1. INTRODUCTION

Thank you for choosing the CaDA Master C66005W Japanese Coffee House Building Set. This set allows you to construct a detailed miniature coffee shop model with integrated lighting. Comprising 768 high-precision pieces, this model offers an engaging building experience and results in a decorative display piece. Please read this manual carefully before beginning assembly to ensure a smooth and enjoyable building process.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD. This product contains small parts and is not suitable for children under 3 years of age. Keep all small components away from young children to prevent accidental ingestion. Adult supervision is recommended during assembly.

3. PACKAGE CONTENTS

Please verify that all components are present before starting assembly. The package should contain:

- 768 high-precision building bricks
- Integrated LED lighting system (USB lights included)
- Detailed instruction manual

4. ASSEMBLY INSTRUCTIONS

The CaDA Master C66005W set is designed for a smooth and stable assembly experience. Follow the step-by-step instructions provided in the included manual for optimal results. The building process is divided into sections, typically corresponding to numbered bags of bricks.

4.1 General Assembly Tips

- **Organize Pieces:** Before starting each section, sort the bricks by color and shape to facilitate identification.
- **Follow Manual:** Adhere strictly to the sequence shown in the instruction manual. Each step builds upon the previous one.
- **Secure Connections:** Ensure all bricks are firmly pressed together to create a stable structure.
- **Check Orientation:** Pay close attention to the orientation of bricks, especially for detailed elements and windows.

4.2 Modular Construction

The model features a modular design, allowing for easier assembly of sub-sections before combining them into the final structure. This includes separate construction of the main structure, back wall, and roof.

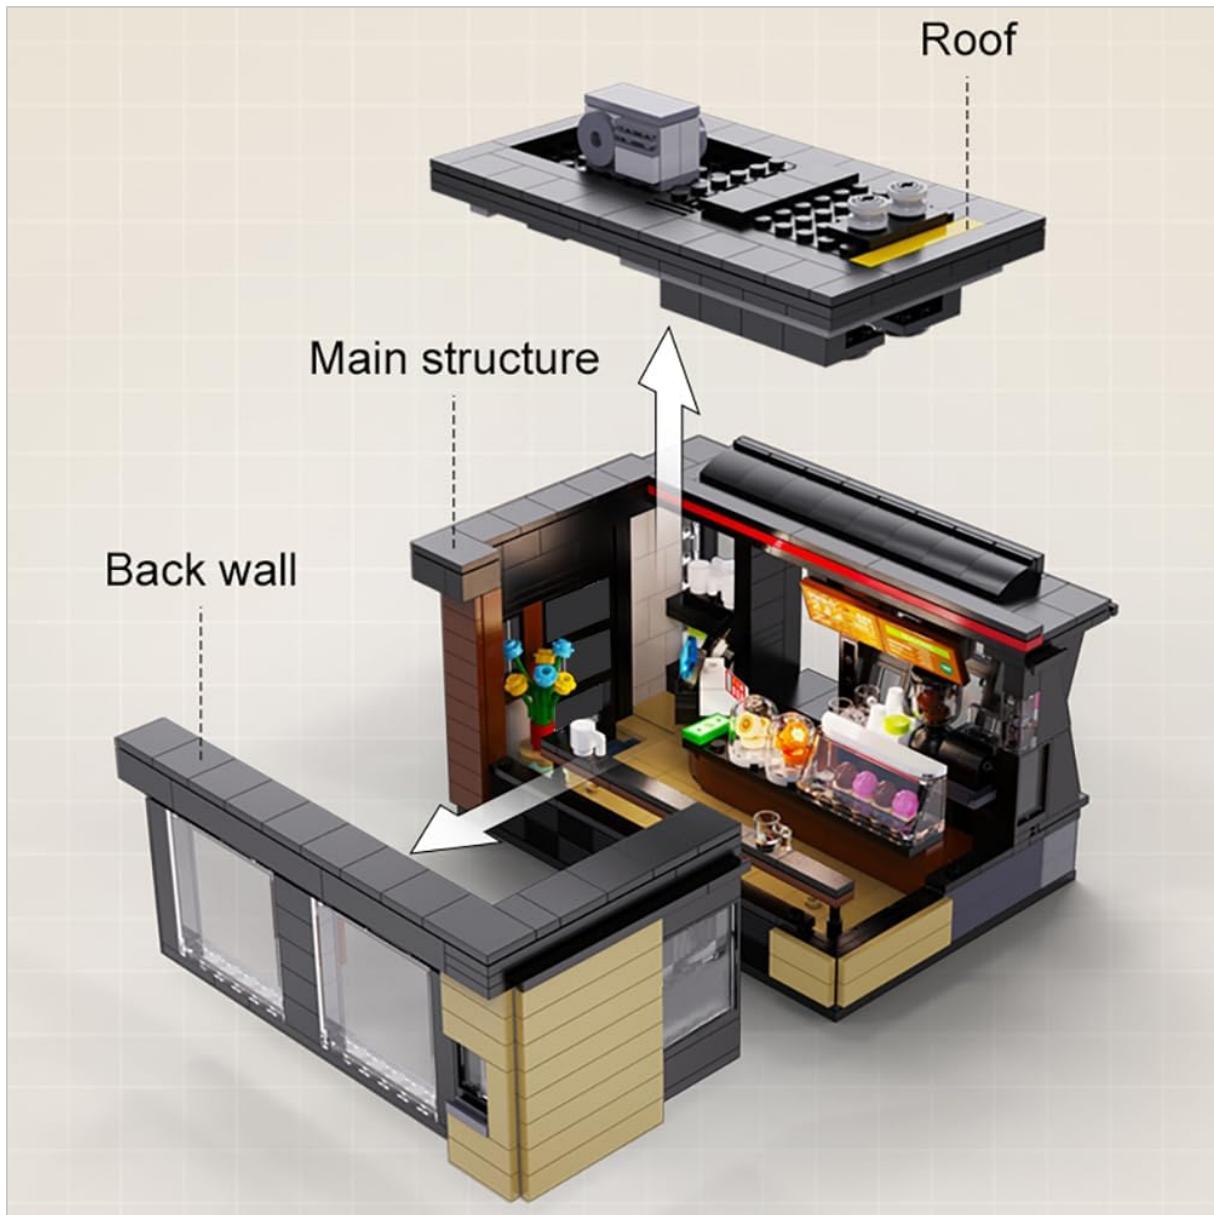

Image 4.1: Exploded view illustrating the main structural components: Roof, Main structure, and Back wall.

4.3 Key Features During Assembly

During assembly, you will build various detailed features that enhance the model's realism and aesthetic appeal:

- **Shop Signboard:** The prominent 'CADABUCKS COFFEE' sign.
- **Opening Door:** A functional door for added playability and display options.
- **Transparent Window:** Large clear windows providing a view into the detailed interior.
- **Rooftop Conditioner Unit:** A detailed air conditioning unit on the roof.

Features:

Shop signboard

Opening door

Transparent window

Conditioner

5. OPERATING INSTRUCTIONS (LED LIGHTS)

The CaDA Master C66005W model includes an integrated LED lighting system to illuminate the coffee house, creating a vibrant and realistic atmosphere. The lights are powered via a USB connection.

5.1 Connecting the Lights

1. During assembly, carefully integrate the LED light strips as indicated in the instruction manual.
2. Once the model is assembled, locate the USB connector for the lighting system.
3. Plug the USB connector into any standard USB power source (e.g., a USB wall adapter, power bank, or computer USB port).

5.2 Light Modes

The LED system features multiple lighting modes to enhance the display. Refer to the specific instructions in your manual for details on how to cycle through these modes, typically via a small button or switch on the USB cable or integrated into the model.

6. MAINTENANCE

To ensure the longevity and appearance of your CaDA Master C66005W model, follow these simple maintenance guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the model carefully to avoid dislodging pieces. If a piece comes loose, reattach it firmly.

7. TROUBLESHOOTING

If you encounter any issues during assembly or operation, please refer to the following common solutions:

- **Missing Pieces:** Double-check all packaging and sorting trays. If a piece is genuinely missing, contact CaDA customer support with the part number from the manual.

- **Difficulty Connecting Bricks:** Ensure bricks are correctly aligned and apply firm, even pressure. If a brick is particularly tight, try wiggling it gently into place.
- **Lights Not Working:** Verify that the USB cable is securely connected to both the model and a functioning power source. Check for any visible damage to the cable or light strips.
- **Structural Instability:** Review the assembly steps for the affected section to ensure all connections are correct and firm. Incorrectly placed bricks can lead to instability.

8. SPECIFICATIONS

Model Number	C66005W
Number of Pieces	768
Material	Acrylonitrile Butadiene Styrene (ABS)
Assembled Dimensions (L x W x H)	18 x 13.2 x 13.5 cm (7.09 x 5.20 x 5.31 inches)
Product Weight	1.5 kg (3.3 lbs)
Recommended Age	14 years and up
Educational Value	Creative Thinking
Lighting	Integrated LED (USB powered)
