TROUBLESHOOTING

If you encounter any issues with your coffee table, refer to the following common problems and solutions:

- **Table is Wobbly:**

Solution: Ensure all leg connections and frame screws are fully tightened. Check that the table is placed on an even surface. If the floor is uneven, consider using furniture pads or shims under the legs.

- **Drawer Sticks or Doesn't Slide Smoothly:**

Solution: Check for any obstructions in the drawer glides. Ensure the drawer is properly aligned on its tracks. A small amount of silicone spray or wax on the glides can improve smoothness.

- **Wheels Not Rolling Smoothly:**

Solution: Check for debris (e.g., hair, lint) caught in the wheel mechanisms. Clean the wheels thoroughly. Ensure the brake levers are fully disengaged when attempting to roll the table.

- **Scratches or Dents:**

Solution: For minor scratches, a furniture repair marker or wood stain pen matching the finish may be used. For

deeper damage, professional repair may be necessary.
