LICYAPO 3429e7be-728e-4088-86ed-71966401b517

LICYAPO Smart Watch Instruction Manual

Model: 3429e7be-728e-4088-86ed-71966401b517

1. INTRODUCTION

This manual provides detailed instructions for the LICYAPO Smart Watch. This device integrates advanced features such as built-in GPS with offline map capabilities, a 1.96-inch HD display, and comprehensive health monitoring. It supports call and message functions, over 100 sports modes, and is compatible with both Android and iPhone devices. Please read this manual thoroughly to ensure proper use and optimal performance of your smartwatch.

3. SETUP

3.1 Initial Charging and Power On

1. Connect the charging cable to the smartwatch's charging port and a USB power adapter.
2. Allow the watch to charge fully before first use.
3. To power on, press and hold the side button until the screen illuminates.

3.2 App Installation and Pairing

1. Scan the QR code provided in the manual or on the watch packaging to download the official companion app. Alternatively, search for the app in your device's app store (compatible with iOS 9.0+ and Android 5.0+).
2. Install and open the app on your smartphone.
3. Enable Bluetooth on your smartphone.
4. Follow the in-app instructions to pair your LICYAPO Smart Watch. This typically involves searching for the device and confirming a pairing code on both the watch and phone.
5. Once paired, the watch time and date will automatically synchronize with your phone.

4. OPERATING INSTRUCTIONS

4.1 Display and Watch Faces

The LICYAPO Smart Watch features a 1.96-inch HD touchscreen display.

- **Changing Watch Faces:** Swipe left or right on the home screen to browse pre-installed watch faces. For more options, access the companion app to download from over 100 styles or customize with your own photos.
- **AI Customized Dial:** Use the AI voice feature within the app to describe a watch face you desire, or upload a photo to create a personalized watch face.

4.2 Call and Message Management

Stay connected directly from your wrist.

- **Make/Receive Calls:** Use the built-in microphone and speaker to answer incoming calls or dial out directly from the watch. Access call records and contacts.
- **Message Notifications:** Receive notifications from various social media apps (Facebook, WhatsApp, Instagram, Twitter, etc.) directly on your watch.
- **SMS Reply (Android Only):** For Android users, the watch supports voice-to-text quick replies for SMS messages.

Built-in GPS & Offline Maps

Track sports and activities more accurately, view exercise tracks, and navigate routes through the watch

Image: Smartwatch interface demonstrating call, message, and AI voice assistant features.

4.3 AI Voice Assistant

Activate your phone's AI voice assistant (e.g., Siri, Google Assistant) directly from your watch for various tasks.

- **Activation:** Swipe to the AI voice assistant screen or use a designated button/gesture (refer to watch settings for specific activation).
- **Functions:** Make calls, check weather, set alarms, control music, and more using voice commands.

4.4 GPS and Offline Maps

The built-in GPS and offline map functionality provide reliable navigation and activity tracking.

- **GPS Tracking:** Track your routes, distance, and speed during outdoor activities. Compatible with multiple satellite positioning systems.
- **Offline Maps:** Download maps to your watch via the companion app. This allows for navigation even in areas without network signal.
- **Navigation Tools:** Utilize the professional compass, altimeter, and barometer for environmental awareness and precise location identification.

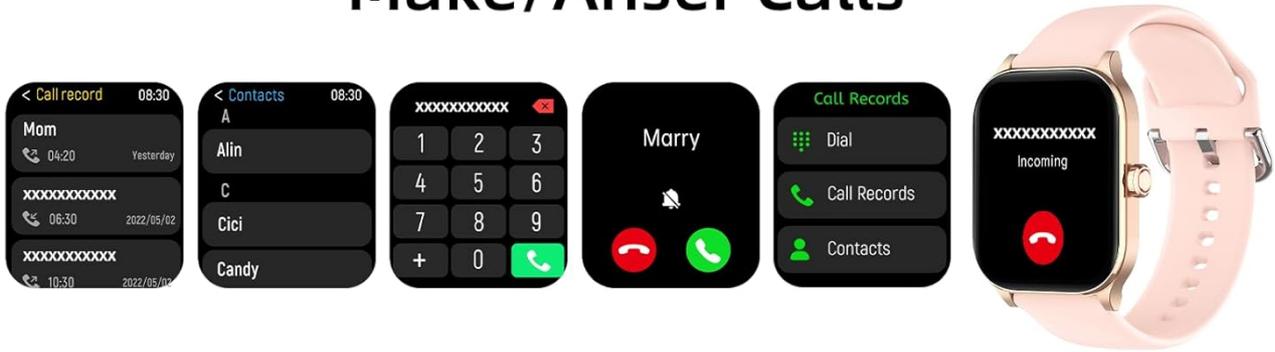

Image: Smartwatch showing GPS navigation, compass, altimeter, and air pressure features during outdoor activity.

4.5 Health Monitoring

Monitor your health metrics 24/7.

- **Heart Rate:** Continuously tracks your heart rate. View real-time data and historical trends in the app.
- **Sleep Quality:** Monitors sleep patterns, including deep sleep, light sleep, and awake times. Provides detailed analysis in the app.
- **Blood Oxygen (SpO2):** Measures blood oxygen saturation levels.
- **Stress Levels:** Assesses and tracks your stress levels throughout the day.
- **Emotional Analysis & Fatigue Assessment:** Provides insights into emotional state and fatigue based on collected data.
- **PAI Health Score:** A personalized activity intelligence score that quantifies the effect of exercise and helps optimize your health plan.
- **Smart Alerts:** Includes hydration alerts, sedentary reminders, and guided breathing exercises to promote well-being.

4.7 Additional Functions

Your smartwatch offers a variety of practical tools:

- AI Translation & AI Q&A
- Weather Display
- Music Control & Camera Control
- Calculator
- Find Phone
- Alarm Clock, Timer, Stopwatch
- Calendar View
- Brightness & Volume Adjustment
- Language Settings
- Do Not Disturb Mode

5. MAINTENANCE

5.1 Cleaning and Care

- Regularly clean your watch and band with a soft, dry cloth.
- Avoid using harsh chemicals or abrasive materials.
- Ensure the charging contacts are clean and dry before charging.

5.2 Water Resistance

The LICYAPO Smart Watch is IP68 waterproof, meaning it is protected against dust and can withstand immersion in water up to 1.5 meters for 30 minutes.

- It is suitable for daily use, including hand washing, rain, and shallow swimming.
- Avoid hot water, saunas, or high-pressure water jets, as these can compromise the water resistance.
- Do not operate the watch buttons underwater.

Message Reply & Smart Notification

Quickly reply to messages through voice-to-text conversion on the watch

Application message notification, never miss any message

SMS reply feature available for Android phones

6. TROUBLESHOOTING

If you encounter issues with your LICYAPO Smart Watch, please refer to the following common solutions:

- **Watch not powering on:** Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
- **Cannot pair with phone:**
 - Ensure Bluetooth is enabled on your phone and the watch is within range.
 - Restart both your phone and the smartwatch.
 - Check if the companion app is updated to the latest version.
 - Forget the device in your phone's Bluetooth settings and try pairing again.
- **Inaccurate health data:**
 - Ensure the watch is worn snugly on your wrist, not too tight or too loose.
 - Clean the sensor on the back of the watch.
 - Avoid excessive movement during measurements.
- **Short battery life:**
 - Reduce screen brightness.
 - Limit frequent notifications.

- Disable continuous heart rate monitoring if not needed 24/7.
- Ensure background app usage is optimized on your phone.
- **Touchscreen unresponsive:** Restart the watch by pressing and holding the side button. If unresponsive, allow the battery to drain completely and then recharge.
