

Leten 708 Future Pro Gen 3

Leten 708 Future Pro Gen 3 Male Masturbator Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your Leten 708 Future Pro Gen 3 Male Masturbator. This device features an internal heating system, dual interchangeable silicone sleeves, a voice function, and 10 distinct thrusting modes, all within a durable ABS exterior and soft silicone interior. Please read this manual thoroughly before first use and retain it for future reference.

SAFETY INFORMATION

Warning: This product is intended for adult use only (18+). Keep out of reach of minors.

- Do not use if you have any skin irritations, open wounds, or medical conditions that may be exacerbated by the use of this product. Consult a healthcare professional if you have concerns.
- Discontinue use immediately if you experience any discomfort, pain, or unusual reactions.
- Avoid submerging the main unit in water. The silicone sleeves are washable, but the electronic components are not waterproof.
- Use only water-based lubricants with the silicone sleeves. Oil-based lubricants can damage silicone materials.
- Do not attempt to disassemble or modify the device, as this may void the warranty and pose safety risks.

PRODUCT OVERVIEW

The Leten 708 Future Pro Gen 3 is designed for a comprehensive experience, combining multiple features in one compact device.

Image: The main unit of the Leten 708 Future Pro Gen 3, showcasing its design and the two included interchangeable silicone sleeves (one red, one blue).

Key Features:

- **Advanced Heating Function:** An internal heating system provides consistent warmth during use.
- **Dual Sleeve Design:** Includes two removable silicone sleeves for varied sensations and easy maintenance.
- **Voice Function:** Integrated sound options to enhance the experience.
- **10 Thrusting Modes:** Multiple adjustable thrusting patterns for diverse stimulation.
- **USB Rechargeable:** Convenient charging for repeated use.
- **Durable Construction:** Made with an ABS exterior and a soft, body-safe silicone interior.

Image: Diagram illustrating the dimensions of the Leten 708 Future Pro Gen 3 main unit (11.4 inches / 29 cm long, 5.04 inches / 12.8 cm wide) and its silicone sleeves (5.1 inches / 13 cm long, 1.6 inches / 4 cm wide).

SETUP

1. Charging the Device

USB RECHARGEABLE

Fast charging and long battery life

Image: Close-up of the USB charging port on the device, indicating its compatibility with power banks, notebooks, and standard USB chargers.

1. Locate the USB charging port on the device.
2. Connect the provided USB charging cable to the device and a compatible USB power source (e.g., power bank, computer USB port, or wall adapter).
3. The charging indicator light will illuminate. Allow the device to charge fully before first use.

2. Inserting the Silicone Sleeve

1. Select one of the two interchangeable silicone sleeves.
2. Carefully insert the chosen sleeve into the main ABS housing, ensuring it is securely seated and aligned.

OPERATING INSTRUCTIONS

1. Power On/Off

- Press and hold the power button (usually marked with a power symbol) for a few seconds to turn the device on or off.

2. Thrusting Modes

10 Modes Super Stroking

Adjust the strength of masturbation to reach orgasm

Image: The device illustrating its internal mechanism for 10 super stroking modes, with arrows indicating the thrusting motion.

10 Modes Airbag Massage

Built-in 4 airbag squeezer

Image: A view into the device's opening, highlighting the built-in 4-airbag squeezer for 10 modes of airbag massage.

- Once powered on, use the designated mode selection buttons (refer to the device's control panel) to cycle through the 10 available thrusting patterns.
- Use the '+' and '-' buttons to adjust the intensity or speed of the thrusting action.

3. Heating Function

Hot Air Heating System

Before use: warm up the sleeve to 40°C

After use: Drying the sleeve

Image: The device's opening with a visual representation of the hot air heating system, showing warmth being generated to pre-warm the sleeve to 40°C.

- Press the heating button (if available) to activate the internal heating system.
- Allow a few minutes for the sleeve to warm up to the optimal temperature (approximately 40°C).

4. Voice Function

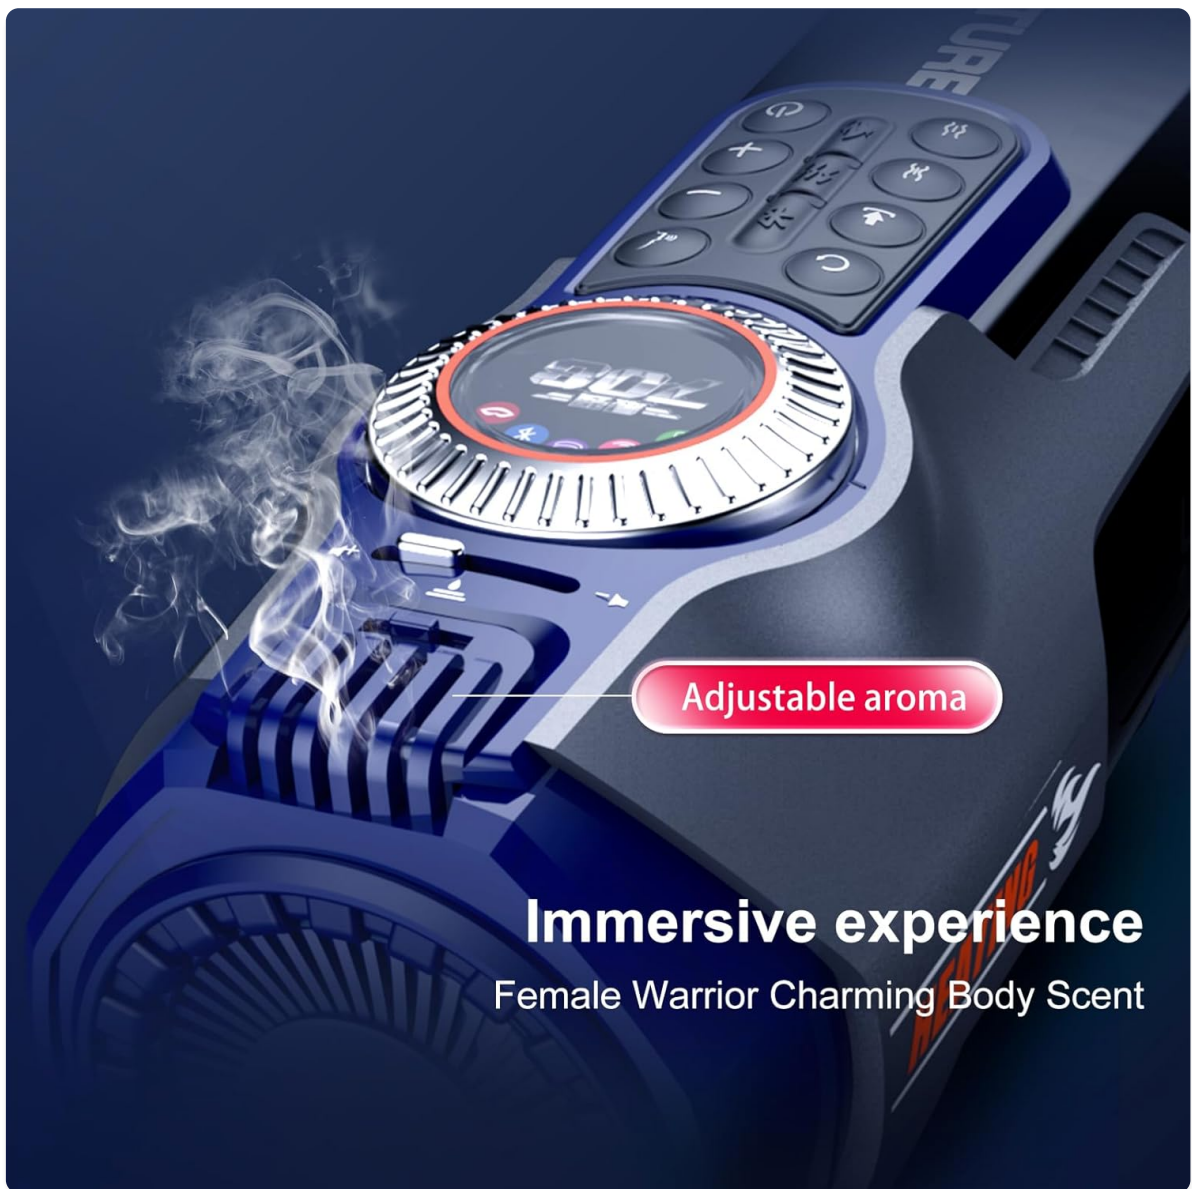

Image: A close-up of the device's control panel, highlighting an 'adjustable aroma' feature, suggesting an immersive experience.

- Press the voice button (if available) to activate or deactivate the integrated sound features.
- Some models may allow for volume adjustment using the '+' and '-' buttons.

MAINTENANCE

1. Cleaning

1. After each use, turn off the device and carefully remove the silicone sleeve from the main unit.
2. Wash the silicone sleeve thoroughly with mild soap and warm water. Rinse completely to remove all soap residue.
3. Wipe the exterior of the main unit with a damp cloth. **Do not submerge the main unit in water.**

2. Drying

1. Allow the silicone sleeve to air dry completely before reinserting it into the main unit or storing it. Ensure no moisture remains to prevent bacterial growth.
2. Ensure the main unit is also dry before storage.

3. Storage

- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- Keep the device and its components in a clean, dust-free environment.

TROUBLESHOOTING

- **Device not turning on:** Ensure the device is fully charged. If the issue persists, try charging with a different USB cable or power source.
- **Thrusting modes not working:** Check if the device is powered on and fully charged. Ensure the sleeve is correctly inserted.
- **Heating function not working:** Verify the heating function is activated. Allow sufficient time for the element to warm up.
- **Unusual noises or smells:** Discontinue use immediately and contact customer support.
