## uwant D600

# uwant Wet Dry Vacuum Cleaner D600 Instruction Manual

Model: D600 | Brand: uwant

## 1. INTRODUCTION

The uwant Wet Dry Vacuum Cleaner D600 is an all-in-one cleaning solution designed for hard floors. It combines vacuuming and mopping functionalities, featuring advanced self-cleaning, odor removal, and efficient drying capabilities. This manual provides essential information for the safe and effective operation, maintenance, and troubleshooting of your new appliance.

## 2. KEY FEATURES

- **UWANT Push-in Design:** Effortlessly docks into the base station for convenient storage and charging without leaving water marks.
- **Triple Odor Removal:** Features dual odor-removal sticks to keep water odor-free for up to 7 days and an IPX6+ washable roller brush with 100°C hot water and air sterilization.
- **Smart RGB Self-Cleaning Base Station:** Provides one-stop cleaning with color-coded lights for dust cleaning (green), deep cleaning (blue), UV-C sterilization (purple), and infrared-assisted hot air drying (red).
- **Lower than 13cm Lay-Flat:** Designed to reach under low furniture like sofas and beds, ensuring no missed spots.
- **23000Pa Strong Suction with 3 Modes:** Includes Smart Cleaning Mode (AI-adjusted suction), MAX mode (for tough stains), and Dry mode (for dry debris without water).
- **Triple Water Levels and 50-Minute Runtime:** Offers three water levels for different cleaning needs and a long-lasting battery for up to 280 coverage. Its 3-side design cleans close to walls.
- **0 Gravity Handle:** Ergonomically designed for easy operation with minimal wrist strain, adapting to different heights and angles.

## 3. WHAT'S IN THE BOX

Your uwant D600 package includes the following components:

- uwant Wet Dry Vacuum Cleaner D600 main unit
- Self-cleaning base station
- Power adapter

- 2 x Roller brushes (one pre-installed, one spare)
- 2 x HEPA filters (one pre-installed, one spare)
- Cleaning solution
- Cleaning brush
- User manual

## Newly Upgraded Performance

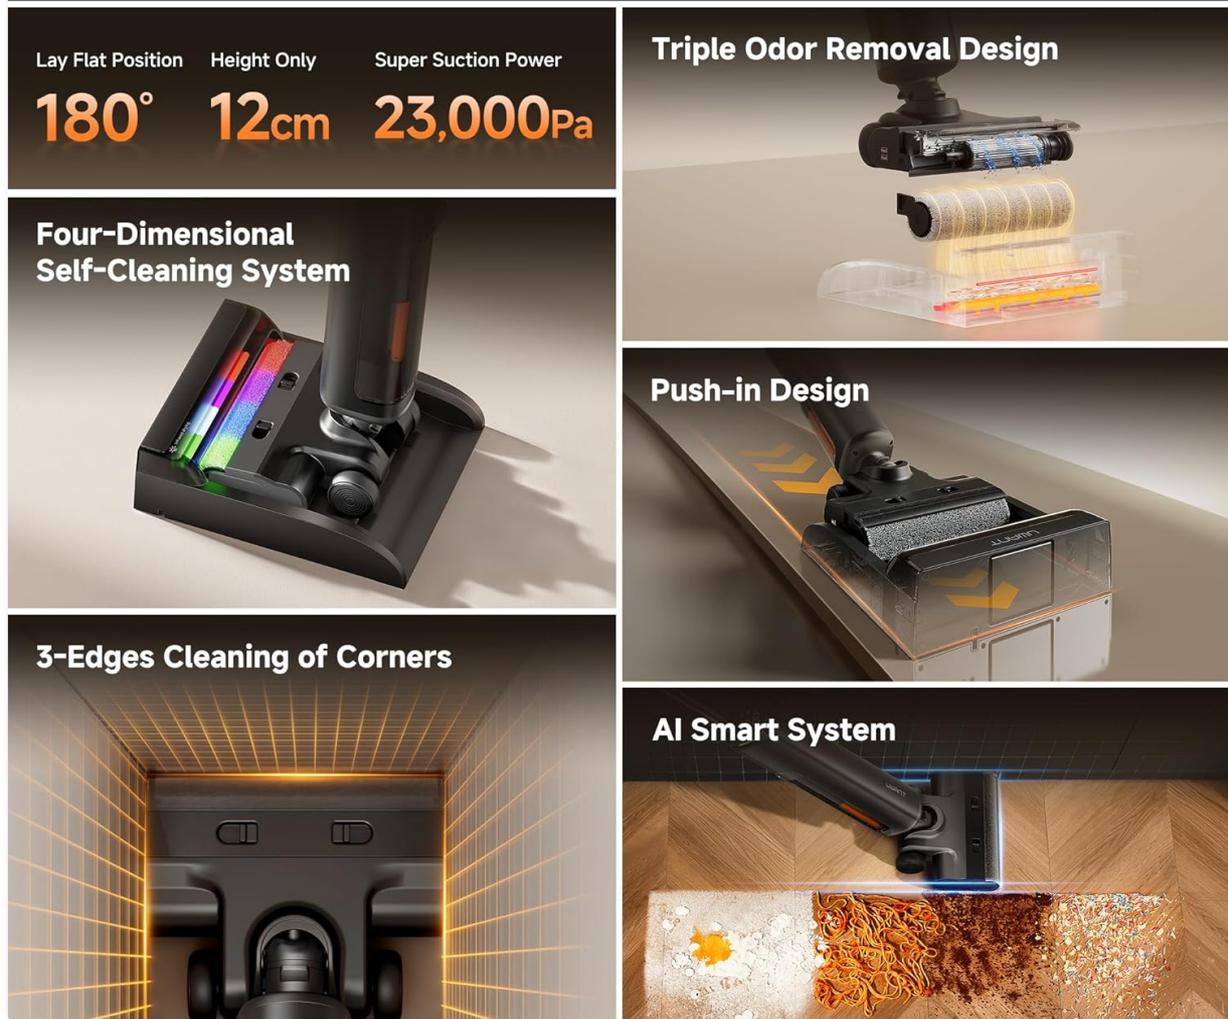

Figure 1: uwant D600 Wet Dry Vacuum Cleaner and included accessories.

## 4. SETUP

1. **Assemble the Handle:** Insert the handle into the main body of the vacuum cleaner until it clicks securely into place.
2. **Place the Base Station:** Position the self-cleaning base station on a flat, dry surface near a power outlet.
3. **Connect Power:** Plug the power adapter into the base station and then into a wall outlet.
4. **Charge the Unit:** Place the vacuum cleaner onto the base station. The push-in design allows for easy docking. The unit will begin charging automatically.
5. **Fill the Clean Water Tank:** Remove the clean water tank from the main unit. Fill it with clean water and add the recommended amount of uwant Deep Cleaning Solution (30ml per 1 liter of water). Reattach the tank

securely.

## 5. OPERATING INSTRUCTIONS

### Powering On/Off and Mode Selection

- **Power On:** Press and hold the power button on the handle to turn on the vacuum cleaner.
- **Mode Selection:** Use the mode button to cycle through Smart Cleaning Mode, MAX mode, and Dry mode. The digital display will indicate the current mode.
- **Power Off:** Press and hold the power button to turn off the device.

### Water Level Adjustment

The vacuum cleaner offers three water levels to suit different cleaning needs:

- **Low Water:** Ideal for light dust, hair, and minor puddles on wooden floors.
- **Medium Water:** Suitable for tile and hard floors, effectively clearing food debris and daily messes.
- **High Water:** Provides maximum power for dried spills, sauces, and stuck-on grime.

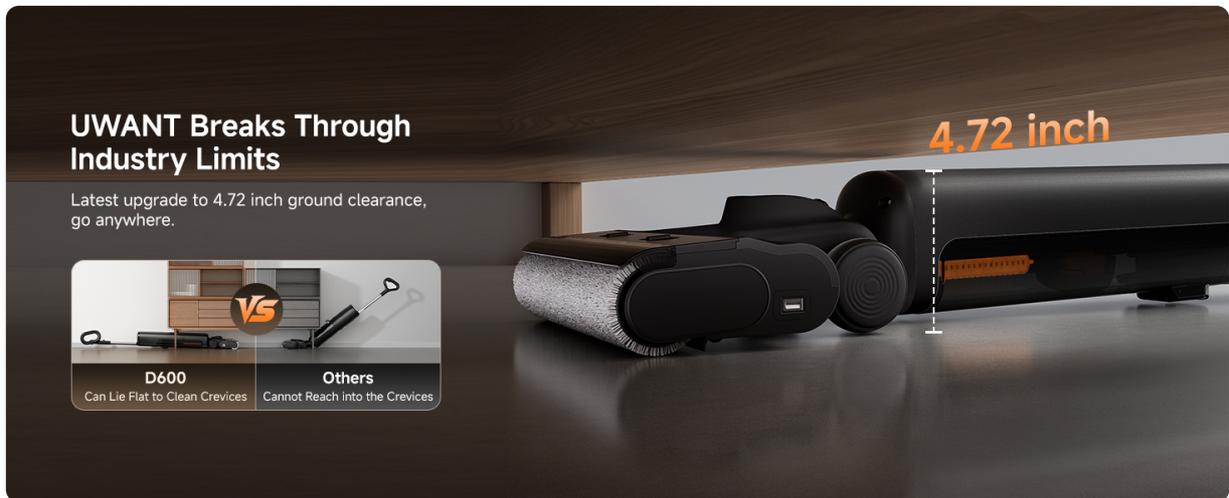

Figure 2: Three adjustable water levels for varied cleaning tasks.

### Lay-Flat and Edge Cleaning

- **180° Lay-Flat Design:** The vacuum can lay almost completely flat (lower than 13cm) to easily clean under furniture.
- **Triple-Edge Cleaning:** The unique design allows for thorough cleaning along walls and into corners, leaving no dirt behind.

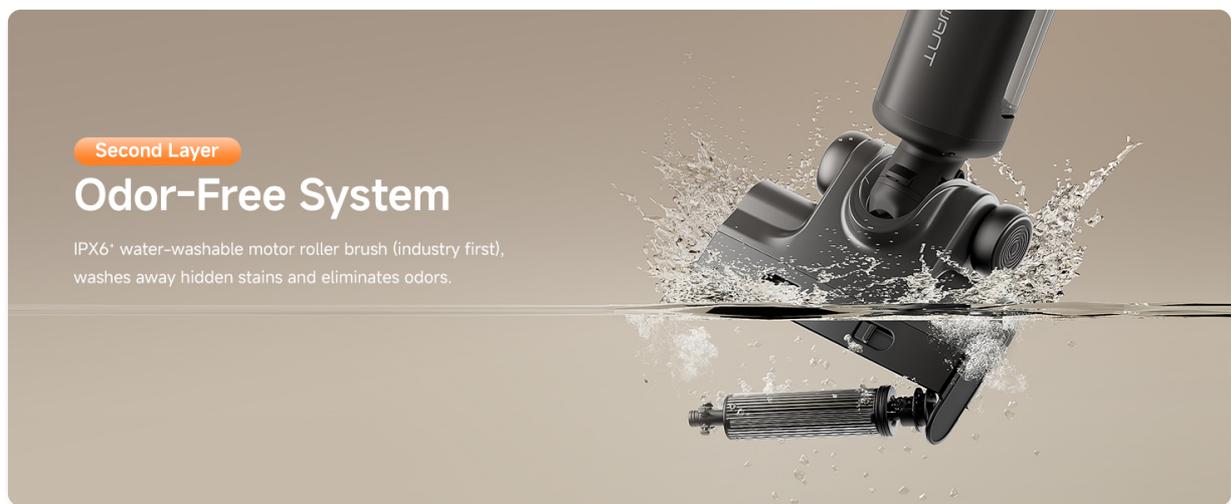

Figure 3: The 180° lay-flat design allows access to low-clearance areas.

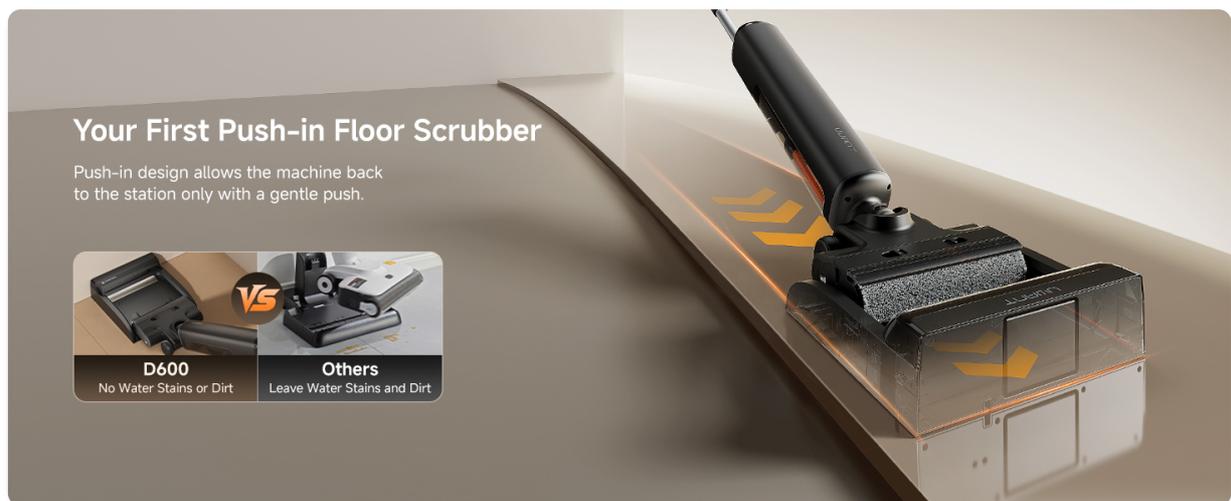

Figure 4: The 3-edge design ensures thorough cleaning along edges and corners.

## 6. MAINTENANCE

### Smart RGB Self-Cleaning Base Station

After each use, return the vacuum cleaner to its base station. The Smart RGB Self-Cleaning Base Station will automatically initiate a cleaning cycle for the roller brush and internal components. The process involves four stages indicated by different light colors:

- **Green Light:** Basic dust cleaning.
- **Blue Light:** Deep cleaning of the roller.
- **Purple Light:** UV-C sterilization.
- **Red Light:** Infrared-assisted hot air drying (100°C) for 100% dry and clean results.

Figure 5: The base station's RGB lights indicate the self-cleaning stage.

## Cleaning the Dirty Water Tank and Roller Brush

- **Empty Wastewater:** Regularly empty the dirty water tank. The integrated deodorizer stick helps keep the wastewater odor-free for up to 7 days.
- **Rinse Components:** The roller brush and its motor are IPX6+ waterproof, allowing for direct rinsing under water to prevent bacteria buildup. The base station tray is also removable for easy cleaning.

Figure 6: The triple odor removal system includes deodorizer sticks and a washable roller brush.

## 7. TROUBLESHOOTING

- **Poor Cleaning Performance:** Ensure the clean water tank is filled with water and cleaning solution. Check if the dirty water tank is full and needs emptying. Clean the roller brush and filter regularly.
- **Unpleasant Odor:** Utilize the deodorizer sticks in the dirty water tank. Ensure the roller brush and all removable parts are thoroughly cleaned and dried after use. Run the full self-cleaning cycle with hot air drying.
- **Reduced Suction:** Check for blockages in the suction path or the roller brush area. Ensure the filter is clean and properly installed.
- **Battery Not Charging:** Verify that the vacuum cleaner is correctly docked in the base station and the power adapter is securely plugged into a working outlet.

## 8. SPECIFICATIONS
