### Key Features:

- **30" Bathroom Vanity with Storage Drawer:** Offers ample storage space with two fluted drawers for bathroom essentials.
- **Quiet Soft-Closing Slide Rail:** Automatically slows closing speed, reducing noise and preventing finger pinching.
- **Ceramic Integrated Sink:** Wall-mounted design with impact-resistant ceramic, ensuring durability and easy cleaning.
- **Stable Construction:** Comprising MDF and engineered wood with a paint surface for long-term use in humid environments.
- **Modern Floating Design:** Wall-mounted to save space and reduce water splashing, with a moisture-proof finish for easy maintenance.

### SAFETY INFORMATION

Please observe the following safety precautions during assembly and use:

- Always ensure the vanity is securely mounted to a sturdy wall structure to prevent tipping.
- Use appropriate tools and follow all assembly steps carefully.

- Keep small parts and hardware away from children to prevent choking hazards.
- Do not overload drawers or shelves beyond their recommended weight capacity.
- Avoid using harsh chemicals or abrasive cleaners that may damage the vanity's finish or sink material.

Video: Step-by-step guide on how to install the ONBRILL Bathroom Vanity. This video demonstrates the assembly process from start to finish.

### Step-by-Step Assembly:

- 1. Assemble the Side Panels:** Attach the side panels to the base using the provided screws (A x18). Ensure all connections are secure.

Image: Screwing in fasteners to secure the side panels.

- 2. Connect Back Panel:** Secure the back panel (part 4) to the assembled base using cam locks (B x2) and dowels (C x2).

Image: Assembling the back panel with cam locks and dowels.

- 3. Attach Vertical Supports:** Install the vertical support panels (parts 3, 5, 16) to the base using cam locks (B x5) and dowels (C x4).

Image: Securing the vertical support panels to the vanity base.

- 4. Complete Cabinet Frame:** Attach the remaining side panels and top panel (part 2) to form the complete cabinet frame using cam locks (B x9) and dowels (C x8).

Image: The cabinet frame fully assembled.

- 5. Assemble Drawer Boxes:** Construct the two drawer boxes by screwing the sides together (D x16 for each drawer).

Image: Assembling the individual drawer components.

- 6. Attach Drawer Fronts & Handles:** Secure the fluted drawer fronts (part 6) to the drawer boxes using cam locks (B x8 for each drawer) and attach the metal handles (F x2) with screws (E x4).

Image: Attaching the fluted drawer front and gold metal handle to a drawer box.

- 7. Mount Wall Brackets:** Drill holes in the wall according to the vanity's dimensions and secure the wall mounting brackets (H x2) using wall plugs (G x6) and screws (J x4).

Image: Drilling pilot holes and securing wall mounting brackets.

- 8. Hang the Vanity Cabinet:** Carefully lift and hang the assembled vanity cabinet onto the wall mounting brackets. Secure it in place with additional screws (J x2) and washers (I x2).

Image: Hanging the vanity cabinet onto the pre-installed wall brackets.

- 9. Install Drawers:** Slide the assembled drawers into the cabinet's soft-closing slide rails.

Image: Sliding the drawers into the vanity cabinet.

- 10. Place the Sink Top:** Carefully lower the ceramic integrated sink (part 15) onto the vanity cabinet. Apply caulk around the edges for a watertight seal. Wipe away any excess caulk with a soft cloth and allow approximately 24 hours for it to dry.

Image: Carefully placing the ceramic sink top onto the vanity cabinet.

**WARNING:** Vanity MUST be secured to the wall. At this stage, it may be easier to install the faucet and drain kit (not included) to the top (15) per the manufacturer's instructions before placing it on the vanity.

## OPERATING INSTRUCTIONS

---

### Drawers:

The vanity features two fluted drawers equipped with soft-closing slide rails. To open, gently pull the gold metal handles. To close, push the drawers inward; the soft-closing mechanism will engage to ensure a quiet and smooth

closure, preventing slamming.

Image: The efficient storage space within the vanity drawers, including a U-shape cutout for the sink drain in the top drawer.

### Integrated Ceramic Sink:

The ceramic integrated sink is designed for daily use. It includes a pre-drilled faucet hole (faucet not included) and an anti-spill overflow drain to prevent water from overflowing. The smooth, rounded edges enhance safety and ease of cleaning.

## Prevent Water Overflow & Speed Up Drainage

Enhance drainage efficiency and safeguard against unintended water spills, ensuring no mess or loss, even in case of forgotten faucets.

## MAINTENANCE & CARE

Proper care will ensure the longevity and appearance of your ONBRILL bathroom vanity:

- **Cleaning the Cabinet:** The cabinet's painted surface is moisture-proof and easy to clean. Simply wipe down with a damp cloth and mild soap. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Cleaning the Sink:** The ceramic integrated sink is designed for easy maintenance. Use a soft cloth and non-abrasive cleaner to keep it sparkling. Rinse thoroughly after cleaning.
- **Hardware Care:** The gold metal handles can be cleaned with a soft, dry cloth. Avoid using chemical cleaners on metal hardware.
- **Preventing Water Damage:** Although moisture-proof, promptly wipe up any standing water on the vanity surface to prevent potential damage over time.

## TROUBLESHOOTING

---

If you encounter any issues with your vanity, please refer to the following common solutions:

- **Drawers not closing smoothly:** Check if the soft-closing slide rails are properly aligned and free of obstructions. Ensure all screws securing the rails are tightened.
- **Drawers not closing flush:** This can sometimes occur if the drawer slides are not perfectly aligned or if the cam lock fasteners are not fully tightened. Re-check the assembly of the drawer box and its connection to the cabinet.
- **Wobbly cabinet:** Ensure the wall mounting brackets are securely fastened to a solid wall structure. Verify that all cam locks and dowels within the cabinet frame are fully tightened.
- **Water leakage from sink:** Check all plumbing connections for tightness. Ensure caulk around the sink is properly applied and fully cured.

For persistent issues or concerns not addressed here, please contact ONBRILL customer support.

## WARRANTY & SUPPORT

---

ONBRILL is committed to providing high-quality products. For information regarding product warranty, returns, or technical support, please refer to your purchase documentation or contact ONBRILL customer service directly. Keep your proof of purchase for any warranty claims.
