## SETUP AND ASSEMBLY

---

Assembly is required. Follow the included instructions carefully. It is recommended to assemble the unit on a soft, clean surface to prevent scratches.

1. **Assemble the Frame:** Connect the metal frame components using the provided screws and Allen wrench. Ensure all connections are secure.
2. **Attach Top Panels:** Place the engineered wood top panels onto the assembled frame. Secure them with the designated fasteners.
3. **Install Footrests:** Choose between the lockable 360° swivel casters for mobility or the height-adjustable feet for stationary use. Attach your chosen footrests to the bottom of the frame.

4. **Prepare Drawers:** Insert the bottom panel into each fabric drawer and attach the handles.
5. **Insert Drawers:** Slide the assembled fabric drawers into the frame. Ensure the anti-drop buckles are engaged to prevent accidental drawer removal.

**Note: Some users have reported that the assembly instructions can be challenging. Take your time and carefully review each step before proceeding.**

## OPERATING INSTRUCTIONS

---

### Using the Drawers

The four fabric drawers are designed to hold Letter or A4 size files and various office supplies. Each drawer features an anti-drop buckle mechanism to prevent it from being pulled out completely by accident. To remove a drawer, gently lift the front slightly while pulling.

## MAINTENANCE

- **Cleaning:** Wipe the metal frame and engineered wood top with a soft, damp cloth. Avoid harsh chemicals. For fabric drawers, spot clean with a mild detergent and allow to air dry.
- **Drawer Care:** Do not overload drawers. Ensure items are distributed evenly to prevent deformation of the fabric.

- **Stability Check:** Periodically check all screws and fasteners to ensure they remain tight. If using adjustable feet, ensure they are properly leveled.

## TROUBLESHOOTING

---

- **Cabinet is Unstable:** If the cabinet wobbles, ensure all frame connections are tightened. If using adjustable feet, adjust each foot until the cabinet is level and stable on the floor. If using casters, ensure they are locked when stationary.
- **Drawers are Difficult to Open/Close:** Check for obstructions inside the drawer or along the drawer slides. Ensure the drawer is properly aligned within the frame.
- **Files do not fit properly:** This cabinet is designed for Letter and A4 size files. Ensure files are oriented correctly within the drawer.
