Doohoeek Tab S11 11 inch 2025

Doohoeek Keyboard Folio with Status Screen User Manual

MODEL: SAMSUNG GALAXY TAB S11 11 INCH 2025 (SM-X730/SM-X736B)

Brand: Doohoeek

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your Doohoeek Keyboard Folio with Status Screen. This accessory is designed to enhance the functionality of your Samsung Galaxy Tab S11 11 inch 2025, transforming it into a versatile workstation with a comfortable typing experience and integrated protection.

Compatibility

This keyboard folio is exclusively compatible with the **Samsung Galaxy Tab S11 11-inch 2025** (model numbers: **SM-X730** and **SM-X736B**).

To verify your tablet's model number, navigate to **Settings > About tablet** on your device, or check the back of your tablet for the printed model information.

Setup

1. Inserting the Tablet

1. Gently align your Samsung Galaxy Tab S11 11-inch 2025 with the case's frame.
2. Press the tablet firmly into the case until it is securely seated. Ensure all edges are properly covered by the protective frame.

2. Charging the Keyboard

1. Locate the charging port on the keyboard (typically USB-C).

2. Connect the provided charging cable to the keyboard and a suitable USB power adapter.

3. The status display screen will indicate charging status. A full charge typically takes approximately 2-3 hours.

3. Bluetooth Pairing

1. Ensure the keyboard is charged and powered on.

2. On the keyboard, press and hold the **Fn + C** keys simultaneously for 1 second. The status display screen will show "Pairing..." and the Bluetooth indicator will flash.

3. On your Samsung Galaxy Tab S11, go to **Settings > Connected devices > Bluetooth**.

4. Turn on Bluetooth and search for available devices.

5. Select "Doohoeek Keyboard" (or similar name) from the list of devices.

6. Follow any on-screen prompts to complete the pairing process. The status display screen will show "Wireless Keyboard Connected" once pairing is successful.

Operating Instructions

1. Using the Keyboard and Trackpad

- **Typing:** The QWERTY layout with scissor-switch keys provides a familiar and comfortable typing experience.
- **Trackpad:** Use the integrated trackpad for precise cursor control. It supports standard multi-touch gestures for scrolling, zooming, and other functions. Palm-rejection technology helps prevent accidental inputs.
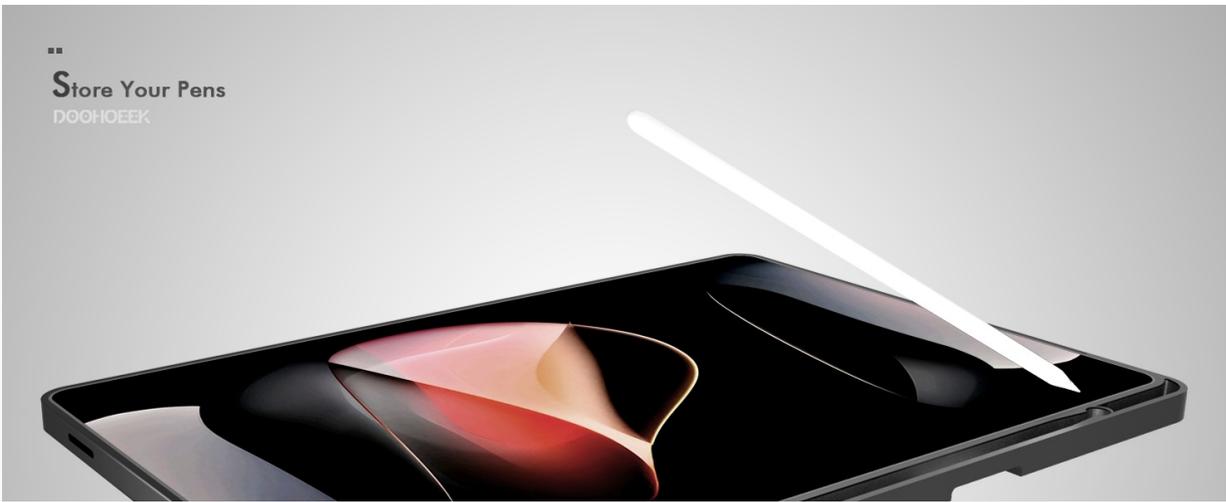

Image: Illustration demonstrating the multi-touch trackpad and palm-rejection feature, showing hands interacting with the trackpad.

2. Adjusting Backlight

- To change backlight colors, press the **Fn + Light bulb icon** key. Cycle through the 7 available colors.
- To adjust backlight brightness, press the **Fn + Up/Down arrow** keys (or specific brightness keys if available). There are 3 brightness levels.

3. Using the Any-Angle Stand

- The integrated kickstand on the back of the folio allows you to prop up your tablet.
- Adjust the stand to achieve your desired viewing angle for both horizontal (landscape) and vertical (portrait) orientations.

4. Detaching the Keyboard

- The keyboard is held in place by strong magnets. To detach, simply pull the keyboard away from the folio.
- This allows for lighter tablet use when typing is not required, or for more flexible positioning of the keyboard.

5. S-Pen Access

- The case features a dedicated cutout on the back for storing your S-Pen.
- To retrieve the S-Pen, gently push it through the cutout from the back of the case.

Maintenance

Cleaning

- To clean the keyboard and case, use a soft, damp cloth.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the surface.
- Ensure the keyboard is powered off and disconnected from any power source before cleaning.

Battery Care

- For optimal battery life, avoid fully discharging the keyboard frequently.
- Store the keyboard in a cool, dry place when not in use for extended periods.

Troubleshooting

Keyboard Not Connecting/Responding

- **Check Battery:** Ensure the keyboard has sufficient charge. Refer to the status display screen.
- **Re-pair Bluetooth:** If the connection is lost, try re-pairing the keyboard with your tablet following the "Bluetooth Pairing" steps in the Setup section.
- **Restart Devices:** Turn off and on both your tablet and the keyboard, then attempt to reconnect.

Keyboard Entering Sleep Mode Too Quickly

- The keyboard is designed to enter a power-saving sleep mode after a period of inactivity.
- To wake it up, simply press any key. There might be a slight delay for the first few keystrokes as it reconnects.

Backlight Not Working

- **Check Battery:** Low battery can affect backlight functionality. Charge the keyboard.
- **Adjust Settings:** Ensure the backlight is turned on and brightness is set to a visible level using the Fn key combinations.
