48°C/118°F, Low: 40°C/104°F).
- **Timer Settings:** 15-, 30-, and 60-minute auto shut-off options, or continuous heating mode.
- **Secure Non-Slip Design:** Adjustable straps, buckles, hooks, and a non-slip bottom keep the cushion in place.

Components:

- Heated Seat Cushion (Corduroy fabric, polyester filling, sponge pad, anti-slip dot fabric)
- Integrated Controller with USB Cable
- Detachable Power Adapter (5V2A)
- Adjustable Fixing Straps with Buckles and Hooks

THE BACK OF PRODUCT

Image: The back of the heated seat cushion, highlighting the detachable adapter, fixed straps, precision sutures, and anti-slip bottom for secure placement.

4. SETUP

1. **Unpack the Cushion:** Carefully remove the heated seat cushion from its packaging. Allow it to expand fully if it was compressed.
2. **Position the Cushion:** Place the cushion on your desired chair (office chair, home chair, dining chair, sofa, etc.). Ensure the anti-slip bottom is facing down.
3. **Secure the Cushion:** Use the adjustable straps, buckles, and hooks to firmly attach the cushion to your chair. Adjust the straps to ensure a snug fit and prevent movement during use.
4. **Connect Power:**
 - Connect the USB cable from the cushion's integrated controller to the detachable power adapter.
 - Plug the power adapter into a standard wall outlet. Ensure the outlet provides 5V2A power.

5. OPERATING INSTRUCTIONS

- 1. Power On/Off:** Press the power button on the integrated controller to turn the cushion on or off.
- 2. Adjust Heat Levels:**
 - Press the heat level button to cycle through the three settings:
 - **High (149°F / 65°C):** Red LED light on.
 - **Medium (118°F / 48°C):** Blue LED light on.
 - **Low (104°F / 40°C):** Green LED light on.
 - The cushion will reach the desired temperature in approximately 1 minute.
- 3. Set Timer:**
 - Press the timer button to select an auto shut-off duration: 15 minutes, 30 minutes, or 60 minutes.
 - To enable continuous heating, ensure all timer indicator lights are off.

Video: This video demonstrates the operation of the Suchtale Heated Seat Cushion, including how to adjust the three heat levels and set the timer for automatic shut-off.

6. MAINTENANCE

- **Cleaning:** Disconnect the power adapter before cleaning. Spot clean the corduroy fabric with a damp cloth and mild detergent. Do not machine wash, bleach, tumble dry, iron, or dry clean.
- **Storage:** When not in use, store the cushion in a cool, dry place, away from direct sunlight. Avoid placing heavy objects on top of the cushion to prevent damage to the heating elements.
- **Inspection:** Regularly inspect the power cord and cushion for any signs of wear, damage, or fraying. If any damage is found, discontinue use and contact customer support.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cushion not heating.	Not plugged in correctly; power outlet issue; damaged cable/adapter.	Ensure USB cable is securely connected to adapter and adapter is firmly plugged into a working wall outlet. Check for visible damage to cable or adapter.
Cushion heats unevenly or too hot/cold.	Incorrect heat setting; internal heating element issue.	Adjust heat level using the controller. If problem persists, discontinue use and contact support.
Cushion turns off unexpectedly.	Timer activated; overheat protection engaged.	Check timer setting on the controller. If it's not on a timer, the overheat protection may have activated. Allow to cool down before restarting. If it frequently shuts off, contact support.
